Hermeneutics Graeme Goldsworthy,2014-06-18 In this new paperback version Graeme Goldsworthy examines the foundations and presuppositions of evangelical belief as it applies to the interpretation of the Bible He then proposes an evangelical hermeneutic rightly centered in the gospel **Thiselton on Hermeneutics** Anthony C. Thiselton,2006 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton s *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author s later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton s more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments Bibliographic Index ,1992 **On the Writing of New Testament Commentaries** Stanley E. Porter,Eckhard J. Schnabel,2012-09-28 The essays in *On the Writing of New Testament Commentaries* survey relevant questions related to the writing of commentaries on the books of the New Testament **Ephemerides theologicae Lovanienses** ,1990 **Beyond Biblical Theology** Timo Eskola,2013-10-02 Reading Heikki Rissanen s hermeneutics in context Timo Eskola explores the development of Western New Testament interpretation Reclaiming a Wredean approach to the Scriptures Rissanen focuses on tradition and interpretation He builds on Weberian sociology adopted through Peter Berger s theories and substitutes sacralized culturalism for biblical theology After examining fourteenth century Quran criticism and its impact on Reimarus Eskola discusses the genesis of the revised history of religion theory that Rissanen developed when investigating the Quran s relationship to the Bible Sociology then becomes a link between standard historicism and poststructuralism as Rissanen reinterprets Berger s sociology of knowledge Rissanen s sacralized culturalism finally becomes the theory from which his magnum opus *The Rise of Christian Beliefs* has been written

Theologische Abteilung,1991 □□ □□□ □□ □□ □□□,2006 **Space, Time and Resurrection** Thomas F. Torrance,2018-12-13 In this sequel to *Space Time and Incarnation* Thomas F Torrance sets out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of

the New Testament's message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure This classic volume from one of the premier English speaking theologians of the 20th century remains an important contribution to the field of systematic theology For this Cornerstones edition the preface is written by Paul D Molnar

The Resurrection of History David Bruce, 2014-09-08 Did Jesus really rise from the dead And does it really matter In *The Resurrection of History* David Bruce explores what historians theologians and New Testament scholars have said about the resurrection of Jesus from a historical point of view Bruce argues that scholars don't have to dismiss the scriptural witness that he is risen as metaphor or wishful thinking Bruce examines the development of the art of history writing and explores the theological possibilities now open to scholars in the twenty first century Using contemporary examples Bruce helps his readers come to grips with the interrelationship of history and theology and think like theologically informed historians Respectful of varying points of view Bruce defends the traditional orthodox view of the resurrection and challenges his readers to consider the implications for Christian faith and witness if in fact the resurrection of Jesus was historical

Torrance,2003-03-03 T F Torrance is widely recognized as one of our most important twentieth century theologians And scholars of Torrance suggest Reality Scientific Theology is one of his most accessible works Torrance s insights on Christian epistemology are remarkably relevant in light of recent discussions on realism and antirealism in philosophy and theology Torrance brilliantly sets forth no naive or even critical realism but rather an evangelical realism knowledge grounded in the revelation of God in Jesus Christ He not only constructively argues the case for an evangelical realism but compares and contrasts theological knowledge with natural scientific knowledge and shows how the Bible can function authoritatively in a fragmented church This edition of Reality and Evangelical Theology includes an in depth foreword that contextualizes Torrance s seminal theological work in light of recent debates over postmodern and postcritical hermeneutics to Scripture It will handsomely repay engagement or reengagement by theologians philosophers students and thoughtful pastors
