The Complete Works Orations Xviiliii Volume:

Orations XVII-LIII Aelius Aristides, 1981 Fashioning the Future in Roman Greece Estelle Strazdins, 2023 Strazdins uses literature inscriptions and art to explore the relationship of elite Greeks of the Roman imperial period to time She establishes that imperial Greek temporality was more complex than previously allowed by detailing how cultural output used the past to position itself within tradition but was crafted to speak to the future Hidden Criticism of the Angry Tyrant in Early Judaism and the Acts of the Apostles, Drew J. Strait, 2019-07-31 Hidden Criticism of the Angry Tyrant in Early Judaism and the Acts of the Apostles adds to the current literature of imperial critical New Testament readings with an examination of Luke s hidden criticism of imperial Rome in the Acts of the Apostles and in Paul s speech on the Areopagus in Acts 17 Focusing on discursive resistance in the Hellenistic world Drew J Strait examines the relationship between hidden criticism and persuasion and between subordinates and the powerful and he explores the challenge to the dissident voice to communicate criticism while under surveillance Strait argues that Luke confronts the idolatrous power and iconic spectacle of gods and kings with the Gospel of the Lord of all a worldview that is incompatible with the religions of Rome including Origins of the Colonnaded Streets in the Cities of the Roman East Ross Burns, 2017-05-26 The emperor worship colonnaded axes define the visitor's experience of many of the great cities of the Roman East How did this extraordinarily bold tool of urban planning evolve The street instead of remaining a mundane passage a convenient means of passing from one place to another was in the course of little more than a century transformed in the Eastern provinces into a monumental landscape which could in one sweeping vision encompass the entire city. The colonnaded axes became the touchstone by which cities competed for status in the Eastern Empire Though adopted as a sign of cities prosperity under the Pax Romana they were not particularly Roman in their origin Rather they reflected the inventiveness fertility of ideas and the dynamic role of civic patronage in the Eastern provinces in the first two centuries under Rome This study will concentrate on the convergence of ideas behind these great avenues examining over fifty sites in an attempt to work out the sequence in which ideas developed across a variety of regions from North Africa around to Asia Minor It will look at the phenomenon in the context of the consolidation of Roman rule **Sidewalk Oracles** Robert Moss, 2015-09-15 Synchronicity is when the universe gets personal Through this book of games and enchanting stories you ll learn how to monitor the play of coincidence and the symbolic resonance of incidents in daily life in order to tap into the deeper logic of events receive extraordinary counsel and have wonderful fun You will be invited to become a kairomancer someone who is poised to catch the messages in special moments when synchronicity is in play and to take action to seize the opportunities those moments present To be a kairomancer you need to trust your feelings as you walk the roads of this world to develop your personal science of shivers and to recognize in your gut and your skin that you know far more than you hold on the surface of consciousness This is a way of real magic which is the art of bringing gifts from a deeper world into this one Follow it and you will put a champagne

