Gardner, 2020-03-17 In 1190 Chu Hsi published an edition of the Four Books which he regarded as the basic curriculum for Confucian education Of the four he recommended that the Ta Hsueh be read first calling it the outline for learning This is a study of the Ta Hsueh text its history prior to the Sung dynasty its new prominence in the Sung and the reasons why Chu Hsi found the text so intellectually and philosophically compelling Includes an original annotated translation of the text **The Confucian Canon** Grace H. Turnbull, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work Zhu Xi's Reading of the Analects Daniel K. Gardner, 2003 This text explains the significance of Zhu Xi's interpretation of the Confucian tradition and of the genre of commentary in Eastern philosophy *The Books of Traditional Confucian Canon* Confucius, 2022-01-04 These books are the five pre Qin Chinese books that form part of the traditional Confucian canon During the Western Han dynasty which adopted Confucianism as its official ideology these texts became part of the state sponsored curriculum It was during this period that the texts first began to be considered together as a set collection and to be called collectively the Five Classics I Ching The book contains a divination system comparable to Western geomancy or the West African If system In Western cultures and modern East Asia it is still widely used for this purpose Shu King A collection of documents and speeches alleged to have been written by rulers and officials of the early

Zhou period and before It is possibly the oldest Chinese narrative and may date from the 6th century BC It includes examples of early Chinese prose The Shih King A collection of 305 poems divided into 160 folk songs 105 festal songs sung at court ceremonies and 40 hymns and eulogies sung at sacrifices to heroes and ancestral spirits of the royal house The Li Ki Describes ancient rites social forms and court ceremonies The version studied today is a re worked version compiled by scholars in the third century BC rather than the original text which is said to have been edited by Confucius himself Spring and Autumn Annals A historical record of the State of Lu Confucius s native state 722 481 BC *Transformations Of The Confucian Way* John Berthrong,2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world John Berthrong s comprehensive new work tells the story of the grand intellectual development of the Confucian tradition revealing all the historical phases of Confucianism and opening the reader s eyes to the often neglected gifts of scholars of the Han T ang and the modern periods as well as to the vast contributions of Korea and Japan The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West **Rewriting Early Chinese Texts** Edward L. Shaughnessy,2006-06-01 Rewriting Early Chinese Texts examines the problems of reconstituting and editing ancient manuscripts that will revise indeed rewrite Chinese history It is now generally recognized that the extensive archaeological discoveries made in China over the last three decades necessitate such a rewriting and will keep an army of scholars busy for years to come However this is by no means the first time China s historical record has needed rewriting In this book author Edward L Shaughnessy explores the issues involved in editing manuscripts rewriting them both today and in the past The book begins with a discussion of the difficulties encountered by modern archaeologists and paleographers working with manuscripts discovered in ancient tombs The challenges are considerable these texts are usually written in archaic script on bamboo strips and are typically fragmentary and in disarray It is not surprising that their new editions often meet with criticism from other scholars Shaughnessy then moves back in time to consider efforts to reconstitute similar bamboo strip manuscripts found in the late third century in a tomb in Jixian Henan He shows that editors at the time encountered many of the same difficulties faced by modern archaeologists and paleographers and that the first editions produced by a court appointed team of editors quickly prompted criticism from other scholars of the time Shaughnessy concludes with a detailed study of the editing of one of these texts the Bamboo Annals Zhushu jinian arguably the most important manuscript ever discovered in China Showing how at least two different competing editions of this text were produced by different editors and how the differences between them led later scholars to regard the original edition the only one still extant as a forgery Shaughnessy argues for this text s place in the rewriting of early Chinese history Classics and Interpretations Ching-I Tu,2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation Borrowed from students of

