Short, 2016-06-17 In this book the authors describe their strategies for critically reading global and multicultural literature and the range of procedures they use for critical analyses They also reflect on how these research strategies can inform classrooms and children as readers Critical content analysis offers researchers a methodology for examining representations of power and position in global and multicultural children's and adolescent literature This methodology highlights the critical as locating power in social practices by understanding uncovering and transforming conditions of inequity Importantly it also provides insights into specific global and multicultural

Feathered Marvels Dominic F. Sherony, Randi Minetor, 2024-01-22 From the discovery of the fossil Archaeopteryx to more than 10 000 different documented species today birds have become the second most diversified class of vertebrates on Earth Birds have evolved extensively since they first emerged in prehistoric times but that diversity could dwindle and even vanish unless we take steps to conserve their habitats ensuring that they sustain their numbers and their variety This natural history of birds starts in the distant past going back to the Jurassic Cretaceous and Paleogene periods in order to get a broader understanding of the birds that we see today Chapters cover their lives breeding flight migration and more while also highlighting some especially unique bird fossils such as the Pelagornis Sandersi which had a wingspan of more than 20 feet Also included are chapters on the loss of needed habitats the current decline of native birds and what can be done to reverse it

American Book Publishing Record, 1979 **Clothing and Queer Style in Early Modern English Drama** James M. Bromley, 2021-05-27 This book examines early modern drama's depiction of non standard forms of masculinity grounded in superficiality inauthenticity affectation and the display of the extravagantly clothed body Practices of extravagant dress destabilized distinctions between able bodied and disabled human and non human and the past and present distinctions that structure normative ways of thinking about sexuality In city comedies by Ben Jonson George Chapman Thomas Middleton and Thomas Dekker extravagantly dressed male characters imagine alternatives to the prevailing modes of subjectivity sociability and eroticism in early modern London While these characters are situated in hostile narrative and historical contexts this book draws on recent work on disability materiality and queer temporality to rethink their relationship to those contexts in order to access the world making possibilities of early modern queer style In their rich representations of life in London around the turn of the seventeenth century these plays not only were but also remain uniquely sensitive to the intersection of sexuality urbanization and material culture The attachments and pleasures of early modern sartorial extravagance they depict can estrange us from the epistemologies that narrow current thinking about sexuality's relationship to authenticity pedagogy interiority and privacy
