The Complete Book on Spices & Condiments (with Cultivation, Processing & Uses) 2nd Revised Edition NIIR Board of Consultants & Engineers, 2006-04-01

The term spices and condiments applies to such natural plant or vegetable products and mixtures thereof used in whole or ground form mainly for imparting flavor aroma and piquancy to foods and also for seasoning of foods beverages like soups. The great mystery and beauty of spices is their use blending and ability to change and enhance the character of food. Spices and condiments have a special significance in various ways in human life because of its specific flavours taste and aroma. Spices and condiments play an important role in the national economies of several spice producing importing and exporting countries. India is one of the major spice producing and exporting countries. Most of the spices and herbs have active principles in them and development of these through pharmacological and preclinical and clinical screening would mean expansion of considerable opportunities for successful commercialization of the product. Spices can be used to create these health promoting products. The active components in the spices phthalides polyacetylenes phenolic acids flavanoids coumarines triterpenoids sesquiterpenes and monoterpenes are powerful tools for promoting physical and emotional wellness. India has been playing a major role in producing and exporting various perennial spices like cardamoms pepper vanilla clove nutmeg and cinnamon over a wide range of suitable climatic situations. To produce good quality spice products attention is required not only during cultivation but also at the time of harvesting processing and storing. Not as large as in the days when next to gold spices were considered most worth the risk of life and money. The trade is still extensive and the oriental demand is as large as ever. Some of the fundamentals of the book are definition of spices and condiments nomenclature or classification of spices and condiments Indian central spices and cashew nut committee origin properties and uses of spices forms functions and applications of spices trends in the world of spices yield and nutrient uptake by some spice crops grown in sodic soil tissue culture and in vitro conservation of spices in vitro responses of piper species on activated charcoal supplemented media soil agro climatic planning for sustainable spices production potentials of biotechnology in the improvement of spice crops medicinal applications of spices and herbs medicinal properties and uses of seed spices effect of soil solarization on chillies spice oil and oleoresin from fresh dry spices etc. The present book contains cultivation processing and uses of various spices and condiments which are well known for their multiple uses in every house all over world. The book is an invaluable resource for new entrepreneurs agriculturists agriculture universities and technocrats. Globalization and the Decolonial Option Walter D. Mignolo,Arturo Escobar,2013-10-18 This is the first book in English profiling the work of a research collective that evolved around the notion of coloniality understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States The project called for an understanding of modernity not from modernity itself but from its darker side coloniality and proposes the de colonization of knowledge as an epistemological restitution with political and ethical implications Epistemic decolonization or de coloniality becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an other rationality that puts life first and that places institutions at its service rather than the other way around The volume is profoundly inter and trans disciplinary with authors writing from many intellectual transdisciplinary and institutional spaces This book was published as a special issue of *Cultural Studies*