the ever growing body of biblical interpretive literature that originated in the early Christian era theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation Classics and Interpretations applies this method to Chinese culture Several essays focus on hermeneutic traditions of Neo Confucianism Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese culture This volume makes a concerted effort to remedy our ignorance of the Chinese hermeneutical tradition Part 1 The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta hsueh text and its treatment as either canonical or heterodox Part 2 Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo Confucian canonical exegetes and polemicists and discusses the Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch ing Period and Contemporary Interpretations of Confucian Culture Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics *Scripture, Canon and Commentary* John B. Henderson, 2014-07-14 In this major contribution to the study of the Chinese classics and comparative religion John Henderson uses the history of exegesis to illuminate mental patterns that have universal and perennial significance for intellectual history Henderson relates the Confucian commentarial tradition to other primary exegetical traditions particularly the Homeric tradition Vedanta rabbinic Judaism ancient and medieval Christian biblical exegesis and Qur'anic exegesis In making such comparisons he discusses some basic assumptions common to all these traditions such as that the classics or scriptures are comprehensive or that they contain all significant knowledge or truth and analyzes the strategies deployed to support these presuppositions As shown here primary differences among commentarial or exegetical traditions arose from variations in their emphasis on one or another of these assumptions and strategies Henderson demonstrates that exegetical modes of thought were far from arcane they dominated the post classical premodern intellectual world Some have persisted or re emerged in modern times particularly in ideologies such as Marxism Written in an engaging and accessible style *Scripture Canon and Commentary* is not only a challenging interpretation of comparative scriptural traditions but also an excellent introduction to the study of the Confucian classics Originally published in 1991 The Princeton Legacy Library

Adler, 2014-03-27 Zhu Xi the twelfth century architect of the neo Confucian canon declared Zhou Dunyi to be the first true sage since Mencius This was controversial as many of Zhu Xi's contemporaries were critical of Zhou Dunyi's Daoist leanings and other figures had clearly been more significant to the Song dynasty Confucian resurgence Why was Zhou Dunyi accorded such importance Joseph A Adler finds that the earlier thinker provided an underpinning for Zhu Xi's religious practice Zhou Dunyi's theory of the interpenetration of activity and stillness allowed Zhu Xi to proclaim that his own theory of mental and spiritual cultivation mirrored the fundamental principle immanent in the natural world This book revives Zhu Xi as a religious thinker challenging longstanding characterizations of him Readers will appreciate the inclusion of complete translations of Zhou Dunyi's major texts Zhu Xi's published commentaries and other primary source material *Confucianism as a World Religion* Anna Sun, 2013-04-21

Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century Science and the Confucian Religion of Kang Youwei (1858-1927) Zhaoyuan WAN, 2021-11-15 WAN Zhaoyuan analyses how Chinese intellectuals conceived of the relationship between science and religion through in depth examination of the writings of Kang Youwei a prominent political reformer and radical Confucian thinker often referred to by his disciples as the Martin Luther of Confucianism Confronted with the rise of scientism and challenged by the Conflict

Thesis during his life among adversarial Chinese New Culture intellectuals Kang maintains a holistic yet evolving conception of a compatible and complementary relationship between scientific knowledge and true religion exemplified by his Confucian religion kongjiao This close analysis of Kang s ideas contributes to a richer understanding of the history of science and religion in China and in a more global context **The Canon of Supreme Mystery by Yang Hsiung** Michael

Nylan,1993-01-01 Translation of the first grand synthesis of classic Chinese thought This is a translation with a commentary and a long contextualizing introduction of the only major work of Han 206 B C to 220 A D philosophy that is still available in complete form It is the first translation of the work into a European language and provides unique access to this formative period in Chinese history Because Yang Hsiung s interpretations drew upon a variety of pre Han sources and then dominated Confucian learning until the twelfth century this text is also a valuable resource on early Chinese history philosophy and culture beyond the Han period The T ai hs an is also one of the world s great philosophic poems comparable in scale and grandeur to Lucretius De rerum naturum Nathan Sivin has written that this is one of the titles on the short list of Chinese books every cultivated person should read Han thinkers saw in this text a compelling restatement of Confucian doctrine that addressed the major objections posed by rival schools including Mohism Taoism Legalism and Yin Yang Five Phase Theory Since this Han amalgam formed the basis for the state ideology of China from 134 B C to 1911 an ideology that in turn provided the intellectual foundations for the Japanese and Korean states the importance of this book can hardly be overestimated *Asian American Religious Cultures* Jonathan H.
