Spare The Rod:

Our Misunderstood Bible Henry Clay Trumbull, 1907 Having found the gain to himself and to some others in the added light on Bible terms and truths by these explanations and corrections the writer presents the statements and suggestions herewith hoping that they may help still others Yet none of the views here expressed are to be accepted by a Bible reader unless he find them to be conformable to Bible teachings on his more careful study But in any event good can hardly fail to come of readers being stimulated to a closer examination of the grounds for believing or of questioning as to the ideas they have been accustomed to connect with certain Bible words and terms and truths Preface Should We Spare the Rod?

William Louis Scott, 1920 Behind Closed Doors Murray Murray Arnold Straus, Richard J. Gelles, Suzanne K. Steinmetz, Behind Closed Doors is grounded in the unprecedented national survey of the extent patterns and causes of violence in the American family Based on a study of over 2 000 families the authors provide landmark insights into this phenomenon of violence and what causes Americans to inflict it on their family members The authors explore the relationship between spousal abuse and child abuse as well as abuse between siblings violence by children against their parents and the causes and effects of verbal abuse Taken together their analysis provides a vivid picture of how violence is woven into the fabric of family life and why the hallmark of family life is both love and violence This is a comprehensive highly readable account of interest to both the professional and the layperson on an important topic which concerns the social well being of us all

Spare the Kids Stacey Patton, 2017-03-21 A necessary challenge to the cultural tradition of corporeal punishment in Black homes and its connections to white supremacy Encourages positive nonviolent discipline for those rearing teaching and caring for children of color Why do so many African Americans have such a special attachment to whupping children Studies show that nearly 80 percent of Black parents see spanking popping pinching and beating as reasonable effective ways to teach respect and to protect black children from the streets incarceration encounters with racism or worse However the consequences of this widely accepted approach to child rearing are far reaching and seldom discussed Dr Stacey Patton's extensive research suggests that corporal punishment is a crucial factor in explaining why Black folks are subject to disproportionately higher rates of school suspensions and expulsions criminal prosecutions improper mental health diagnoses

Tory Higgins, 2019-06-04 What does it mean to be human Why do we feel and behave in the ways that we do The classic answer is that we have a special kind of intelligence But to understand what we are as humans we also need to know what we are like motivationally And what is central to this story what is special about human motivation is that humans want to share with others their inner experiences about the world share how they feel what they believe and what they want to happen in the future They want to create a shared reality with others People have a shared reality together when they experience having in common a feeling about something a belief about something or a concern about something They feel connected to another person or group by knowing that this person or group sees the world the same way that they do they share what is real about the world In this work Dr Higgins describes how our human motivation for shared reality evolved in our species and how it develops in our children as shared feelings shared practices and shared goals and roles Shared reality is crucial to what we believe sharing is believing It is central to our sense of self what we strive for and how we strive It is basic to how we get along with others It brings us together in fellowship and companionship but it also tears us apart by creating in group bubbles that conflict with one another Our shared realities are the best of us and the worst of us **2025-26 UP TGT/PGT English Practice Book** YCT Expert Team , 2025 26 UP TGT PGT English Practice Book 432 795 E This book contains 30 sets of the practice book 15 sets of TGT and 15 sets of PGT 2025-26 Bihar STET Class IX to X English Solved Papers & Practice Book YCT Expert Team , 2025 26 Bihar STET Class IX to X English Solved Papers Practice Book 208 395 This book contains the previous year solved papers and practice book **The Jewish Law Annual Volume 18** Berachyahu Lifshitz, 2010-03-31 Volume 18 of The Jewish Law Annual contains six comprehensive articles on various aspects of Jewish law Three articles address family law

