**Eighty-eight Years** Patrick Rael, 2015 Why did it take so long to end slavery in the United States and what did it mean that the nation existed eighty eight years as a house divided against itself as Abraham Lincoln put it The decline of

slavery throughout the Atlantic world was a protracted affair says Patrick Rael but no other nation endured anything like the United States Here the process took from 1777 when Vermont wrote slavery out of its state constitution to 1865 when the Thirteenth Amendment abolished slavery nationwide Rael immerses readers in the mix of social geographic economic and political factors that shaped this unique American experience He not only takes a far longer view of slavery's demise than do those who date it to the rise of abolitionism in 1831 he also places it in a broader Atlantic context We see how slavery ended variously by consent or force across time and place and how views on slavery evolved differently between the centers of European power and their colonial peripheries some of which would become power centers themselves Rael shows how African Americans played the central role in ending slavery in the United States Fueled by new Revolutionary ideals of self rule and universal equality and on their own or alongside abolitionists both slaves and free blacks slowly turned American opinion against the slave interests in the South Secession followed and then began the national bloodbath that would demand slavery's complete destruction

*Breaking the Frames* Marc Singer, 2019-01-09 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimation from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself The

consequence is a growing disconnect in the ways that comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work. *Breaking the Frames: Populism and Prestige in Comics Studies* surveys the current state of comics scholarship, interrogating its dominant schools, questioning their mutual estrangement and challenging their propensity to champion the comics they study. Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies, making the case for a field that can embrace more critical and oppositional perspectives. Working through extended readings of some of the most acclaimed comics creators, including Marjane Satrapi, Alan Moore, Kyle Baker, and Chris Ware, Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics.

**Identity and the Failure of America** John Michael, 2008. From Thomas Jefferson to John Rawls, justice has been at the center of America's self-image and national creed. At the same time, for many of its peoples—from African slaves and European immigrants to women and the poor—the American experience has been defined by injustice, oppression, disenfranchisement, violence, and prejudice. In *Identity and the Failure of America*, John Michael explores the contradictions between a mythic national identity promising justice to all and the realities of a divided, hierarchical, and frequently iniquitous history and social order. Through a series of insightful readings, Michael analyzes such cultural moments as the epic dramatization of the tension between individual ambition and communal complicity in *Moby-Dick*, attempts to effect social change through sympathy in the novels of Lydia Marie Child and Harriet Beecher Stowe, Ralph Waldo Emerson's antislavery activism, and Frederick Douglass's long fight for racial equity, and the divisive figures of John Brown and Nat Turner in American letters and memory. Focusing on exemplary instances when the nature of the United States as an essentially conflicted nation turned to force, Michael ultimately posits the development of a more cosmopolitan American identity, one that is more fully and justly imagined in response to the nation's ethical failings at home and abroad. John Michael is professor of English and of visual and cultural studies at the University of Rochester. He is the author of *Anxious Intellects: Academic Professionals, Public Intellectuals, and Enlightenment Values* and *Emerson and Skepticism: The Cipher of the World*.

**Harriet Tubman and the Fight for Freedom** Lois E. Horton, 2018-10-26. Harriet Tubman is a legendary figure in the history of American slavery and the Underground Railroad. In the introduction to this compelling volume, Lois Horton reveals the woman behind the legend and addresses the ways in which Tubman's mythic status emerged in her own lifetime and beyond. Going beyond mere biography, Horton weaves through Tubman's story the larger history of slavery, the antislavery movement, the Underground Railroad, the increasing sectionalism of the pre-Civil War era, as well as the war and post-war Reconstruction. A rich collection of accompanying documents, including the Fugitive Slave Act, letters, newspaper articles, advertisements, and tributes to Tubman, shed light on Tubman's relationships with key abolitionist figures such as Frederick Douglass and William Lloyd Garrison, her role in the women's rights movement, and her efforts on behalf of fugitive slaves and

freed blacks through the Civil War and beyond A chronology of Tubmans life along with questions for consideration and a selected bibliography enhance this important volume **Understanding 19th-Century Slave Narratives** Sterling Lecater Bland Jr.,2016-06-13 African American slave narratives of the 19th century recorded the grim realities of the antebellum South they also provide the foundation for this compelling and revealing work on African American history and experiences Naturally it is not possible to really know what being a slave during the antebellum period in America was like without living the experience But students CAN get eye opening insight into what it was like through the gripping stories of bravery courage persistence and resiliency in this collection of annotated slave narratives from the period Each of the collected narratives includes an introduction that provides readers with key historical context on the particular life examined Moreover each narrative is accompanied by annotations that broaden the reader s comprehension of that primary document The primary source documents in this volume tell enthralling stories such as how slave woman Ellen Craft utilized her particularly pale complexion to pose as a free white man overseeing his slaves to free herself and her husband and how Henry Brown successfully shipped himself to freedom in a box measuring scarcely 3 feet by 2 feet by 6 inches deep despite being more than 6 feet tall **The Drift: Affect, Adaptation, and New Perspectives on Fidelity** John

Hodgkins,2013-06-06 The Drift Affect Adaptation and New Perspectives on Fidelity offers a new perspective on the complex interrelations between literature and cinema It does so by articulating an affective turn for adaptation studies a field whose traditional focus has been the critical castigation of film adaptations of canonical plays or novels Drawing on theorists such as Gilles Deleuze Brian Massumi and Marco Abel the author is able to re conceive literary and cinematic works as textual engines generating and circulating affect and the adaptive process as a drifting of those affective intensities from one medium to another By conceptualizing adaptation in this manner the work steers clear of the chimerical notion of fidelity to character to theme to narrative which has anchored so many analyses of adaptive texts over the years and the reproving language that inevitably attends it in favor of more productive avenues of investigation What affective work are certain literary and filmic texts performing What can this tell us more broadly about the underexplored affective dimensions of literature and cinema and the dialogic interactions between them The Drift addresses such questions through close careful readings which put a variety of realist modernist and postmodernist works into conversation with each other among them the fiction of John Dos Passos Don DeLillo and Susanna Moore the films of Dziga Vertov and Sergei Eisenstein as well as recent cinematic adaptations by Jane Campion and Charles Burnett This methodological approach helps to elevate adaptation studies into a discourse that speaks more directly and pertinently to our fluid hypertextual era **Conspiracies and**