fizz of enchantment into your everyday life **Truly Beyond Wonders** Alexia Petsalis-Diomidis, 2010-03-04 A fully illustrated study of healing pilgrimage in the Roman empire during the second century AD The focus is upon one particular pilgrim the famous orator Aelius Aristides whose Sacred Tales is examined in the context of the sanctuary of Asklepios at Pergamon where the author spent two years in search of healing **Delivering from Memory** William D. Shiell, 2011-09-16 When the New Testament was read publicly what effect did the performances have on the audience In Delivering from Memory William Shiell argues that these performances shaped early Christian paideia among communities of active engaged listeners Using Greco Roman rhetorical conventions Shiell's groundbreaking study suggests that lectors delivered from memory without memorizing the text verbatim and audiences listened with their memories in a collaborative process with the performer The text functioned as a starting place for emotion paraphrase correction and instruction In the process the performances trained and shaped the character of the reader and the formation of the audience The lector's performance functioned as a mirror for the audience to examine themselves as children of God These conventions shaped the ways lectors performed Jesus Just as the New Testament reflects many titles for Jesus so the canonical form of the Gospels offers many ways Jesus was performed in the ancient world By interpreting through the eyes of performance we join a conversation that has existed since the formative stages of the Christian movement By performing with the ancient audience we shape the character of reader and audience through the emotions rhetorical figures and memories in the text We raise new questions about audiences in the ancient world and interpret stories through the ears of performance Narrators, Narratees, and Narratives in Ancient Greek Literature René Nünlist, Angus M. Bowie, Irene de Jong, 2017-07-31 This is the first in a series of volumes which together will provide an entirely new history of ancient Greek narrative literature Its organization is formal rather than biographical It traces the history of central narrative devices such as the narrator and his narratees time focalization characterization description speech and plot It offers not only analyses of the handling of such a device by individual authors but also a larger historical perspective on the manner in which it changes over time and is put to different uses by different authors in different genres The first volume lays the foundation for all volumes to come discussing the definition and boundaries of narrative and the roles of its producer the narrator and recipient the narratees Themistius and the Imperial Court John Vanderspoel,1995 The conflict between duty and individual freedom Reading the Book of Revelation David L. Barr, 2003-10-01 The Apocalypse lends itself to multivalent readings and this volume fills a gap for students and scholars by discussing how different methods apply to readings Using historical literary and social analysis in combination with strategies such as social conflict theory philosophy women s studies ethics history of religions postcolonial studies and popular culture the essays in this volume focus on specific texts and show not only how each helps interpret the text but also how diverse methods produce divergent readings of a text Developed as a classroom resource for undergraduates this work will also prove useful to graduate students religious leaders and others who wish to explore how

methods shape our understandings of various texts including Revelation The Fall of the Roman Empire Martin M. Winkler, 2012-12-18 The essays collected in this book present the first comprehensive appreciation of The Fall of the Roman Empire from historical historiographical and cinematic perspectives. The book also provides the principal classical sources on the period It is a companion to Gladiator Film and History Blackwell 2004 and Spartacus Film and History Blackwell 2007 and completes a triad of scholarly studies on Hollywood's greatest films about Roman history A critical re evaluation of the 1964 epic film The Fall of the Roman Empire directed by Anthony Mann from historical film historical and contemporary points of view Presents a collection of scholarly essays and classical sources on the period of Roman history that ancient and modern historians have considered to be the turning point toward the eventual fall of Rome Contains a short essay by director Anthony Mann Includes a map of the Roman Empire and film stills as well as translations of the principal ancient sources an extensive bibliography and a chronology of events From the Ancient Near East to Christian Byzantium Mario Baghos, 2021-03-11 This book combines concepts from the history of religions with Byzantine studies in its assessments of kings symbols and cities in a diachronic and cross cultural analysis The work attests firstly that the symbolic art and architecture of ancient cities commissioned by their monarchs expressing their relationship with their gods show us that religiosity was inherent to such enterprises It also demonstrates that what transpired from the first cities in history to Byzantine Christendom is the gradual replacement of the pagan ruler cult which was inherent to city building in antiquity with the ruler becoming subordinate to Christ exemplified by representations of the latter as the Master of All Pantokrator Beginning in Mesopotamia the book continues with an analysis of city building by rulers in Egypt Greece and Rome before addressing Judaism specifically the city of Jerusalem and Christianity as shifting the emphasis away from pagan gods and rulers to monotheistic perceptions of God as elevated above worldly kings It concludes with an assessment of Christian Rome and Constantinople as typifying the evolution from the ancient and classical world to Christendom **Wonders Never** Cease Michael Labahn, L. J. Lietaert Peerbolte, 2006-02-23 The various contributions intend to demonstrate for what reason miracle stories were told in different religious political and historical circumstances All authors are experts in their field and position the narrating of miracle stories within a specific literary and religio historical context Law and Empire ,2013-08-15 Law and Empire provides a comparative view of legal practices in Asia and Europe from Antiquity to the eighteenth century It relates the main principles of legal thinking in Chinese Islamic and European contexts to practices of lawmaking and adjudication In particular it shows how legal procedure and legal thinking could be used in strikingly different ways Rulers could use law effectively as an instrument of domination legal specialists built their identity livelihood and social status on their knowledge of law and non elites exploited the range of legal fora available to them This volume shows the relevance of legal pluralism and the social relevance of litigation for premodern power structures Contested Ethnicities and Images David L. Balch, 2015-04-28 Ethnic values changed as Imperial Rome expanded challenging

