## **The Conquest Of Gaul Classics S:**

The Conquest of Gaul Julius Caesar, 1982-12-09 Between 58 and 50BC Caesar conquered most of the area now covered by France Belgium and Switzerland and twice invaded Britain This is the record of his campaigns Caesar s narrative offers insights into his military strategy paints a fascinating picture of his encounters with the inhabitant of Gaul and Britain as well as offering lively portraits of a number of key characters such as the rebel leaders and Gallic chieftains This can also be read as a piece of political propaganda as Caesar sets down his version of events for the Roman public knowing that he faces civil war on his return to Rome

**In Search of the Classic** Steven Shankman, 2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman s book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman s study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Val ry poem *Le Cimetière marin* and the classic qualities it shares with Pindar s third Pythian ode from which Val ry derives the epigraph for his poem

The Conquest of the American Continent Madison Grant, 2023-12-17 In *The Conquest of the American Continent* Madison Grant presents a meticulous examination of the interplay between race civilization and environmental factors in shaping American demographics and policy throughout history His literary style fuses empirical research with a passionate narrative reflecting the early 20th century discourse on eugenics and nationalism Grant s work must be contextualized within the socio political climate of Progressive Era America where themes of social Darwinism were gaining traction influencing public policy and societal attitudes towards immigration and race This book serves as both a historical account and a philosophical treatise challenging readers to consider the implications of territorial expansion on American identity and ethics Madison Grant 1865 1932 was an influential American conservationist and a key figure in the early eugenics movement His pedigree as a member

of the elite and his experiences as a conservationist shaped his perspectives on race and biology prompting him to explore the implications of these ideas on the American landscape Grant's connections with prominent figures of his time provided him access to influential discussions about race which ultimately informed the controversial views espoused in this work For readers interested in the intersections of race history and American identity *The Conquest of the American Continent* offers a provocative lens through which to examine the complexities of territorial expansion and its legacies Grant's insights compel a critical reevaluation of the historical narrative surrounding the American experience making it essential reading for scholars and laypersons alike

**Catiline's War, The Jugurthine War, Histories** Sallust, 2008-02-26 The only surviving works from one of the world's earliest historians in important new translations Sallust's first published work *Catiline's War* contains the memorable history of the year 63 including his thoughts on Catiline a Roman politician who made an ill fated attempt to overthrow the Roman Republic In *The Jugurthine*

War Sallust dwells upon the feebleness of the Senate and aristocracy having collected materials and compiled notes for this work during his governorship of Numidia      Henle Latin Second Year Robert J. Henle,2012-12-31 The backbone of Henle Latin Second Year is intensive language study including review of the first year plus new materials Separated into four parts Henle Latin Second Year includes readings from Caesar s Commentaries extensive exercises and Latin English vocabularies Humanistic insight and linguistic training are the goals of the Henle Latin Series from Loyola Press an integrated four year Latin course Time tested and teacher endorsed this comprehensive program is designed to lead the student systematically through the fundamentals of the language itself and on to an appreciation of selected classic texts      The Classic Christopher Prendergast,2007-06-21 Focusing on a moment and a source in nineteenth century France Christopher Prendergast takes up a big question that is still with us What is a classic The question is by virtue of its insistent recurrence itself a classic question It returns to haunt us It provided the title of a text for French critic Charles Augustin Sainte Beuve in 1850 Qu est ce qu un classique as it did in the twentieth century for T S Eliot and John Coetzee Centring on Sainte Beuve in his nineteenth century context Prendergast s inquiry takes us historically to many places antiquity the middle ages the seventeenth and eighteenth as well as the nineteenth and early twentieth centuries He also provides an intellectual history that travels across multiple disciplinary territories in addition to literary criticism and literary history classical studies comparative philology historiography and political thought Against this background The Classic maps the evolution of Sainte Beuve s thought from an initially cosmopolitan conception of the classic close in spirit to Goethe s notion of Weltliteratur to an increasingly nationalist conception with a strong emphasis on the heritage of Latinity and France as its principal legatee This emphasis was taken up by the extreme right in France after Sainte Beuve s death in a determined mobilizing of a version of the classic on behalf of a proto fascist agenda The final chapter deals with this appropriation and ends with a question of our own about Sainte Beuve s original question in the light of this bleak history perhaps the time has come to dispense with the term classic altogether      Analytical philosophy. Caesar's Footprints Bijan Omrani, 2017-12-05 An intellectual adventure through ancient France revealing how Caesar's conquest of Gaul changed the course of French culture forever, transforming modern Europe. Julius Caesar's conquests in Gaul in the 50s b.c. were bloody, but the cultural revolution they brought in their wake forever transformed the ancient Celtic culture of that country. After Caesar, the Gauls exchanged their tribal quarrels for Roman values and acquired the paraphernalia of civilized urban life. The Romans also left behind a legacy of language, literature, law, government, religion, architecture, and industry. Each chapter of *Caesar's Footprints* is dedicated to a specific journey of exploration through Roman Gaul. From the amphitheatres of Arles and Nîmes to the battlefield of Châlons where Flavius Aetius defeated Attila the Hun. Bijan Omrani, an exciting and authoritative new voice in Roman history, explores archaeological sites, artifacts, and landscapes to reveal how the imprint of Roman culture shaped Celtic France and thereby helped to create modern Europe. **The Cumulative Book Index**, 1912 A world list of books in the English language.
