The Federalist Papers Kyle Scott, 2013. The Federalist Papers constitute a key document in the understanding of the American government. Written by John Jay, James Madison, and Alexander Hamilton, these 85 texts were published between 1787 and 1788 to convince the state of New York to ratify the Constitution. Today the Papers are studied in courses on American government, American political thought, and constitutional law. However, the size and organization of the full text, notwithstanding its complex political concepts and context, make it difficult for students to apprehend. The Reader's Guide will be a key tool to help them understand. *The Federalist Papers* Alexander Hamilton, 2019-10-20. The Federalist, commonly referred to as the Federalist Papers, is a series of 85 essays written by Alexander Hamilton, John Jay, and James Madison between October 1787 and May 1788. The essays were published anonymously under the pen name Publius in various New York state newspapers of the time. The Federalist Papers were written and published to urge New Yorkers to ratify the proposed United States Constitution, which was drafted in Philadelphia in the summer of 1787. In lobbying for adoption of the Constitution over the existing Articles of Confederation, the essays explain provisions of the Constitution in detail. For this reason, and because Hamilton and Madison were each members of the Constitutional Convention, the Federalist Papers are often used today to help interpret the intentions of those drafting the Constitution. The Federalist Papers were published primarily in two New York state newspapers: The New York Packet and The Independent Journal. They were reprinted in other newspapers in New York state and in several cities in other states. A bound edition with revisions and corrections by Hamilton was published in 1788 by printers J and A McLean. An edition published by printer Jacob Gideon in 1818 with revisions and corrections by Madison was the first to identify each essay by its author's name. Because of its publishing history, the assignment of authorship, numbering, and exact wording may vary with different editions of The Federalist. **The Federalist Papers** Alexander Hamilton, James Madison, John Jay, 2016-01-18. A Collection of 85 Articles and Essays The Federalist Papers By Alexander Hamilton, John Jay, James Madison. The Federalist, later known as The Federalist Papers, is a collection of 85 articles and essays written under the pseudonym Publius by Alexander Hamilton, James Madison, and John Jay promoting the ratification of the United States Constitution. Seventy-seven were published serially in The Independent Journal and The New York Packet between October 1787 and August 1788. A compilation of these and eight others called The Federalist or The New Constitution was published in two volumes in 1788 by J and A McLean. The collection's original title was The Federalist; the title The Federalist Papers did not emerge until the 20th century. Though the authors of The Federalist Papers foremost wished to influence the vote in favor of

ratifying the Constitution in Federalist No 1 they explicitly set that debate in broader political terms It has been frequently remarked that it seems to have been reserved to the people of this country by their conduct and example to decide the important question whether societies of men are really capable or not of establishing good government from reflection and choice or whether they are forever destined to depend for their political constitutions on accident and force Highlights abound in the essays of The Federalist Federalist No 10 in which Madison discusses the means of preventing rule by majority faction and advocates a large commercial republic is generally regarded as the most important of the 85 articles from a philosophical perspective it is complemented by Federalist No 14 in which Madison takes the measure of the United States declares it appropriate for an extended republic and concludes with a memorable defense of the constitutional and political creativity of the Federal Convention In Federalist No 84 Hamilton makes the case that there is no need to amend the Constitution by adding a Bill of Rights insisting that the various provisions in the proposed Constitution protecting liberty amount to a bill of rights Federalist No 78 also written by Hamilton lays the groundwork for the doctrine of judicial review by federal courts of federal legislation or executive acts Federalist No 70 presents Hamilton s case for a one man chief executive In Federalist No 39 Madison presents the clearest exposition of what has come to be called Federalism In Federalist No 51 Madison distills arguments for checks and balances in an essay often quoted for its justification of government as the greatest of all reflections on human nature

