The Skin of the Film Laura U. Marks,2000-01-19 Uses Deleuze to explore new ways of looking at intercultural and experimental cinema *The Skin of the Film* Laura U. Marks,Dana Polan,2000-01-19 Uses Deleuze to explore new ways of looking at intercultural and experimental cinema Biophysics of Skin and Its Treatments Bharat Bhushan,2016-09-28 This book provides a comprehensive overview of the structural nanotribological and nanomechanical properties of skin with and without cream treatment as a function of operating environment The biophysics of skin as the outer layer covering human or animal body is discussed as a complex biological structure Skin cream is used to improve skin health and create a smooth soft and flexible surface with moist perception by altering the surface roughness friction adhesion elastic modulus and surface charge of the skin surface **pH of the Skin: Issues and Challenges** Christian Surber,Christoph Abels,Howard Maibach,2018-08-21 The concept of expressing acidity as the negative logarithm of the hydrogen ion concentration was defined and termed pH in the beginning of the 20th century The general usefulness of the pH concept for life science was recognized and later gained importance to analytical research Reports on results of pH measurements from living skin established the term acid mantle the skin s own protective shield that maintains a naturally acid pH It is invisible to the eye but crucial to the overall wellbeing of skin Chronic alkalization can throw this acid mantle out of balance leading to inflammation dermatitis and atopic skin diseases It is therefore no surprise that skin pH shifts have been observed in various skin pathologies It is also obvious that the pH in topically applied preparations may play an important role Optimal pH and buffer capacity within topical preparations not only support stability of active ingredients and auxiliary materials but may also increase absorption of the non ionized species of an acidic or a basic active ingredient They may even open up opportunities to modify and correct skin pH and hence accelerate barrier recovery and maintain or enhance barrier integrity Further efforts are needed to standardize and improve pH measurements in biological media or pharmaceutical cosmetic vehicles to increase and ensure quality comparability and relevance of research data In this volume we present a unique collection of papers that address past present and future issues of the pH of healthy and diseased skin It is hoped that this collection will foster future efforts in clinical and experimental skin research **Skin Care in Radiation Oncology** Barbara Fowble,Sue S. diagnosis of pathologic changes by means of radio graphy should concentrate first on the detection of such minute changes The ideal solution would be to produce X ray images of findings much finer than those observable by the naked eye and herein lies a new field of research that is believed to be worth developing The introduction of a 0 3 mm focal spot rotating anode tube about 25 years ago opened the way to the clinical application of magnification radiography Due to the postwar economic situation we were unable to import this type of X ray tube but we believed in the importance of magnification radiography in X ray diagnosis and in 1952 we produced an X ray tube with a 0 15 mm focal spot by reconstructing an existing fixed anode tube This X ray tube has been improved step by step so that tubes with focal spots of 0 1 mm or 0 05 mm are now available in Japan Thus it has become possible to obtain 4 to 6 x magnification images of minute lesions that could not be imaged by normal roentgenography **Straitjacket Sexualities** Celine Shimizu,2012-05-09 Depictions of Asian American men as effeminate or asexual pervade popular movies Hollywood has made clear that Asian American men lack the qualities inherent to the heroic heterosexual male This restricting circumscribed vision of masculinity a straitjacketing according to author Celine Parre as Shimizu aggravates Asian American male sexual problems both on and off screen Straitjacket Sexualities Unbinding Asian American Manhoods in the Movies looks to cinematic history to reveal the dynamic ways Asian American men from Bruce Lee to Long Duk Dong create and claim a variety of masculinities Representations of love romance desire and lovemaking show how Asian American men fashion manhoods that negotiate the dynamics of self and other expanding our ideas of sexuality The unique ways in which Asian American men express intimacy is powerfully represented onscreen offering distinct portraits of individuals struggling with group identities Rejecting macho men these movies stake Asian American manhood on the notion of caring for rather than dominating others Straitjacket Sexualities identifies a number of moments in the movies wherein masculinity is figured anew By looking at intimate relations on screen power as sexual prowess and brute masculinity is redefined giving primacy to the diverse ways Asian American men experience complex ambiguous and ambivalent genders and sexualities
