Notional Identities Thomas Christie, 2014-07-18 *Notional Identities* takes up the challenge of engaging with the popular genres of speculative fiction and crime fiction by Scottish authors from the mid 1970s until the beginning of the twenty first century examining a variety of significant novels from across the decades in the light of wider considerations of ideology genre and national identity The book investigates the extent to which the national political and cultural climate of this tumultuous era informed the narrative form and social commentary of such works and considers the manner in which and the extent to which a specific and identifiably Scottish response to these ideological matters can be identified in popular prose fiction during the period under discussion Although Scottish literary fiction of recent decades has been studied in considerable depth Scottish popular genre literature has received markedly less critical scrutiny in comparison *Notional Identities* aims to help in redressing this balance examining popular Scottish texts of the stated period in order to reflect upon whether a significant relationship can be discerned between genre fiction and the mainstream of Scottish literary writing and to consider the characteristics of the literary connections which exist between these different modes of writing

Scotland as Science Fiction Caroline McCracken-Flesher, 2012 Scots like Iain N Banks

and Ken MacLeod lead in a futuristic tradition for from MacDonald Barrie and Stevenson onwards Scots have been speculating in ways derived from their unique circumstances lacking political power they imagine future spaces and different places with A Sparrow's Flight Margaret Elphinstone,1989 In A Sparrow's Flight her second novel first published in 1989 Margaret Elphinstone is already occupying her characteristic location on the borderlands which were to become familiar territory in her subsequent writing The novel is set in the debatable lands between Scotland and England but explores more elusive borders between waking and dreaming sanity and madness myth and reality and the unsettling landscape between our imagined pasts and hoped for futures Thomas and Naomi are on a journey through a world that has experienced catastrophic change Early reviewers writing amid the Cold War placed the story in the aftermath of nuclear holocaust The author offers no such certainty The plaintive but unexplained references to before the world changed resonate with a menace all the more unnerving in its ambiguity Through this regenerating landscape the previously blighted empty lands Thomas and Naomi find their journey turns full circle returning them to their starting point as changed people with new understandings of friendship and belonging As with every quest there is a grail and their grail is music Its rediscovery is a metaphor for that Golden Age we all need to believe existed before the world changed powerfully convincing in its blend of medievalism and post modern disillusion Douglas Gifford The Best Science Fiction and Fantasy of the Year Jonathan Strahan,2012-03-01
