**No Limit Hold 'em** David Sklansky,Ed Miller,2006 No limit hold em is exploding in popularity Before 2000 it could be difficult to find a game In 2006 it is played everywhere in casino cardrooms in backrooms and homes and on the Internet Now anyone can find a game but few know how to play well Most players learn by watching television or by listening to dubious advice from their friends While they may have picked up a valuable tidbit here or there most players have two options wise up or go broke The world s foremost poker theorist David Sklansky and noted poker authority Ed Miller will wise you up quickly No Limit Hold em Theory and Practice is the definitive work on this complex game It provides you a window into the heads of experts teaching you in straightforward and enjoyable terms the how s and why s of winning play Book jacket      **Gambling for Winners** Ward Wilson, This book is for you only if you gamble to make money If your idea of

fun and entertainment includes giving away your hard earned money to casinos I can't help you If you enjoy sitting in a mindless bright lights dinging trance while you drop quarters down a slot this book is not for you If you think casinos are built and run by stupid people you better stay out of them If you think you can beat a blackjack dealer by wild assed guessing think again If you play poker just because it's now so popular you don't need my book If you believe you can just happen to be lucky enough to beat the odds you live in a fantasy world and you'd hate this book for destroying your illusions But if you're hard headed serious willing to work and tired of the mainstream gambling books that simply teach you how to lose less rather than win If you understand casinos don't stay in business by giving out more money than they take in This is an extensive examination of the most popular forms of gambling If you can find any positive expectation bets and how Some of the material is controversial Some of it is unique It's not for beginners If you don't already know how to play blackjack or craps buy and read the basic books first This one assumes you know and understand the rules of play If you have emotional or psychological issues around money my strong advice is don't gamble If you want to believe casinos are playgrounds built for your amusement this is not the book for you I use statistical concepts and common sense to strip away the bright lights and glamor to reveal the mathematical realities of gambling For the most part it's not pretty Not if you want to make money instead of lose it But there are opportunities there for people willing to work hard and understand the obstacles so they can surmount them If you're still an emotional child needing the adrenaline rush and excitement of winning money this is not for you And not only the casinos want to take your money hordes of online scammers selling bogus systems online also are after the money belonging to would be pro gamblers Until you can enter a casino and remain blind to the red carpeting the flashing lights dinging slots and the entire aura of glamorous partying you'll remain a loser If you have enough money to pay for a mirage that's up to you Most people don't
