The Comparative Archeology of Early Mesopotamia Ann Louise Perkins,1959 **The Comparative Archaeology of Early Mesopotamia** Ann Louise Perkins,1949 *The Comparative Archeology of Early Mesopotamia*, by Ann Louise Perkins... Ann Louise Perkins,1949 **The Archaeology of Seafaring in Ancient South Asia** Himanshu Prabha Ray,2003-08-14 Prior to European expansion communities of the Indian subcontinent had a strong maritime orientation In this new archaeological study Himanshu Prabha Ray explores seafaring activity religious travel and political economy in this ancient period By using archaeological data from the Red Sea to the Indonesian archipelago she reveals how the early history of peninsular South Asia is interconnected with that of its Asian and Mediterranean partners in the Indian Ocean Region The book departs from traditional studies focusing on the communities maritime history rather than agrarian expansion and the emergence of the state Rather than being a prime mover in social economic and religious change the state is viewed as just one participant in a complex interplay of social actors including merchants guilds boat builders sailors pilgrims religious clergy and craft producers A study that will be welcomed by students of Archaeology and Ancient History particularly those interested in South Asian Studies **The Archaeology of the Kurdistan Region of Iraq and Adjacent Regions** Konstantinos Kopanias,John MacGinnis,2016-06-23 Conference proceedings presenting the first opportunity for leading figures in the burgeoning area of archaeological research in the Kurdish Autonomous Region of Iraq to gather and present all the key new projects which are revolutionising our understanding of the region **The Comparative Archaeology of Complex Societies** Michael E. Smith,2011-09-05 Part of a resurgence in the comparative study of ancient societies this book presents a variety of methods and approaches to comparative analysis through the examination of wide ranging case studies Each chapter is a comparative study and the diverse topics and regions covered in the book contribute to the growing understanding of variation and change in ancient complex societies The authors explore themes ranging from urbanization and settlement patterns to the political strategies of kings and chiefs to the economic choices of individuals and households The case studies cover an array of geographical settings from the Andes to Southeast Asia The authors are leading archaeologists whose research on early empires states and chiefdoms is at the cutting edge of scientific archaeology
