Levitz, PhD, Rabbi Abraham J. Twerski, MD, 2012-09-24 Provides the requisite knowledge and practical guidelines for some of the most common counseling situations Today s rabbis in addition to being spiritual leaders of their congregations are also expected to be competent counselors to members of their community Yet rabbis often feel inadequately prepared for the difficult challenges of their counseling role To many rabbinic counseling appears deceptively simple requiring no more than good intuition fair judgment and sincere empathy Good counseling in reality is a complex process requiring a combination of knowledge skill self awareness and an understanding of human dynamics This groundbreaking book written specifically for community rabbis and religious counselors reflects the wisdom of seasoned professionals who provide clear guidelines and sensible strategies for effective rabbinic counseling *Hot Topics* Behrman House, Susan Freeman, 2005 Ideal as a complete course text or as an informative supplement to one shot classroom discussions this complement to Teaching Hot Topics encourages students to engage with issues through its interactive design pertinent scenarios probing questions and charts that summarize points and counterpoints for each topic *The Jewish Law Annual Volume 19* Berachyahu Lifshitz, Hanina Ben-Menahem, 2013-07-04 Volume 19 of The Jewish Law Annual is a festschrift in honor of Professor Neil S Hecht It contains thirteen articles ten in English and three in Hebrew Several articles are jurisprudential in nature focusing on analysis of halakhic institutions and concepts Elisha Ancselovits discusses the concept of the prosbul asking whether it is correct to construe it as a legal fiction as several scholars have asserted He takes issue with this characterization of the prosbul and with other scholarly readings of Tannaitic law in general The concepts of dignity and shame are addressed in two very different articles one by Nahum Rakover and the other by Hanina Ben Menahem The former discusses halakhic sources

pertaining to the dignity inherent in human existence and the importance of nurturing it. The latter presents a fascinating survey of actual legal practices that contravened this halakhic norm. Attestations of these practices are adduced not only from halakhic and semi halakhic documents but also from literary historical and ethnographic sources. Three articles tackle topical issues of considerable contemporary interest. Bernard S. Jackson comments on legal issues relating to the concept of conversion arising from the story of the biblical heroine Ruth and compares that concept to the notion of conversion invoked by a recent English court decision on eligibility for admission to denominational schools. An article by Dov I. Frimer explores the much agonized over question of halakhic remedies for the wife whose husband refuses to grant her a get bill of divorce precluding her remarriage. Frimer's focus is the feasibility of inducing the husband to grant the get through monetary pressure specifically by awarding the chained wife compensatory tort damages. Tort remedies are also discussed in the third topical article by Ronnie Warburg on negligent misrepresentation by investment advisors. Two papers focus on theory of law. Shai Wozner explores the decision rules conduct rules dichotomy in the Jewish law context clarifying how analysis of which category a given law falls under enhances our understanding of the law's intent. Daniel Sinclair explores the doctrine of normative transparency in the writings of Maimonides, the Hatam Sofer and R. Abraham Isaac Kook demonstrating that although transparency was universally endorsed as an ideal, some rabbinical authorities were willing to forego transparency where maintenance of the halakhic system itself was imperiled. An article by Alfredo M. Rabello reviews the primary and secondary literature on end of life issues and contextualizes the much discussed talmudic passage bAvoda Zara 18a. And an article by Chaim Saiman offers a critical survey of the main approaches to conceptualizing and teaching Jewish law in American universities; it also makes suggestions for new and perhaps more illuminating pedagogic direction. In the Hebrew section an intriguing article by Berachyahu Lifshitz presents a comparison of Persian and talmudic law on the status of promises and the role of the divine in their enforcement. Yuval Sinai discusses the halakhic law of evidence particularly the well known two witnesses requirement and departures from it. The volume closes with a historical article by Elimelech Westreich on the official rabbinical court in nineteenth century Jerusalem. It focuses on the rabbinical figures who served on the court, the communities for whom it adjudicated and its role in the broader geopolitical and sociocultural context.

Encyclopedia of Medicine in the Bible and the Talmud Fred Rosner, 2000. *Encyclopedia of Medicine in the Bible and the Talmud* includes many items dealing with the field of Jewish medical ethics and serves as an important tool for those who wish to read about or research medical and related topics as found in traditional biblical and talmudic sources. *Judaism and Disability* Judith Z. Abrams, 1998. *Judaism and Disability* delves into all of the ancient texts and their explications including the Tanach, the Hebrew acronym for the Jewish Bible, the Mishnah, considered the foundation of rabbinic literature and the Bavli, the Babylonian Talmud. Instead of imposing a contemporary consciousness upon these archaic works, this carefully researched book presents their viewpoints as written in an effort to understand why they expressed the sensibilities

that they did *Nutrition and Food Services for Integrated Health Care* Rita Jackson,1997 Dietetics educators and practitioners will find much in these pages to challenge them As integrated health care systems evolve For better or for worse dietitians need to develop the skills and attitudes that will facilitate not just survival but also expansion of the profession Journal of the American Dietetic Association A must have resource for nutrition and food service administrators providing vital information about trends in the industry how others are meeting current demands with innovative programs that contain costs without compromising quality The standards of care in more progressive settings and how innovative techniques and technological advancements can be implemented to control resources while upholding these standards Optional methods For The delivery of food service and nutrition care are presented along with actual case studies illustrating innovative solutions To The common dilemmas confronting dietetic professionals today Includes an Instructor s Manual
