Life is all about intersections Living is where sorrow meets joy where pain encounters ecstasy where the weakness of the flesh is buoyed by the strength of faith where love conquers all doubts and betrayals Marriage is for better and worse for richer and poorer in sickness and health it is for life and death Spirituality is the arduous integration of lives dispositions and tendencies of ones urges and habits for the whole to reach out in transcendence to ones fellow human beings and to God Growth to Christian maturity is actualizing the intersecting because cruciform demands of love of God and love of neighbor which follows the path that leads from Good Friday to Easter Sunday Academic life is also becoming one of intersections After the increasing structural differentiation and functional specialization characteristic of modernity academic disciplines are critically intersecting and cross fertilizing with each other for integration enrichment and further enlightenment The behavioral sciences need genetics and biology for a more adequate explanation of human behavior Homo oeconomicus of neoclassical economics is complemented by the realities of power of homo sociologicus Theology calls on the social sciences in addition to its ancient ancilla philosophy to make moral sense of social and global problems Interdisciplinary courses try to make connections between the disciplines students have studied and to integrate the breadth and the depth of knowledge they have been exposed to      *Voices and Silence in the Contemporary Novel in English* Vanessa Guignery, 2009-10-02

This volume examines

the various processes at work in expressing silence and excessive speech in contemporary novels in English covering the whole spectrum from effusiveness to muteness Even if in the postmodern episteme language is deemed inadequate for speaking the unspeakable contemporary authors still rely on voice as a mode of representation and a performative tool and exploit silence not only as a sign of absence block or withdrawal but also as a token of presence and resistance Logorrhoea and reticence are not necessarily antithetical as compulsive verbosity may work as a smokescreen to sidestep the real issues while silences and gaps may reveal more than they hide By submitting their texts to both expansion and retention hypertrophy and aphasia writers persistently test the limits of language and its ability to make sense of individual and collective stories The present volume analyses the complex poetics of silence and speech in fiction from the 1960 s to the present with special focus on Will Self Graham Swift John Fowles Kazuo Ishiguro Jenny Diski Lionel Shriver Mich le Roberts Margaret Atwood Jonathan Safran Foer Salman Rushdie Arundhati Roy Zadie Smith Jamaica Kincaid Ryhaan Shah and J M Coetzee