ethnocentric values in Rome itself as well as in Greece and Judea Rhetorically Roman Greek and Judean writers who eulogized their cities all claimed they would receive foreigners Further Greco Roman narratives of urban tensions between rich and poor proud and humble promoted reconciliation and fellowship between social classes Luke wrote Acts in this ethnic economic political context narrating Jesus as a founder who changed laws to encourage receiving foreigners which promoted civic missionary growth and legitimated interests of the poor and humble David L Balch relates Roman art to early Christianity and introduces famous pre Roman Corinthian artists He shows women visually represented as priests compares Dionysian and Corinthian charismatic speech and argues that larger assemblies of the earliest Pauline believers sat 1 Cor 14 30 in taverns Also the author demonstrates that the image of a pregnant woman in Revelation 12 subverts imperial claims to the divine origin of the emperor before finally suggesting that visual representations by Roman domestic artists of a category of women who upset expected forms of conduct Bergmann encouraged early Christian women like Thecla Perpetua and Felicitas to move beyond gender stereotypes of being victims Balch concludes with two book reviews one of Nicolas Wiater's book on the Greek biographer and historian Dionysius who was a model for both Josephus and Luke Acts the second of a book by Frederick Brenk on Hellenistic philosophy and mystery religion in relation to earliest Christianity ^ATyrant-Slayers of Ancient Athens Vincent Azoulay, Janet Lloyd, 2017-10-02 This investigation relies on a rash bet to write the biography of two of the most famous statues in Antiquity the Tyrannicides By recreating the eventful life of these statues from their birth to their disappearance Vincent Azoulay reveals that they were much more than a simple reflection an acting Conscience in Philo and Paul Philip Bosman, 2003 Revised thesis doctoral symbol that models and makes history University of Pretoria RSA 1996 Literature and Culture in the Roman Empire, 96-235 Alice König, Rebecca Langlands, James Uden, 2020-04-30 Discovers new connections and cross fertilisations between different cultural linguistic and religious communities in the Roman Empire The Battle for the Keys Justin W Bass, 2014-04-01 There has been a lack of serious historical investigation of the famous creedal statement Christ descended into hell that was universally affirmed by the church for the first 1 500 years of Church history This book is an in depth investigation of the history of the doctrine of Christ's descent and how Revelation 1 18 alludes to Christ's descent COMMENDATION In The Battle for the Keys Justin Bass leads us through an exceptional exegetical historical and theological exploration of the question of both the whether and whither of the Christ's descensus ad infernos Whatever doubters or believers choose to do with Dr Bass's competent and convincing evidence arguments and conclusions they cannot choose to ignore them Michael J Svigel Dallas Theological Seminary USA Paul, the Stoics, and the Body of Christ Michelle V. Lee, 2006-07-20 At first glance Paul s words to the Corinthians about being the body of Christ seem simple and straightforward He compares them with a human body so that they may be encouraged to work together each member contributing to the good of the whole according to his or her special gift However the passage raises several critical questions which point to its deeper implications Does Paul mean that the

community is like a body or is he saying that they are in some sense a real body What is the significance of being specifically the body of Christ Is the primary purpose of the passage to instruct on the correct use of spiritual gifts or is Paul making a statement about the identity of the Christian community Michelle Lee examines Paul s instructions in 1 Corinthians 12 14 against the backdrop of Hellenistic moral philosophy and especially Stoicism
