how certain practices beliefs or behaviors may be fueling human trafficking beyond what the law can curtail The study reveals cultural elements that conflict with existing anti human trafficking laws across three case studies United States India and Costa Rica There is no simple answer or a single solution to stop or significantly reduce the crime but a pragmatic multi disciplinary and human rights approach to the problem may bring to light that efforts to curtail human trafficking will be in vain if we rely on law alone A fundamental shift in culture is imperative Globalizing Migration Regimes Kristof Tamas,2016-04-22 It has been half a century since the Geneva Refugee Convention came into place but there is still no comparable international regime which provides for the increasing phenomenon of mobile economic migrants At a time of global mobility when migration policies are constantly changing and the security and rights of migrants are called into question there is clearly a need for strengthened international cooperation This volume brings together an international team of authors to examine the prospects for improvements in such cooperation and for the establishment of a framework of basic global or regional norms of conduct Issues addressed in the book include how to augment the development effects of migration for source countries how to meet the security and rights interests of both states and migrants and how to improve the prospects for integration of migrants in destination countries With its fresh policy focused and global approach this volume will be of great value to both academics and policy makers *Japan, China, and the Growth of the Asian International Economy, 1850-1949* Kaoru Sugihara,2005-03-24 Economic history in modern Asia is commonly written in terms of its impact on the West This book the result of a 1993 workshop held in Osaka on the role of China in the Asian economy argues that the growth of trade and the migration of capital itself has been a strong factor in determining East Asian development The twelve papers in this volume concern themselves with three major themes The first is the importance of economic interactions between Japan and China for example how Japan s industrialization took advantage of the Chinese merchant networks in Asia and how Chinese competition was a critical factor in Japanese organizational and technological upgrading in the periods in between The second theme shows how China s entry into the international economy was shaped by the growth of intra Asian trade by migration and by capital flows and remittances The third is how intra Asian trade enables us to understand the nature of colonialism and the climate of imperialism Handbook of Transnational Crime and Justice Philip Reichel,Jay Albanese,2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike U.S. International Drug
