The Concentric Perspective:

The Concentric Perspective Eric Butterworth, 1989 General Problems in the Linear Perspective of Form, Shadow, and Reflection Samuel Edward Warren, 1868 **American Architect**, 1901 **Performance Perspectives** Jonathan Pitches, Sita Popat, 2011-10-18 What is performance What are the boundaries of Performance Studies How do we talk about contemporary performance practices today in simple but probing terms What kinds of practices represent the field and how can we interpret them Combining the voices of academics artists cultural critics and teachers Performance Perspectives answers these questions and provides a critical introduction to Performance Studies Presenting an accessible way into key terminology and context it offers a new model for analyzing contemporary performance based on six frames or perspectives Body Space Time Technology Interactivity Organization Drawing on examples from a wide range of practices across site specific performance virtual reality dance applied theatre and everyday performance Performance Perspectives addresses the binary of theory and practice and highlights the many meeting points between studio and seminar room Each chapter takes the innovative form of a three way conversation bringing together theoretical introductions with artist interviews and practitioner statements The book is supported by activities for discussion and practical devising work as well as clear guidance for further reading and an extensive reference list across media Performance Perspectives is essential reading for anyone studying interpreting or making performance **Presenting Futures** Erik Fisher, Cynthia Selin, Jameson Wetmore, 2008-05-22 Welcome to the first volume of the Yearbook of Nanotechnology in Society Nanotechnology hailed as the next industrial revolution NSTC 2000 and criticized for being little more than hype Berube 2006 is the site of a great deal of social and intellectual contest With some ten billion dollars being spent worldwide on nanotechnology research and development annually and a market forecast of trillions of dollars in sales in the medium term future Lux Research 2006 nations and firms are pursuing nano related goals with high levels of both effort and expectations Yet according to the Woodrow Wilson International Center's web based Nanotechnology Consumer Products Inventory most of the more than 500 nano products on the market as of this writing are basic consumer items cosmetics clothing athletic equipment and the like with modest incremental improvements on their non nano counterparts Nanotechnology is also the site of an increasing amount of scholarship dedicated to understanding the interactions between society and an emerging knowledge based technological endeavor Searching the Web of Science indices in social science and humanities for nanotech and nanoparticle for example yields 231 hits 1 since 1990 but 75 percent of these occur in 2004 through 2007 This scholarship attempts to fathom the implications of nanotechnologies for society as well as the implications for nanotechnologies of society Some of it is also engaged in dialogue with both the public and with nanotechnology researchers about the hope and the hype described above

A Manual of Linear Perspective Richard Somers Smith, 1864 *New Perspectives on the Bronze Age* Sophie Bergerbrant, Anna Wessman, 2017-04-30 This collection of articles helps to explain why the Bronze Age has come to hold such

a fascination within modern archaeological research By providing new theoretical and analytical perspectives on the evidence new interpretative avenues have opened it situates the history of the Bronze Age in both a local and a global setting

Cosmopolitanism: Educational, Philosophical and Historical Perspectives Marianna Papastephanou, 2016-05-05 This volume discusses perspectives on cosmopolitanism as well as concepts and the work of key figures For example it examines educational philosophical and historical perspectives deals with such issues as citizenship internationalism patriotism globalization hegemony and many other topics It brings together works on Alain Badiou Giorgio Agamben Ernesto Laclau Bruno Latour and Homi Bhabha with works on Whitman Kant Martha Nussbaum Thomas Pogge Onora O'Neill and Philippe Van Parijs The book engages in the new dialogue on cosmopolitanism from a variety of outlooks It advances that dialogue and problematizes it through as yet unexplored paths Its chapters respond to the intricacies of current discourses on cosmopolitanism and related notions and take into account both affirmative and negative stances to cosmopolitanism and its educational significance Overall the book relies on such stances as background material in order to transcend them and offer fresh perspectives on cosmopolitan stakes It makes use of a recent tendency in political philosophical and cultural critical debates that opens a possibility of more nuanced approaches to old isms

The Epistemological Perspective of the Pearl-Poet Piotr Spyra, 2016-02-17 Original and engaging this study presents the four anonymous poems found in the Cotton Nero MS Pearl Cleanness Patience and Sir Gawain and the Green Knight as a composite text with a continuous narrative While it is widely accepted that the poems attributed to the Pearl Poet ought to be read together this book demonstrates that instead of being analyzed as four distinct though interconnected textual entities they ought to be studied as a single literary unit that produces meaning through its own intricate internal structure Piotr Spyra defines the epistemological thought of Saint Augustine as an interpretive key which when applied to the composite text of the manuscript reveals a fabric of thematic continuity This book ultimately provides the reader with a clear sense of the poet's perspective on the nature of human knowledge as well as its moral implications and with a deeper understanding of how the poems bring the theological and philosophical problems of the Middle Ages to bear on the individual human experience

