

RICHARD STRAUSS COMPLETE OPERAS

The Complete Operas Of Richard Strauss

Charles Osborne

The Complete Operas Of Richard Strauss:

The Complete Operas of Richard Strauss Charles Osborne, 1988 Overzicht van de opera's van de Duitse componist 1864-1949 *"The" Complete Operas of Richard Strauss* Charles Osborne, 1991 [The Complete Operas of Richard Strauss](#) Charles Osborne, 1988 **The Complete Operas of Strauss** Charles Osborne, 1992 Richard Strauss born in 1864 was one of the 20th century's greatest and most prolific opera composers His third opera Salome introduced the single act structure and the sensuality of the music caused a furore This was followed by the equally shocking Elektra written in collaboration with Hugo von Hofmannsthal but they completely changed direction for their next joint venture Der Rosenkavalier in which the Viennese waltz found its apotheosis Once considered a revolutionary Richard Strauss is today seen as the last of the German romantic composers and most of his operas are still performed regularly throughout the world

[The Complete Operas Of Richard Wagner](#) Charles Osborne, 1993-03-22 Wagner's operas can be counted among the most important works of art of the nineteenth century But Wagner was a composer around whom violent artistic political and literary controversies raged during his lifetime Even today Wagner's music seems to arouse either adulation or antipathy In *The Complete Operas of Richard Wagner* as in the first four volumes of his famous series on the great opera composers Charles Osborne first describes the composer's life at the time he wrote each opera thus providing a biographical thread which runs through the book follows it with a thorough examination of the libretto and its sources and lastly tells the story of the opera which he links to the major musical features This book is in effect a musical biography of Wagner tracing his development from his first complete opera Die Feen to his last Parsifal It serves as an invaluable guide to the often perplexing Wagner oeuvre both for the regular opera goer and the armchair listener **Complete Text of Opera by Richard Strauss** Richard Strauss, Hugo von Hofmannsthal, 1955 **The Complete Opera Book** Gustave Kobbé, 1919

[The Complete Operas Of Mozart](#) Charles Osborne, 1983-03-22 The major operas of Mozart Don Giovanni The Marriage of Figaro The Magic Flute Così fan Tutte are well known to music listeners everywhere having secured a permanent place in the repertoire of companies throughout the world But how much do you know about La Clemenza di Tito Idomeneo L'Oca del Cairo Zaide Charles Osborne here provides detailed descriptions of all of these and fourteen others in a volume that serves both a first rate biography and an exhaustive critical guide to the Mozart oeuvre Charles Osborne is obviously in command of the literature He quotes copiously from the mountain of letters contemporary journals and the most recent scholarship dealing with the period His fourfold approach linking biography with musical textual and dramatic analysis is uniquely satisfying for those seeking an integrated understanding of opera's many dimensions With a plot summary and character listings of each work *The Complete Operas of Mozart* can be read in one sitting for a panoramic sweep of Mozart's operatic genius or for reliable reference by the phonograph or radio **A History of Opera** Burton D. Fisher, 2005 A comprehensive history of opera that traces each milestone in opera history from the 16th century Camerata through the next 400 years and

featurrd in depth analysis of all important genres the Baroque Classical and Romantic eras Bel Canto Opera Buffa German Romanticism Wagner and music drama Verismo Impressionism Expressionism Serialism and much more *The Complete Opera Book* Gustav Kobbé,2020-07-24 Reproduction of the original The Complete Opera Book by Gustav Kobb Historical Dictionary of Opera Scott L. Balthazar,2013-07-05 Opera has been around ever since the late 16th century and it is still going strong in the sense that operas are performed around the world at present and known by infinitely more persons than just those who attend performances On the other hand it has enjoyed periods in the past when more operas were produced to greater acclaim Those periods inevitably have pride of place in this Historical Dictionary of Opera as do exceptional singers and others who combine to fashion the opera whether or not they appear on stage But this volume looks even further afield considering the cities which were and still are opera centers literary works which were turned into librettos and types of pieces and genres While some of the former can be found on the web or in other sources most of the latter cannot and it is impossible to have the whole picture without them Indeed this book has an amazingly broad scope The dictionary section with about 340 entries covers the topics mentioned above but obviously focuses most on composers not just the likes of Mozart Verdi and Wagner but others who are scarcely remembered but made notable contributions Of course there are the divas but others singers as well and some of the most familiar operas Don Giovanni Tosca and more Technical terms also abound and reference to different genres from antimasque to zarzuela Since opera has been around so long the chronology is rather lengthy since it has a lot of ground to cover and the introduction sets the scene for the rest This book should not be an end but rather a beginning so it has a substantial bibliography for readers seeking more specific or specialized works It is an excellent access point for readers interested in opera *Opera for Libraries* Clyde T. McCants,2003-03-14 Opera is a unique expression of the human mind and spirit a play that communicates plot characterization and story almost entirely through music Unfortunately because of restraints of time location and income few people have the opportunity to see operas performed on a regular basis Public libraries are an easily accessible alternative for gaining operatic knowledge and exposure offering the public a chance to hear see and develop an appreciation of opera This work is a two part guide for libraries that want to assemble a comprehensive collection of operatic materials Part I is a list of recommended operas ranging over four hundred years of operatic history and including a variety of different styles and languages The goal of Part I is to provide recommendations for a comprehensive library collection of video and sound operatic recordings Part II suggest books periodicals and online resources that could be an integral and important part of a library s opera collection This section also discusses the care and maintenance of sound and video recordings offers suggestions for locating hard to find operatic material and explores the library s role in sparking patron interest in opera *Opera* Guy A. Marco,2001 Opera is the only guide to the research writings on all aspects of opera This second edition presents 2 833 titles over 2 000 more than the first edition of books parts of books articles and dissertations with full bibliographic descriptions and critical annotations

