The Contentious French:

The Contentious French Charles Tilly, 1986 The book's twelve chapters function as six pairs Complementing Chapter 1 Chapter 12 reviews the same problems in the light of the intervening historical analysis The ten chapters in between pair off by period one chapter dealing with a particular region the other comparing the experiences of all five regions during the same period Chapter 2 takes Burgundy from the beginning of the seventeenth century to near the end of the twentieth Chapter 3 follows the five regions and France as a whole through the same four centuries The two chapters provide an overview of the changes in social organization and in popular contention that later chapters discuss in detail Chapter 4 concentrates on Anjou during the seventeenth century experiences of Anjou Burgundy Flanders the Ile de France and Languedoc And so on through three more chronologically matched pairs

Out of the Shadows Patricia Fernández-Kelly, Jon Shefner, 2006 Since the beginning of scholarly writing about the informal economy in the mid 1970s the debate has evolved from addressing survival strategies of the poor to considering the implications for national development and the global economy Simultaneously research on informal politics has ranged from neighborhood clientelism to contentious social movements basing their claims on a variety of social identities in their quest for social justice Despite related empirical and theoretical concerns these research traditions have seldom engaged in dialogue with one another Out of the Shadows brings leading scholars of the informal economy and informal politics together to address how globalization has influenced local efforts to resolve political and economic needs and how these seemingly separate issues are indeed deeply related In addition to the editors contributors are Javier Auyero Miguel Angel Centeno Sylvia Chant Robert Gay Mercedes González de la Rocha Jos Itzigsohn Alejandro Portes and Juan Manuel Ramírez

Disembodiment Banu Bargu, 2024-11-20 Disembodiment examines self destruction self injury and radical self endangerment as unconventional performances of resistance and refusal Banu Bargu troubles the dominant approach that treats these acts as individual pathologies cries for help and signs of despair taking the reader on an unsettling journey that passes through the suicides of enslaved Africans the hunger strikes of woman suffragists Gandhian fasting practices Bouazizi's self incineration and the lip sewing practices of migrants and asylum seekers to chart a bleak repertoire of contention performed by the oppressed As a work in global critical theory whose normative compass is the suffering body Disembodiment offers a bold materialist theory of corporeal agency that upholds the fundamental rebelliousness of the body

Anarchy in Athens Nicholas Apoifis, 2016-11-11 The battles between Athenian anarchists and the Greek state have received a high degree of media attention recently But away from the intensity of street protests militants implement anarchist practices whose outcomes are far less visible They feed the hungry and poor protect migrants from fascist beatings and try to carve

out an autonomous political social and cultural space Activists within the movement share politics centred on hostility to the capitalist state and all forms of domination hierarchy and discrimination Based on extensive ethnographic fieldwork among Athenian anarchists and anti authoritarians *Anarchy in Athens* unravels the internal complexities within this milieu and provides a better understanding of the forces that give the space its shape **The French Revolution** Gary Kates,2006 Collating key texts at the forefront of new research and interpretation this updated second edition adds new articles on the Terror and race colonial issues and studies all aspects of this major event from its origins through to its consequences

The Struggle for Development and Democracy: A General Theory Alessandro Olsaretti,2023-03-13 In *The Struggle for Development and Democracy* Alessandro Olsaretti argues that we need significantly new theories of development and democracy to answer the problem posed by neoliberalism and the populist backlash namely uneven development and divisive politics heightened by the 9 11 attacks This volume proposes a general theory of development and democracy as part of a unified theory of power emphasizing that development needs markets civil society and the state and also the proper networks and interactions amongst markets civil society and the state Imperialism undermines these interactions and turns countries into providers of cheap land or labour This book begins to sketch the mechanisms at work and to answer one question how did imperialist elites build their power All royalties from sales of this volume will go to GiveWell org in honour of Alessandro Olsaretti s memory *Jacques-Louis David and Jean-Louis Prieur, Revolutionary Artists* Warren Roberts,2000-01-01 A comparative study of the French Revolution s most famous artist and a little known

Non-Violence and the French Revolution Micah Alpaugh,2015 Challenging scholarly emphasis on French Revolutionary violence this book instead examines the prevalence of peaceful democratic methods in Parisian protest **Backstage at the Revolution** Victoria Johnson,2008 On July 14 1789 a crowd of angry French citizens en route to the Bastille broke into the Paris Opera and helped themselves to any sturdy weapon they could find Yet despite its long association with the royal court its special privileges and the splendor of its performances the Opera itself was spared even protected by Revolutionary officials Victoria Johnson s *Backstage at the Revolution* tells the story of how this legendary opera house despite being a lightning rod for charges of tyranny and waste weathered the most dramatic political upheaval in European history Sifting through royal edicts private letters and Revolutionary records of all kinds Johnson uncovers the roots of the Opera s survival in its identity as a uniquely privileged icon of French culture an identity established by the conditions of its founding one hundred years earlier under Louis XIV Johnson s rich cultural history moves between both epochs taking readers backstage to see how a motley crew of singers dancers royal ministers poet entrepreneurs shady managers and the king of France all played a part in the creation and preservation of one of the world s most fabled cultural institutions **Shifting Dynamics of Contention in the Digital Age** Jun Liu,2020-06-22 Over the past decades waves of political contention involving the use of information and communication technologies have swept across the globe The phenomenon stimulates the scholarship on digital communication technologies and contentious collective action to thrive as an exciting relevant but highly fragmentary and contested field with disciplinary boundaries To advance interdisciplinary understanding *Shifting Dynamics of Contention in the Digital Age* outlines a communication centered framework that articulates the intricate relationship between technology communication and contention It systematically explores the influence of mobile technology on political

Social Movements, Mobilization, and Contestation in the Middle East and North Africa Joel Beinin,Frédéric Vairel,2013-08-21 Before the 2011 uprisings the Middle East and North Africa were frequently seen as a uniquely undemocratic region with little civic activism The first edition of this volume published at the start of the Arab Spring challenged these views by revealing a region rich with social and political mobilizations This fully revised second edition extends the earlier explorations of Egypt Morocco Lebanon Saudi Arabia and Turkey and adds new case studies on the uprisings in Tunisia Syria and Yemen The case studies are inspired by social movement theory but they also critique and expand the horizons of the theory's classical concepts of political opportunity structures collective action frames mobilization structures and repertoires of contention based on intensive fieldwork This strong empirical base allows for a nuanced understanding of contexts culturally conditioned rationality the strengths and weaknesses of local networks and innovation in contentious action to give the reader a substantive understanding of events in the Arab world before and since 2011

The Diffusion of Social Movements Rebecca Kolins Givan,Kenneth M. Roberts,Sarah A. Soule,2010-07-19 It is widely recognized that social movements may spread or diffuse from one site to another Such diffusion however is a complex and multidimensional process that involves different actors networks and mechanisms This complexity has spawned a large body of literature on different aspects of the diffusion process yet a comprehensive framework remains an elusive target This book is a response to that need and its framework focuses on three basic analytical questions First what is being diffused Second how does diffusion occur Finally what is the impact of diffusion on organizational development and shifts in the scale of contentious politics This volume suggests that diffusion is not a simple matter of political contagion or imitation rather it is a creative and strategic process marked by political learning adaptation and innovation

The Changing French Political System Robert Elgie,2013-09-13 Examining the nature of the Fifth Republic after its first 42 years this study looks at the challenges posed by new parties and new expressions of political mobilization Entrenched policy routines are being undermined by the emergence of new actors and the failure of old paradigms
