This methodology takes a decolonial approach to engaging community members in the research process and integrates critical feminist and indigenous epistemologies. *Cultura y Corazón* presents case studies from the authors' work within the fields of education and health. It offers key strategies to working in partnership with marginalized Latinx communities that are grounded in deep respect for the communities' cultures and lived experiences. This book is intended for students, researchers, and practitioners who want to work with vulnerable populations through a community-based approach that truly respects and integrates culture values and funds of knowledge.

Wolves at Our Door J. P. S. Brown, 2011-10-18 Along the border of southern Arizona and northern Mexico, a close-knit group of Anglo and Hispanic families struggle to keep their ranches alive amidst the depredations of drug lords and smugglers. Here, age-old values collide with gangs of hardened border criminals in a raw tale of action, adventure, and justice. J. P. S. Brown opens a window onto a part of the world that few have seen and even fewer have understood, offering a view of the world of cattle ranching in an area where homes are still without electricity or plumbing, where ranches are reachable only by plane or horseback, and where neighbors are family or deadly foes.

The Princes of Naranja Paul Friedrich, 2014-02-19 In this groundbreaking study, Paul Friedrich looks closely at the strong men of the Tarascan Indian village of Naranja: their leadership, friendship, kinship, and violent local politics over a time depth of one generation, and ways to understand such phenomena. What emerges is an acutely observed portrait of the men who form the very basis of the grassroots power structure in Mexico today. Of interest to historians, sociologists, and political scientists as well as Latin Americanists and anthropologists, *The Princes of Naranja* is a sequel to Friedrich's now classic *Agrarian Revolt in a Mexican Village*. It begins with biographical character studies of seven leaders: peasant, gunmen, judges, politicians. Here, the book will grip the reader and provoke strong emotional response, from laughter to horror. A middle section places these princes in relation to each other and to the contexts of village society and the larger entities of which it forms a part. Friedrich's synthesis of anthropology, local history, oral history, macrohistory, microsociology, psychology, and literature gives new insight into the structure of Mexican politics from the local level up and provides a model for other scholars doing analogous work in other parts of the world, especially in the developing world. The concluding section raises vital questions about the dynamic relations between the fieldworker, fieldwork, field notes, the villagers, the writing of a fieldwork-based book, and implicitly the audience for such books.

Smith,2016-02-22 At Home with the Aztecs provides a fresh view of Aztec society focusing on households and communities instead of kings pyramids and human sacrifice This new approach offers an opportunity to humanize the Aztecs moving past the popular stereotype of sacrificial maniacs to demonstrate that these were successful and prosperous communities Michael Smith also engagingly describes the scientific logistic and personal dimensions of archaeological fieldwork drawing on decades of excavating experience and considering how his research was affected by his interaction with contemporary Mexican communities Through first hand accounts of the ways archaeologists interpret sites and artifacts the book illuminates how the archaeological process can provide information about ancient families Facilitating a richer understanding of the Aztec world Smith s research also redefines success prosperity and resilience in ancient societies making this book suitable not only for those interested in the Aztecs but in the examination of complex societies in general