Life-stowing from a Digital Media Perspective: Past, Present and Future, 2017-04-24 While both public opinion and scholars around the world are currently pointing out the danger of increasingly popular life logging devices this book articulates this debate by distinguishing between automatic and manual life logging approaches Since new definitions of life logging have excluded the latter approach and have been mainly focused on effortless life logging technologies such as Google Glass and Quantified Self applications in general this book theoretically frames life stowing Through extensive etymological research this book defines life stowing as a manual and effortful practice conducted by life stowers individuals who devote their life to sampling reality in predefined frameworks Also as part of this book an historical overview introduces life stowers and distinguishes between Apollonian and Dionysian varieties of these practitioners Lastly in

order to understand the future reception of lifestowing particularly in relation to digital media this book discloses the author's ongoing life stowing project to a small audience *Real Estate Education Throughout the World: Past, Present and Future* Karl-Werner Schulte, 2012-12-06 In recent years growing attention has been focussed on real estate education The objective of *Real Estate Education Throughout The World Past Present and Future* is to document the current status and perspectives of real estate education and the underlying research throughout the world The intent is to inform students academics and practitioners about the situation in the widest possible range of countries and to provide a foundation for the future of the real estate discipline The structure of this monograph follows the organisation of the world wide network of real estate societies In Part 1 Stephen E Roulac sets the framework for the other contributions Part 2 contains 20 chapters that examine real estate education in Europe Part 3 consists of two articles covering North America Part 4 includes two chapters dealing with Latin America In Part 5 8 countries in Asia are examined Part 6 contains two chapters covering the Pacific Rim Finally Part 7 focuses on Africa This collection of papers is unique in the sense that 50 authors have contributed to the monograph and 37 countries or regions in total are covered The editor does not know of any comparable book **The American Architect and Building News** ,1878 **Christian Perspectives on Sociology** Stephen Grunlan, Milton Reimer, 2001-04-02 The Share of Perspective Emmanuel Alloa, 2024-08-02 This book is a defense of perspectivism in the age of post truth At the crossroads of science art and philosophy it unearths a tradition that we must rediscover the point of view is not only what divides it is also what is shared Today perspective is associated with individualism and personal viewpoints But in an age of post truth the only robust answer to relativism lies in fact in a reappraisal of perspectivism In discussion with contemporary new realisms of various sorts this book makes a case why perspectivism alone can avoid us falling back into epistemological naiveté A journey into the history of optics art philosophy and social psychology this book unearths the forgotten tradition of perspectiva communis which makes perspective the vector of a common horizon This book argues that vision is never immediate Rather to see through is the key to understanding the perspectival operation We never see by ourselves all seeing must pass through something other than itself through the mediation and the detour of an apparatus or the witness of a third party Besides the theoretical framework for this new approach to perspective this book presents a series of case studies ranging from innovative interpretations of classical authors and key moments in the history of art from ancient painting trompe l'oeil and Brunelleschi's experiment in Renaissance Florence to the issue of perspective in the work of contemporary artists such as Robert Rauschenberg The *Share of Perspective* will be of interest to scholars and advanced students working in aesthetics phenomenology art history and the history of sciences 3D Videocommunication Oliver Schreier, Peter Kauff, Thomas Sikora, 2005-11-01 The migration of immersive media towards telecommunication applications is advancing rapidly Impressive progress in the field of media compression media representation and the larger and ever increasing bandwidth available to the customer will foster the introduction of these services in the future One of the

key components for the envisioned applications is the development from two dimensional towards three dimensional audio visual communications With contributions from key experts in the field 3D Videocommunication provides a complete overview of existing systems and technologies in 3D video communications and provides guidance on future trends and research considers all aspects of the 3D videocommunication processing chain including video coding signal processing and computer graphics focuses on the current state of the art and highlights the directions in which the technology is likely to move discusses in detail the relevance of 3D videocommunication for telepresence systems and immersive media and provides an exhaustive bibliography for further reading Researchers and students interested in the field of 3D audio visual communications will find 3D Videocommunication a valuable resource covering a broad overview of the current state of the art Practical engineers from industry will also find it a useful tool in envisioning and building innovative applications

Islamic Bioethics: Problems and Perspectives DARIUSCH ATIGHETCHI,2006-12-02 This book presents a critical analysis of the debate at the religious legal and political level sparked off by the introduction of new biomedical technologies cloning genetics organ transplants IVF etc in Muslim countries It compares the positions of classic Muslim law and contemporary religious authorities laws in Muslim countries the attitudes and concrete behaviour of populations families and individuals as well as the regulations of medical associations bioethics committees etc The result is a mosaic of positions which are often different including from the point of view of ethics but all in pursuit of legitimisation according to the Koran and the Shari a The work has an interdisciplinary approach drawing on law sociology anthropology politics and the history of science For this reason it will be of interest to scholars and operators in a wide variety of disciplines and fields
