Straight & True Hugh Soar,2012-10-08 The arrow essentially a specialized spear is among the most ancient human inventions and can be found in cultures throughout the world The need to launch a projectile farther and with greater accuracy than is possible with the human arm gave rise to a variety of solutions Spearthrowers which extend the length of the user s arm and therefore transfer greater power to the projectile were developed far back in prehistory and both the American Indian atlatl and the Australian woomera are examples of this technology Blowpipes too are recorded in various cultures and represent another ancient technology It was soon discovered that a stringed bow could launch a small spear like projectile we now know as the arrow and this combination became the dominant method for shooting projectiles for tens of thousands of years A wonderfully simple device the arrow and bow revolutionized both hunting and warfare not only because of the speed force and accuracy that could be achieved but by the fact that the arrow makes almost no sound as it flies toward its target providing an essential element of surprise In *The Arrow A Brief History* Hugh D H Soar describes the transition from hand thrown spear to bow launched arrow and then follows the arrow s developments in cultures around the world and across time The book describes arrows found in Neolithic sites those used by North and South American Indians including a detailed discussion of poison tipped arrows arrows used in China Japan and Mongolia and finally the arrow in Europe where it was successfully paired with the longbow during the Middle Ages The author completes his survey with the changes in technology introduced during the twentieth century though the use of aluminum and other light weight metals as well as synthetic materials to construct parts of the arrow Relying on his considerable knowledge accumulated through decades of research the author provides the reader with an appreciation for a humble device that coupled with the bow changed the history of the world **Air Pictorial** ,2001 *English Electric Canberra* Bruce Barrymore Halpenny,2014-03-19 A useful review of the development of a classic jet bomber that saw widespread service in the Royal Air Force and was exported to many overseas air forces Aeromilitaria This amazing airplane

,1990-05 Battle Under the Moon Jack Currie,2022-02-21 This is a gripping account of the ill fated RAF raid on 3 May 1944 on the Panzer tank depot and military barracks at Mailly le Camp south of Rheims in northern France part of the softening up process on German military targets in preparation for the D Day landings Raids like this over occupied France were considered relatively low risk affairs and only counted for one third of a mission for the crews concerned **Bomber Command Airfields of Yorkshire** Peter Jacobs,2017-05-30 As part of the Aviation Heritage Trail series the accomplished military author and former RAF Officer Peter Jacobs takes us to the county of Yorkshire and to its many bomber airfields of the Second World War From the opening day of hostilities RAF Bomber Command took the offensive to Nazi Germany and played a leading role in the liberation of Europe Yorkshires airfields played a key part throughout initially as home to the Whitley squadrons of No 4 Group and then to the four engine Halifax heavy bombers indeed Bomber Commands first night operation of the war was flown from one of the countys many bomber airfields Then as the bombing offensive gathered pace

Yorkshire welcomed the new all Canadian No 6 RCAF Group after which all of Bomber Commands major efforts during the hardest years of 1943-44 against the Ruhr Hamburg and Berlin involved the Yorkshire based squadrons. Most of Yorkshires wartime bomber airfields have long gone but many have managed to retain the flying link with their wartime past. For example the former RAF airfields of Finningley and Middleton St George and the factory airfield of Yeadon are now the sites of international airports while Brighton Burn, Full Sutton, Pocklington and Rufforth are still used for light aircraft flying or gliding and Elvington is home to the magnificent Yorkshire Air Museum. From airfields such as these came countless acts of personal courage and self sacrifice with two men being awarded the Victoria Cross, Britains highest award for gallantry. Stories of both men are included as are tales of other personalities who brought these airfields to life. The stories of thirty three airfields are told in total with a brief history of each accompanied by details of how to find them and what remains of them today. Whatever your interest be it aviation history or more local the county of Yorkshire has rightly taken its place in the history of Bomber Command.
