The Conscription Society Administered Mass Organizations:

The Conscription Society Gregory James Kasza, 1995-01-01 The ability to organize millions of people for political purposes is a potent and relatively recent weapon in the struggle for power Political scientists have studied two types of mass organization the political party and the interest group In this book Gregory Kasza examines a third type which he calls the administered mass organization AMOs are mass civilian bodies created by authoritarian regimes to implement public policy Officials use them to organize youths workers women or members of other social sectors into bodies resembling the mass conscript army A network of AMOs produces a conscription society a major force in twentieth century politics in over 45 countries Using comparative history and organization theory Kasza analyzes the politics of the conscription society in both military and single party regimes He discusses the origins of AMOs in Japan the Soviet Union and Fascist Italy and their subsequent spread to China Egypt Nazi Germany Peru Poland and Yugoslavia He focuses on the use of AMOs to curb political opposition to mobilize for war and to shift control over the means of production Kasza shows how in the hands of despotic rulers AMOs have contributed to the extremes of political barbarism characteristic of the twentieth century Creating

Consent in Ba'thist Syria Esther Meininghaus, 2016-03-31 The challenge of maintaining dictatorial regimes through control co option and coercion while upholding a facade of legitimacy is something that has concerned leaders throughout the Middle East and beyond Nowhere is this more evident than in the Syria ruled by the Asads both Hafiz and his son Bashar Drawing on the example of the General Union of Syrian Women founded in 1967 Esther Meininghaus offers new insights into how the Syrian Ba thist regimes attempted to move beyond mere satisfaction with the compliance of the citizenry and to consolidate their rule amongst the local population Meininghaus argues that this was partially achieved through providing welfare services delivered by the Union as one of the state led mass organisations In this way she suggests these regimes did not only aim to undermine opposition and to create the illusion of consent but they factually catered to local needs and depended on consent Based on archival material interviews and statistics Creating Consent in Ba thist Syria will shed new light on mass organisations as a crucial institution of Ba thist state building and more broadly the construction of the Asad regimes

Lever of Empire is an engrossing page turner I simply could not put it down until I had finished it This is an important subject

and one that has not been given adequate attention in Western scholarship on Japan until now Metzler has done thorough research and has woven these materials together into an elegantly written whole The result is an outstanding book Richard J Smethurst author of *A Social Basis for Prewar Japanese Militarism The Army and the Rural Community* **The Routledge Handbook of Japanese Politics** Alisa Gaunder, 2011-02-25 The Routledge Handbook of Japanese Politics is an advanced level reference guide which surveys the current state of Japanese politics featuring both traditional topics and cutting edge research The volume is divided into five sections covering domestic politics civil society social policy political economy and international relations security The first four sections begin with an overview chapter that provides historical background information on the section s overarching topic The chapters that follow explore more specific topics in the sub area In the final section historical background information is contained in the individual chapters which cover the diverse areas of international political economy security and foreign policy Offering a complete overview of the full spectrum of Japanese politics the Handbook is an invaluable resource for academics researchers policy analysts graduate and undergraduate students studying this ever evolving field **The Chinese Communist Party as Organizational Emperor** Zheng Yongnian, 2009-12-16 The Chinese Communist Party CCP is the largest and one of the most powerful political organizations in the world today which has played a crucial role in initiating most of the major reforms of the past three decades in China China s rapid rise has enabled the CCP to extend its influence throughout the globe but the West remains uncertain whether the CCP will survive China s ongoing socio economic transformation and become a democratic country With rapid socio economic transformation the CCP has itself experienced drastic changes Zheng Yongnian argues that whilst the concept of political party in China was imported the CCP is a Chinese cultural product it is an entirely different breed of political party from those in the West an organizational emperor wielding its power in a similar way to Chinese emperors of the past Using social and political theory this book examines the CCP s transformation in the reform era and how it is now struggling to maintain the continuing domination of its imperial power The author argues that the CCP has managed these changes as a proactive player throughout and that the nature of the CCP implies that as long as the party is transforming itself in accordance to socio economic changes the structure of party dominion over the state and society will not be allowed to change *Routledge Handbook of Korean Culture and Society* Youna Kim, 2016-12-01 The Routledge Handbook of Korean Culture and Society is an accessible and interdisciplinary resource that explores the formation and transformation of Korean culture and society Each chapter provides a comprehensive and thought provoking overview on key topics including compressed modernity religion educational migration social class and inequality popular culture digitalisation diasporic cultures and cosmopolitanism These topics are thoroughly explored by an international team of Korea experts who provide historical context examine key issues and debates and highlight emerging questions in order to set the research agenda for the near future Providing an interdisciplinary overview of Korean culture and society this Handbook is an essential read for

