

View of the finished cottage from the street and chimney side of the two windows.

The coverings and goings of sea captains inspired the design of this cottage by the sea. Weary sailors would remember the meals served and the respite they would receive in such a home. As returned they might bring passengers from foreign lands to embellish the house. And so the imaginary captain's treasure were interpreted into its design—circular staircases from France, Palladian doors from Virginia, and a bay window from England.

The floor plans for the house and its basic dimensions are included so that you can copy them and build the house that suits you. The house is a basic Cape Cod which means it is a bay window and the door. The end result is well worth the effort and time. The entire house and basic windows will be added, and also the basic structure of the house.

The basic structure of the house is a simple, two-story house. Included in the finishing stage for the house are instructions for weathering the wood to give it the look of a real house. To finish a chimney and a fireplace, however, is the same as the housework finishing fireplace was used.