One addresses the painful issue of the plight of the wife whose husband withholds conjugal relations. In a marriage where relations are withheld the wife may seek a divorce while her husband may withhold divorce. Prolonged withholding of divorce renders the wife an *agunah* that is a wife chained to a dead marriage and unable to start anew and rebuild her life. The author explores the halakhic feasibility of allowing a wife in such a predicament to bring a claim for damages against her husband for infliction of mental distress. If such claims are allowed recalcitrant husbands may rethink their intransigence and consent to grant the divorce. Another article examines the evolution of halakhic thinking on the parent-child relationship. It traces the stages by which halakhic family law changed from a basically patriarchal system in which both mother and the child were deemed subject to the father's will to a more balanced system where wife and husband have equal standing with respect to custody matters and the best interest of the child is the main consideration in custody proceedings. In another article halakhic attitudes to corporal punishment of children are analyzed. The author explores whether the *Spare the rod and spoil the child* adage which is based on a verse from Proverbs indeed reflects the position of Jewish law. He shows that in fact while recourse to corporal punishment for educational purposes is permitted subject to detailed qualifications that greatly limit its scope two divergent approaches to corporal punishment can be discerned in the halakhic sources. One maintains that administration of corporal punishment can be a useful pedagogic tool of last resort whereas the other seeks to minimize recourse to corporal punishment in the educational context questioning its efficacy. The article shows that in any event the notion that corporal punishment is required by the law as some invoking the *spare the rod maxim* have maintained is by no means borne out by the halakhic literature. The volume also features a fascinating article on the history of two societies founded in London to further the study of Jewish law using modern scholarly methodologies. One society was active at the end of the 1920s and beginning of the 1930s the second was active a decade later. The article explains the background to the establishment of the societies and analyzes the societies' objectives, leaders and memberships. Both societies were founded with the intention of reformulating the classic halakhic sources in a manner that would render them suitable for contemporary application in the nascent Jewish state. But as the author shows ultimately much of their energy was devoted to presenting the said sources to the non-Jewish legal world for the purpose of reciprocal enrichment and edification. Rounding out the volume are two jurisprudential studies on classic legal problems. The first explores the prohibition against seeking a second legal ruling when a ruling declaring something forbidden has been handed down. What is the scope of this rule and in what ways does it differ from the *res judicata* principle in western law. The author shows that both procedural and substantive readings of the prohibition were put forward in the talmudic commentaries and explains the jurisprudential implications of these different readings. The second article examines the question of the agent who breaches his principal's trust focusing on the case of the agent who executes the act he was sent to carry out but does so for himself rather than his principal. To what extent is he liable for ensuing damages to the principal and is his act invariably deemed reprehensible.

Another issue is the legal status of the transaction carried out by such an agent Do the rights and obligations generated by the transaction accrue to the agent or to the principal And how are determinations as to the status of the transaction to be made Is the testimony of an unfaithful agent or one who has deviated from his mandate deemed trustworthy Is any role played by third parties such as vendors in determining the status of the transaction

A Self-divided Poet Rodney Stenning Edgecombe, 2009-03-26 Whereas Thomas Hood has long been regarded as a minor comic poet this book the first to devote itself exclusively to his verse provides a detailed analysis of two serious poems Hero and Leander and The Plea of the Midsummer Fairies so as to give a better sense of his range Most commentators have pointed to the influence of Keats on such occasions but close examination reveals an even greater debt to Elizabethan and Metaphysical poets whose sometimes playful deployment of the conceit struck a chord in his sensibility At the same time the book gives Hood s comic genius its due supplying detailed accounts of the deftness and panache of his light hearted oeuvre One chapter examines his excursion into the mock heroic mode Odes and Addresses to Great People and another his reliance on that airiest of forms the capriccio Whims and Oddities The study concludes with an extensive examination of Miss Kilmansegg and Her Precious Leg showing how Hood was here able to inflect a jeu d esprit with a fine Juvenalian passion

The Politics of Denial Michael A. Milburn, Sheree D. Conrad, 1996 What is the driving force behind the rage of America s white males Emotion appears to be playing a growing role in politics as evidenced by vociferous opposition to welfare abortion and immigrants as well as by the rise of the radical Religious Right antienvironmentalism and the increasingly neoconservative slant of American public opinion The Politics of Denial presents a compelling explanation of these phenomena providing solid empirical evidence for the role of rigid harsh child rearing practices in the creation of punitive authoritarian adult political attitudes The authors social psychologists show how both the political and the public policy processes in the United States are distorted by the unresolved negative emotions such as fear anger and helplessness that remain from punitive parenting and by the politicians

and conservative religious leaders who exploit those emotions Among the many public figures discussed are Patrick Buchanan Newt Gingrich Ronald Reagan and Billy Graham **English Pedagogy--old and New** Henry Barnard,1876
