Case Studies in Family Violence Robert T. Ammerman, Michel Hersen, 2012-12-06 Since the publication of the first edition in 1991 there has been substantial progress in our understanding of the etiology and associated features of domestic violence. As in the first edition, this book elucidates and highlights the complex multidisciplinary issues facing clinicians who work with family violence cases. Each chapter combines two illustrative cases with a broader discussion of the issues that are encountered by clinicians working with families that engage in abuse or neglect.      *Physical Violence in American Families*, 1976 Murray Arnold Straus, Richard J. Gelles,      *Solidarity and Suffering* Douglas Sturm, 1998-01-01 Developing a concept of justice as solidarity, this work addresses a range of urgent social issues from the meaning of human rights and the character of corporate governance to the resolution of social conflict and the moral status of the environment.      The Spectrum Of Child Abuse R. Kim Oates, 2013-10-28 First published in 1996. With so much information available today in the area of child abuse, figuring out where to begin quickly becomes overwhelming. But the Spectrum of Child Abuse stands out from current literature in its comprehensiveness and balance. Dr. Oates presents a detailed, thoroughly referenced overview of the entire field rather than focusing exclusively on one particular professional viewpoint or facet of the problem. The chapters encompass physical abuse, sexual abuse, emotional abuse, and neglect. For each of these areas, the text offers a clear historical perspective in addition to pertinent data on incidence and epidemiology, contributing factors, assessment, treatment, and prevention. Moreover, a wealth of case studies underscores the importance and meaning of various intervention strategies.

Van Hasselt, Michel Hersen, 2013-11-11 The past quarter century has witnessed a dramatic upsurge of violent crime in the United States and abroad. In this country, the rise in violent criminal activity has been consistently documented in such published accounts as the Uniform Crime Reports and the Statistical Handbook on Violence in America published by the FBI and the Violence Research Group respectively. Further, social scientists, particularly those working in the fields of sociology and psychology, have provided a convergence of findings attesting to the magnitude of one of today's most significant social problems: domestic violence. e.g., spouse, child, and elder abuse. Such efforts have served as the impetus for heightened clinical and investigative activity in the area of violent behavior. Indeed, a wide range of mental health experts, such as psychologists, psychiatrists, social workers, counselors, and rehabilitation specialists, have endeavored to focus on strategies and issues in research and treatment for violent individuals and their victims. The purpose of this book is to provide a comprehensive and timely examination of current psychological approaches with violent criminal offenders. Despite the fact that we continue to have much to learn about perpetrators of violent acts, in recent years an increasingly large body of empirical data has been adduced about this year's issue. However, these

data generally have appeared in disparate journals and books That being the case it is our belief that such a handbook now is warranted