undergraduate and postgraduate students as well scholars in Korean Studies Cultural Studies Sociology Anthropology and Asian Studies in general *Shōwa Japan: 1926-1941* Stephen S. Large, 1998 *A Companion to Japanese History* William M. Tsutsui, 2009-07-20 *A Companion to Japanese History* provides an authoritative overview of current debates and approaches within the study of Japan's history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies **Failed Democratization in Prewar Japan** Harukata Takenaka, 2014-08-20 *Failed Democratization in Prewar Japan* presents a compelling case study on change in political regimes through its exploration of Japan's transition to democracy Within a broad ranging examination of Japan's semi democratic political system from 1918 to 1932 when political parties tended to dominate the government the book analyzes in detail why this system collapsed in 1932 and discusses the implications of the failure By reference to comparable cases prewar Argentina prewar Germany postwar Brazil and 1980s Thailand Harukata Takenaka reveals that the factors responsible for the breakdown of the Taisho democracy in Japan replicated those that precipitated the collapse of democracy in Europe Latin America and elsewhere in Asia While most literature on these transitions focuses on successful cases Takenaka explores democratic failure to answer questions about how and why political parties and their leaders can behave in ways that undermine the democratic institutions that serve as the basis for their formal authority *Martial Arts and the Body Politic in Meiji Japan* Denis Gainty, 2013-08-22 In 1895 the newly formed Greater Japan Martial Virtue Association Dainippon Butokukai held its first annual Martial Virtue Festival butokusai in the ancient capital of Kyoto The Festival marked the arrival of a new iteration of modern Japan as the Butokukai's efforts to define and popularise Japanese martial arts became an important medium through which the bodies of millions of Japanese citizens would experience draw on and even shape the Japanese nation and state This book shows how the notion and practice of Japanese martial arts in the late Meiji period brought Japanese bodies Japanese nationalisms and the Japanese state into sustained contact and dynamic engagement with one another Using a range of disciplinary approaches Denis Gainty shows how the metaphor of a national body and the cultural and historical meanings of martial arts were celebrated and appropriated by modern Japanese at all levels of society allowing them to participate powerfully in shaping the modern Japanese nation and state While recent works have cast modern Japanese and their bodies as subject to state domination and elite control this book argues that having a body being a body and through that body experiencing and shaping social political and even cosmic realities is an important and underexamined aspect of the late Meiji period *Martial Arts and the Body Politic in Meiji Japan* is an important contribution to debates in Japanese and Asian social sciences theories of the body and its role in modern historiography and related questions of power and agency by suggesting a new and dramatic role for human bodies in the shaping of modern states and societies As such it will be valuable to students and scholars of Japanese studies Japanese history modern nations

and nationalisms and sport and leisure studies as well as those interested in the body more broadly *The Origin of the 1960s Korean Developmental Regime* Suk-Jung Han,2024-06-10 In *The Origin of the 1960s Korean Developmental Regime* Manchurian Modern Suk Jung Han traces the current Korean dynamism through Manchukuo the Japanese puppet state in northeast China from 1932 to 1945 which has been frozen as the sacrosanct stage of nationalist resistance Han proposes the factor of colonial diffusion in the lineage of East Asian state formation which has been overlooked in the discussion of the modern state building He also traces the cultural flow from the Manchurian setting which contained the seed of the future cultural prowess of Korea **Mobilizing for Development** Kristen E. Looney,2020-05-15

Mobilizing for Development tackles the question of how countries achieve rural development and offers a new way of thinking about East Asia's political economy that challenges the developmental state paradigm Through a comparison of Taiwan 1950s 1970s South Korea 1950s 1970s and China 1980s 2000s Kristen E Looney shows that different types of development outcomes improvements in agricultural production rural living standards and the village environment were realized to different degrees at different times and in different ways She argues that rural modernization campaigns defined as policies demanding high levels of mobilization to effect dramatic change played a central role in the region and that divergent development outcomes can be attributed to the interplay between campaigns and institutions The analysis departs from common portrayals of the developmental state as wholly technocratic and demonstrates that rural development was not just a byproduct of industrialization Looney's research is based on several years of fieldwork in Asia and makes a unique contribution by systematically comparing China's development experience with other countries Relevant to political science economic history rural sociology and Asian Studies the book enriches our understanding of state led development and agrarian change

