The Complete Upmanship Stephen Potter, 1986 **The Complete Upmanship** Stephen Potter, 1986 **The Power of Bad** John Tierney, Roy F. Baumeister, 2021-01-05

The most important book at the borderland of psychology and politics that I have ever read

Martin E P Seligman Zellerbach Family Professor of Psychology at that University of Pennsylvania and author of *Learned Optimism*

Why are we devastated by a word of criticism even when it is mixed with lavish praise

Because our brains are wired to focus on the bad

This negativity effect explains things great and small why countries blunder into disastrous wars why couples divorce why people flub job interviews how schools fail students why football coaches stupidly punt on fourth down

All day long the power of bad governs people's moods drives marketing campaigns and dominates news and politics

Eminent social scientist Roy F Baumeister stumbled unexpectedly upon this fundamental aspect of human nature

To find out why financial losses mattered more to people than financial gains Baumeister looked for situations in which good events made a bigger impact than bad ones

But his team couldn't find any

Their research showed that bad is relentlessly stronger than good and their paper has become one of the most cited in the scientific literature

Our brain's negativity bias makes evolutionary sense because it kept our ancestors alert to fatal dangers but it distorts our perspective in today's media environment

The steady barrage of bad news and crisis mongering makes us feel helpless and leaves us needlessly fearful and angry

We ignore our many blessings preferring to heed and vote for the voices telling us the world is going to hell

But once we recognize our negativity bias the rational brain can overcome the power of bad when it is harmful and employ that power when it is beneficial

In fact bad breaks and bad feelings create the most powerful incentives to become smarter and stronger

Properly understood bad can be put to perfectly good use

As noted science journalist John Tierney and Baumeister show in this wide ranging book we can adopt proven strategies to avoid the pitfalls that doom relationships careers businesses and nations

Instead of despairing at what is wrong in your life and in the world you can see how much is going right and how to make it still better