authors of The Federalist intended to influence the voters to ratify the Constitution In Federalist No 1 they explicitly set that debate in broad political terms It has been frequently remarked that it seems to have been reserved to the people of this country by their conduct and example to decide the important question whether societies of men are really capable or not of establishing good government from reflection and choice or whether they are forever destined to depend for their political constitutions on accident and force 4 Federalist No 10 is generally regarded as the most important of the 85 articles from a philosophical perspective In it Madison discusses the means of preventing rule by majority faction and advocates a large commercial republic This is complemented by Federalist No 14 in which Madison takes the measure of the United States declares it appropriate for an extended republic and concludes with a memorable defense of the constitutional and political creativity of the Federal Convention 5 In Federalist No 84 Hamilton makes the case that there is no need to amend the Constitution by adding a Bill of Rights insisting that the various provisions in the proposed Constitution protecting liberty amount to a bill of rights Federalist No 78 also written by Hamilton lays the groundwork for the doctrine of judicial review by federal courts of federal legislation or executive acts Federalist No 70 presents Hamilton s case for a one man chief executive In Federalist No 39 Madison presents the clearest exposition of what has come to be called Federalism In Federalist No 51 Madison distills arguments for checks and balances in an essay often quoted for its justification of government as the greatest of all reflections on human nature According to historian Richard B Morris the essays that make up The Federalist Papers are an incomparable exposition of the Constitution a classic in political science unsurpassed in both breadth and depth by the product of any later American writer

The Federalist Papers Robert Berger, 2020-07-21 Why do we have this government and not another The Constitution of the United States prescribes our form of government but offers no rationale for it Is there such a rationale There is Shortly after the Constitution was created in 1787 at a convention in Philadelphia two participants in that convention along with a colleague prepared this rationale as an argument for ratification In the Federalist Papers they argued that the Constitution is an attempt to establish a government that reconciles the nature of human beings with their thirst for liberty This book presents an edited version of this argument in such a way as to be accessible to modern day readers Importantly it is neither a paraphrasing nor a dumbed down version of the Federalist Papers Rather the vast majority of the words and phrasings used by the original authors are left intact Note that this work is a printed version of a formerly published e book of the same title Beware of any other version of the Federalist Papers that uses a pirated image of the e book cover The argument of the Federalist Papers is structured around five broad themes 1 a union of the States is required for our safety 2 the Articles of Confederation are insufficient to preserve this Union 3 an energetic government is required to address this insufficiency 4 the proposed Constitution prescribing a republic vested with appropriate and separated powers satisfies this requirement and 5 the proposed government structure is essential for attaining liberty Within these themes various levels of argument are introduced At the lowest level nearly all clauses of the

Constitution are addressed Whether this argument is convincing readers of the Federalist Papers can decide for themselves However the facts that the government prescribed by the Constitution as amended has survived for over 230 years that constitutional scholars regard the Federalist Papers as the premier source for justifying the Constitution and by extension our system of government and that it has been referenced in countless Supreme Court decisions suggest that the argument is convincing indeed Moreover the argument provided in the Federalist Papers remains relevant to today s world Issues associated with the purpose of government are examined in the Federalist Papers Is the government prescribed by the Constitution the best system for protecting our rights and maximizing our well being One may argue that it is not But to make such an argument one would have to counter the argument made in the Federalist Papers And to do that one would have to read the Federalist Papers Given this relevance one may wonder why so many of today s citizens have either not read the Federalist Papers or upon attempting to read it have been unable to get through it One reason is that the Federalist Papers are a difficult read for the modern reader Alexander Hamilton James Madison and John Jay wrote in the style of lawyers in particular eighteenth century lawyers But perhaps the greatest barrier to reading the Federalist Papers is that it is difficult to follow the argument The purpose of this version of the Federalist Papers is to enable readers to easily follow all levels of its argument Accordingly the document has been edited to speed the reader s progress in moving through and clearly understanding the argument intended by the authors 1 within sentences some clauses and phrases have been rearranged to achieve greater proximity to their antecedents and some double negatives are eliminated 2 exceedingly long paragraphs are broken into digestible pieces 3 within a single paragraph when distinct multiple points are used to support an argument bullets are used to distinguish those points 4 all references to the Constitution are cited and the Constitution itself is provided as an Appendix and 5 some words were updated to reflect current usage
