The Contemporary Concordance of Bible Topics Ken Anderson, 1988 What does the Bible say about abortion Homosexuality Women's rights In this uniquely practical concordance born out of the author's own intense desire to know what scripture has to say about life in our modern world you'll find biblical references dealing with hundreds of contemporary topics as well as traditional ones Where a standard word concordance stops The contemporary concordance of Bible topics moves ahead providing insight and illustrations relevant to contemporary vocabulary and interests **The New Indexed Bible**, 1909 **The Christian Witness and Advocate of Bible Holiness**, 1899 **American Book Publishing Record**, 1995 **Catalog** Sears, Roebuck and Company, 1912 Lippincott's Monthly Magazine, 1870 *Lippincott's Magazine of Literature, Science and Education*, 1870 **Literary News**, 1897 **Hoyt's New Cyclopedia of Practical Quotations Drawn from the Speech and Literature of All Nations, Ancient and Modern, Classic and Popular, in English and Foreign Text** Jehiel Keeler Hoyt, Kate Louise Roberts, 1927 Standard Catalog for Public Libraries H.W. Wilson Company, 1958 *The Foundations of the Bible* Robert Baker Girdlestone, 1903 Our Bible and the Ancient Manuscripts Sir Frederic George Kenyon, 1898 Philology James Turner, 2015-09-15 A prehistory of today's humanities from ancient Greece to the early twentieth century Many today do not recognize the word but philology was for centuries nearly synonymous with humanistic intellectual life encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature as well as history culture art and more In short philology was the queen of the human sciences How did it become little more than an archaic word In Philology the first history of Western humanistic learning as a connected whole ever published in English James Turner tells the fascinating forgotten story of how the study of languages and texts led to the modern humanities and the modern university The humanities today face a crisis of relevance if not of meaning and purpose Understanding their common origins and what they still share has never been more urgent The Publishers' Circular and General Record of British and Foreign Literature, 1889 *Publishers' circular and booksellers' record*, 1888 *Publishers' Circular and Booksellers' Record of British and Foreign Literature*, 1888

The Bible and the Printed Image in Early Modern England Michael Gaudio, 2017-07-05 The first book length study of the fifteen surviving Little Gidding bible concordances this book examines the visual culture of print in seventeenth century England through the lens of one extraordinary family and their hand made biblical manuscripts The volumes were created by the women of the Ferrar Collet family of Little Gidding who selected works from the family's collection of Catholic religious prints and then cut and pasted prints and print fragments along with verses excised from the bible and composed them in artful arrangements on the page in the manner of collage Gaudio shows that by cutting recombining and pasting multi scaled print fragments the Ferrar Collet family put into practice a remarkably flexible pictorial language The Little Gidding concordances provide an occasion to explore how the manipulation of print could be a means of thinking through some of the

most pressing religious and political questions of the pre civil war period the coherence of printed scripture the nature of sovereignty the relevance of the Mosaic law and the protestant reform of images By foregrounding the Ferrar Collets engagement with the print fragment this book extends the scope of early modern print history beyond the printmaker s studio and expands our understanding of the ways an early modern Protestant community could productively engage with the religious image Contrary to the long held view that the English Reformation led to a decline in the importance of the religious image this study demonstrates the ongoing vitality of religious prints in early modern England as instruments for thinking