Users will find the core literature on the operas of 320 individual composers and details of operatic life in 43 countries. All relevant works through to November 1999 have been considered covering more than fifteen years of literature since the first edition was published. Provided by publisher *Fundamentals of Musical Art: German and Russian opera* Edward Dickinson, 1926 *Losing Our Heads* Regina Janes, 2005-08 What is the fascination that decollation holds for us as individuals and as a culture? Why does the idea make us laugh and the act make us close our eyes? *Losing Our Heads* explores in both artistic and cultural contexts the role of the chopped off head. It asks why the practice of decapitation was once so widespread, why it has diminished but not as scenes from contemporary Iraq show completely disappeared, and why we find it so peculiarly repulsive that we use it as a principal marker to separate ourselves from a more barbaric or primitive past. Although the topic is grim, Regina Janes's treatment and conclusions are neither grisly nor gruesome but continuously instructive about the ironies of humanity's cultural nature. Bringing to bear an array of evidence, the book argues that the human ability to create meaning from the body motivates the practice of decapitation, its diminution, the impossibility of its extirpation, and its continuing fascination. Ranging from antiquity to the late nineteenth century passion for Salome and John the Baptist, and from the enlightenment to postcolonial Africa's challenge to the severed head as sign of barbarism, *Losing Our Heads* opens new areas of investigation, enabling readers to understand the shock of decapitation and to see the value in moving past shock to analysis. Written with penetrating wit and featuring striking illustrations, it is sure to captivate anyone interested in his or her head. **The Harvard Biographical Dictionary of Music** Don Michael Randel, 1996 Biographical dictionary emphasizes classical and art music; also gives ample attention to the classics as well as jazz, blues, rock, and pop, and hymns and showtunes across the ages. [Encyclopedia of Recorded Sound](#) Frank Hoffmann, 2004-11-12 First Published in 2005 Routledge is an imprint of Taylor Francis, an informal company. *Opera and Its Symbols* Robert Donington, 1990-01-01 Explains the use of symbolism in opera; interprets scenes from Monteverdi, Mozart, Verdi, Wagner, Stravinsky, and Britten, and stresses the importance of staging an opera in accord with the composer's intended use of symbols. *Australian National Bibliography*, 1978 **The Rough Guide to Opera** Matthew Boyden, Nick Kimberley, 2002 Sketches of opera composers, opera synopses, and CD reviews.

Unveiling the Energy of Verbal Artistry: An Emotional Sojourn through **The Complete Operas Of Richard Strauss**

In some sort of inundated with displays and the cacophony of instantaneous conversation, the profound power and psychological resonance of verbal artistry usually fade in to obscurity, eclipsed by the regular onslaught of sound and distractions. However, set within the musical pages of **The Complete Operas Of Richard Strauss**, a interesting work of literary brilliance that pulses with natural emotions, lies an wonderful trip waiting to be embarked upon. Written by a virtuoso wordsmith, this mesmerizing opus manuals visitors on a mental odyssey, lightly exposing the latent possible and profound influence stuck within the elaborate web of language. Within the heart-wrenching expanse with this evocative examination, we can embark upon an introspective exploration of the book is central subjects, dissect its captivating publishing type, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