Civic Engagement in Postwar Japan Rieko Kage,2010-12-15 Despite reduced incomes diminished opportunities for education and the psychological trauma of defeat Japan experienced a rapid rise in civic engagement in the immediate aftermath of World War II Why Civic Engagement in Postwar Japan answers this question with a new general theory of the growth in civic engagement in postwar democracies It argues that wartime mobilization unintentionally instills civic skills in the citizenry thus laying the groundwork for a postwar civic engagement boom Meanwhile legacies of prewar associational activities shape the costs of association building and information gathering thus affecting the actual extent of the postwar boom Combining original data collection rigorous statistical methods and in depth historical case analyses this book illuminates one of the keys to making postwar democracies work *Militarized Modernity and Gendered Citizenship in*

South Korea Seungsook Moon,2005-09-30 A postcolonial feminist study of the formation of contemporary political subjectivities in South Korea framed by the rise and decline in 20th century militarization **The Body in Asia** Bryan S. Turner,Zheng Yangwen,2009-11-01 The past few decades have seen growing interest in the study of the body However the increasing number of exciting and influential publications has primarily if not exclusively focused on the body in Western

cultures The various works produced by Asian scholars remain largely unknown to Western academic debates even though Asia is home to a host of rich body cultures and religions The peoples of Asia have experienced colonization decolonization and now globalization all of which make the body in Asia a rewarding field of research This unique volume brings together a number of scholars who work on East Southeast and South Asia and presents original and cutting edge research on the body in various Asian cultures

Cultivating Peace Marty Branagan, Bert Jenkins, Helen Ware, 2014-04-11 *Cultivating Peace* Contexts Practices and Multidimensional Models moves away from negative connotations associated with the concept of post conflict peacebuilding It embraces a multiplicity of trans disciplinary approaches to peacebuilding mostly coinciding with the eco horticultural metaphor of peace cultivation Ultimately the idea of cultivating peace embodies love and compassion while utilising local knowledge expertise and wisdom to do no harm Using various case studies from across the world the narratives and insights in this book present diverse facets of peacebuilding yet all contribute constructive lessons The chapters cover three general themes Some examine the structural and discursive causes of violence and how to improve situations where violence is evident or to prevent it from breaking out Others deal with the aftermath of violence and how to reconcile and restore shattered lives and societies The third group deals with positive social change by nonviolent means which is much more constructive than the negative peace of ceasefires and peace enforcement used to manage direct violence Promoting the ideal of peace cultivation this volume emphasises ways to improve things to suggest alternatives and to employ initiatives to plant and grow positive changes both during the fighting and in the aftermath of violent conflicts

War and Health Insurance Policy in Japan and the United States Takakazu Yamagishi, 2011-07-01 World War II forced extensive and comprehensive social and political changes on nations across the globe This comparative examination of health insurance in the United States and Japan during and after the war explores how World War II shaped the health care systems of both countries To compare the development of health insurance in the two countries Takakazu Yamagishi discusses the impact of total war on four factors political structure interest group politics political culture and policy feedback During World War II the U S and Japanese governments realized that healthy soldiers workers mothers and children were vital to national survival While both countries adopted new expansive national insurance policies as part of their mobilization efforts they approached doing so in different ways and achieved near opposite results In the United States private insurance became the predominant means of insuring people save for a few government run programs Japan meanwhile created a near universal public insurance system After the war their different policy paths were consolidated Yamagishi argues that these disparate outcomes were the result of each nation s respective war experience He looks closely

at postwar Japan and investigates how political struggles between the American occupation authority and U S domestic forces such as the American Medical Association helped solidify the existing Japanese health insurance system Original and tightly argued this volume makes a strong case for treating total war as a central factor in understanding how the health insurance systems of the two nations grew while bearing in mind the dual nature of government intervention however slight in health care Those interested in debates about health care in Japan the United States and other countries and especially scholars of comparative political development will appreciate and learn from Yamagishi s study The SAGE Handbook of Modern Japanese Studies James D Babb,2014-12-15 A welcome addition to any reading list for those interested in contemporary Japanese society Roger Goodman Nissan Professor of Modern Japanese Society University of Oxford I know no better book for an accessible and up to date introduction to this complex subject than The SAGE Handbook of Modern Japan Studies Hiroko Takeda Associate Professor Organization for Global Japanese Studies University of Tokyo Pioneering and nuanced in analysis yet highly accessible and engaging in style Yoshio Sugimoto Emeritus Professor La Trobe University The SAGE Handbook of Modern Japanese Studies includes outstanding contributions from a diverse group of leading academics from across the globe This volume is designed to serve as a major interdisciplinary reference work and a seminal text both rigorous and accessible to assist students and scholars in understanding one of the major nations of the world James D Babb is a Senior Lecturer in the School of Geography Politics and Sociology at Newcastle University
