Spare Parts Wendy B. Murphy, 2001-01-01 Discusses historic and modern devices and other means of replacing damaged or missing parts in humans including organ transplants genetic engineering and computer engineered limbs **Organ Transplants** Tina P. Schwartz, 2005-04-20 This is a one of a kind book that addresses the issue of what it s like to be involved with an organ transplant procedure It s filled with real life stories of teens whose parents siblings or other family members are transplant recipients as well as teens who have had transplants themselves and includes stories of recipients who have received heart liver kidney pancreas and double lung transplants This book describes the physical and emotional ups and downs that are part of the transplant process It addresses from both the recipient s and family s point of view what it feels like to be placed on the transplant list to wait for an organ to receive false alarm calls to come to the transplant center to finally undergo the transplant operation to recover to deal with setbacks of surgery and organ rejection and to live on anti rejection drugs the rest of one s life Also detailed are the medical financial mental and other preparations that must be undertaken as part of the transplant process Guidance on what to expect how to help where to seek assistance and how to support the patient is also given Answers to the tough practical and emotional questions that teens have about an organ transplant such as will my parent survive the surgery how long will it take for my parent to recover and why is this happening to me are discussed Numerous question and answer sections of frequently asked questions about organ transplants and the myths that surround them are included as well as contact information for organizations that provide many forms of assistance for recipients and their families Through all the serious issues however this book offers much hope and promise for recipients and their families through the stories of those whose lives have been greatly improved through an organ transplant This is the ideal resource for all readers who are interested in the subject of organ donation and transplant including those who are facing a transplant and their family members as well as *The Bionic Human* Allan B. Cobb, 2002-12-15 Examines some of the latest developments in the replacement of damaged human organs and other body parts with artificial or biological materials **Your Reading** Jean E. Brown, Elaine C. Stephens, 2003 This informal and inviting book offers a much needed resource for the many K 12 teachers who wonder what to do about grammar how to teach it how to apply it how to learn what they themselves were never taught It provides teachers a way to negotiate the often conflicting goals of high stakes testing confident writing the culturally inclusive classroom and the teaching of standard English while also honoring other varieties of English Novice and veteran teachers alike will appreciate the hands on approach to grammar in the classroom that includes numerous examples and practical vignettes describing real teachers real classroom experiences with specific grammar lessons including ESL issues as well as the chapters that review grammar basics A grammar glossary and annotated list of sources are also included Standard Catalog for High School Libraries H.W.
