The Constitution Under Pressure Marcia L. Whicker, Ruth Ann Strickland, Raymond Moore, 1987-08-26 Here is a comprehensive account of the U S Constitution including its evolution and its impact on shaping American government and political representation In eight fact filled chapters the authors carefully explore the Constitution s role Those involved in the study of American More government constitutional law judicial behavior legislative behavior or politics will find this critical examination systematic thorough and thought provoking The Army Lawyer ,1988 **The Canadian Annual Review of Public Affairs** ,1923 The Army Lawyer ,1975 Diversity, Merit and Power in the C-Suite Eleanore Hickman, 2023-05-18 This book explores the correlations of diversity and power in UK boardrooms and the difficulties inherent in truly merit based appointments From a distance boardroom diversity is seen as a UK success story of recent years A closer look at boardrooms reveals a more uncomfortable truth boards can be split into tracks of power and diversity Where there is a concentration in power genuine diversity is much less prevalent Using the FTSE 100 the book examines the appointment and retention of the most powerful positions in some of the world s most powerful corporations Diversity merit and power are each defined and measured individually then considered cumulatively to provide fresh insights into the meaning of corporate power who wields it and how it is obtained This analysis is considered alongside the diversity narratives created by the FTSE 100 to frame their position on diversity From this the value of corporate diversity speak is challenged together with the regulatory requirements that result in its production Those studying or practising corporate law or management and anyone with an interest in corporate power will find this in depth assessment thought provoking and informative From the book s original vantage point suggestions are made as to how and why we might seek a more balanced distribution of power in the boardroom **Hansard's Parliamentary Debates** Great Britain. Shaping the Day Paul Glennie,Nigel Thrift,2009-02-12 Timekeeping is an essential activity in the modern world and we take it for granted that our lives are shaped by the hours of the day Yet what seems so ordinary today is actually the extraordinary outcome of centuries of technical innovation and circulation of ideas about time Shaping the Day is a pathbreaking study of the practice of timekeeping in England and Wales between 1300 and 1800 Drawing on many unique historical sources ranging from personal diaries to housekeeping manuals Paul Glennie and Nigel Thrift illustrate how a particular kind of common sense about time came into being and how it developed during this period Many remarkable figures make their appearance ranging from the well known such as Edmund Halley Samuel Pepys and John Harrison who solved the problem of longitude to less familiar characters including sailors gamblers and burglars Overturning many common perceptions of the past for example that clock time and the industrial revolution were intimately related this unique historical study will engage all readers interested in how telling the time has come to dominate our way of life [The Work](#)
