

..Vedanta and modern managers

- Vedanta philosophy gives an insight into the types of human beings- Tamsic, Rajsik and Yogic. It also gives elaborate description of the motivations and driving forces of the three types of human beings. A manager with knowledge of Vedanta will do well by forming an appropriate strategy for all types of people and harnessing their strengths or keeping away from them completely.
- Bhagavad Gita is an entire treatise on management. It talks about taking up a cause just on the basis of righteousness, without flinching even if one has to be on the opposite side of one's own kith and kin. It espouses the concept of Dharma over personal relationship.
- Bhagavad Gita also places importance of action over renunciation. When the great archer Arjun wanted to give up arms when confronted by his own Gurus, uncles and brothers in the battle field, Bhagwan Krishn tells Arjun that renunciation to avoid action is akin to cowardice. Vedantic knowledge thus is clearly a call to action and this is the key learning for any manager.
- Vedanta school of thought places great importance on Nishkaam karma or selfless actions. This is the cornerstone of charity that later developed into Corporate social responsibility.
- Vedanta stresses maximum emphasis over means and is not just about results. If the ultimate aim of one's life is to achieve salvation then the path trodden must be ethical and moral.

The Concept Of Salvation In Vendanta:

The Concept of Salvation in Vedānta Saroj Kulshreshtha, 1986 *Encyclopedia of Indian Philosophies* Karl H. Potter, 1995-01-01 This constitutes the first volume of the series It indicates the scope of the project and provides a list of sources which will be surveyed in the subsequent volumes as well as provide a guide to secondary literature for further study of Indian Philosophy It lists in relative chronological order Sanskrit and Tamil works All known editions and translations into European languages are cited where published versions of the text are not known a guide to the location of manuscripts of the work is provided *Comparative Theology and the Problem of Religious Rivalry* Hugh Nicholson, 2011-04-08 In theological discourse argues Hugh Nicholson the political goes all the way down One never reaches a bedrock level of politically neutral religious facts because all theological discourse even the most sublime edifying and spiritual is shot through with polemical elements Liberal theologies from the Christian fulfillment theology of the nineteenth century to the pluralist theology of the twentieth have assumed that religious writings attain spiritual truth and sublimity despite any polemical elements they might contain Through his analysis and comparison of the Christian mystical theologian Meister Eckhart and his Hindu counterpart aSkara Nicholson arrives at a very different conclusion Polemical elements may in fact constitute the creative source of the expressive power of religious discourses Wayne Proudfoot has argued that mystical discourses embody a set of rules that repel any determinate understanding of the ineffable object or experience they purport to describe In *Comparative Theology and the Problem of Religious Rivalry* Nicholson suggests that this principle of negation is connected perhaps through a process of abstraction and sublimation with the need to distinguish oneself from one's intra and or inter religious adversaries Nicholson proposes a new model of comparative theology that recognizes and confronts one of the most urgent cultural and political issues of our time namely the return of the political in the form of anti secular and fundamentalist movements around the world This model acknowledges the ineradicable nature of an oppositional dimension of religious discourse while honoring and even advancing the liberal project of curtailing intolerance and prejudice in the sphere of religion *The Religion of India by Max Weber* Hans H. Gerth, Don Martindale, 2023-06-15 Max Weber's early twentieth century study of the religions and civilization of India is a great pioneering adventure in the sociology of ancient India Weber's insight and analysis especially his application of the sociological perspective to the work of classical Indologists and the religious texts available to him were to add much to the store of the social scientist Later historians and archaeologists were to confirm a surprising number of Weber's theories The central concern of this and other of Weber's studies of countries we today describe as developing was with the obstacles to industrialization and modernization Weber anticipated by several decades a problem that has come to occupy the post World War II world Why had these countries failed to display the full consequence of these rationalizing tendencies which to Weber's mind had so powerful an affinity with the scientific technical transformation of the West He isolated religious institutions and the key social strata which

mediate them to wider society as crucial for the original formation of social psychological orientations to the practical concerns of life and hence for receptivity or resistance to industrialization *Spiritualism, Its Present-day Meaning* Huntly Carter, 1920 *Western Sociologists on Indian Society (Routledge Revivals)* G. R. Madan, 2010-01-20 Of the five major sociologists whose views on Indian society are assessed in this work originally published in 1979 Marx and Weber made a special study of the subject and had something definite to say about the future of Indian society Herbert Spencer was primarily concerned with the effects of colonial rule on India's progress while Durkheim and Pareto tended to observe Indian society from a comparative point of view However as this study shows all five sociologists touched on two special aspects of Indian society Indian religion and the caste system The other features of Indian society which they discussed in their various writings range widely from marriage and family structure through village communities and the social structure of cities to political organization the educational system economic conditions and the future progress of Indian society Dr Madan demonstrates the correctness of Marx's contention that the political subordination of India was the one great hindrance to the future progress of Indian Society He points out though that Marx failed to see clearly the effects of the caste system on economic development and shows that this aspect was more correctly assessed by Max Weber On the other hand in Dr Madan's view Weber's observation that Indian religion was otherworldly and therefore a great obstacle to progress in Indian society lacked incisiveness By focusing on a neglected aspect of the writings of five of the great figures in sociology the book gives a new insight into their work and at the same time highlights many hitherto unrecognized facets of India's complex social structure **The Philosophical Quarterly**, 1927 **The Uddhava Gita**, 2002-09-28 Widely read The Bhagavad Gita is a classic of world spirituality while The essential companion to The Bhagavad Gita The Uddhava Gita has remained overlooked This new accessible and only English translation in print of The Uddhava Gita offers a previously unexplored path to understanding Hinduism and Krishna's wisdom Written centuries apart the ideas of the two dialogues are similar although their approach and contexts differ The Bhagavad Gita is filled with the urgency of battle while The Uddhava Gita takes place on the eve of Krishna's departure from the world The Uddhava Gita offers the reader philosophy sublime poetry practical guidance and ultimately hope for a more complete consciousness in which the life of the body better reflects the life of the spirit *Religion and Anthropology* Brian Morris, 2006 This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies Comprehensive free of scholastic jargon engaging and comparative in approach it covers all the major religious traditions that have been studied concretely by anthropologists Shamanism Buddhism Islam Hinduism Christianity and its relation to African and Melanesian religions and contemporary Neopaganism Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological analysis The book will appeal to all students of anthropology whether established scholars or initiates to the

discipline as well as to students of the social sciences and religious studies and for all those interested in comparative religion
