Governing the New Europe Jack Ernest Shalom

Hayward, Edward Page, 1995 Governing the New Europe provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War Exploring the variations of liberal democracy and market economy among the European states as well as current trends in these directions the contributors to this volume all leading authorities in European politics consider whether a common political model has begun to emerge out of historic European diversity Beginning with a discussion of the political economic and cultural development of Europe from a historical perspective the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition Further essays analyze the challenge to national party systems and electoral performance from emerging social movements and organized interest groups Political and bureaucratic structures are also examined as is the new European constitutionalism reflected in the increasingly significant role of the judiciary Lastly attention is turned to several major themes in European politics the changing foundations of foreign and security policy the function of industrial champion firms and the retreat from the welfare state Primarily

comparative in its scope *Governing the New Europe* does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non member countries Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states *Governing the New Europe* will become one of the standard texts in its field

Contributors Jack Hayward Jolyon Howorth Herbert Kitschelt Marie Lavigne Tom Mackie Michael Mezey Edward C Page Richard Parry Richard Rose Anthony Smith Alec Stone *Innovative Leaders in International Politics* Gabriel Sheffer, 1993-09-14

In today's world national leaders have immense power to make decisions affecting millions of lives both domestically and internationally Yet questions about the performance of these leaders and specifically what psychological or external factors determine whether they will be innovative and effective or will muddle through have received surprisingly little attention An introductory section presents main themes in the study of innovative leadership and in addition reviews the existing inadequate state of our knowledge The two subsequent sections further explore the basic questions through case studies of leaders in democratic systems and in transitional or authoritarian systems By looking at the individual records of such major twentieth century leaders as De Gaulle Adenauer Gandhi Gorbachev Sadat and several American presidents the authors contribute fresh insights about the particular leaders consider how the type of system in which they functioned enhanced or constrained their innovativeness and shed light on the broader questions of what factors encourage or inhibit successful innovation in the international sphere

Party Formation in East--Central Europe Gordon Wightman, 1995 a welcome addition to our stock of knowledge regarding the process of democratization the real value of the book lies in the empirical details and occasional suggestive comparisons rather than in a consistently convincing conceptual rendering of the opening pages of the new chapter in East Central European history Frank A Kunz Canadian Journal of Political Science

Party Formation in East Central Europe is an excellent book It is encouraging that many of the articles were written by scholars who are of Eastern European origins and live in the area Ann Griffiths International Insights

Party Formation in East Central Europe is one of the first books to present detailed studies of politics in Czechoslovakia Hungary Poland and Bulgaria during the initial three years of post communist rule
