Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study      Context of English Literature 1900-1930 Michael Bell, 1980      *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries      *Writing Englishness: An Introductory Sourcebook* Judy Giles, Tim Middleton, 2003-09-02 What did it mean in the first half of this century to say I am English A Practical Sourcebook on National Identity is a unique collection of extracts from writing of the era all of which in some way raise this question Drawn from a wide range of sources including letters diaries journalism fiction poems parliamentary speeches and government reports the volume is divided into five sections The Ideas and Ideals of Englishness Versions of Rural England War and National Identity Culture and Englishness Domestic and Urban Englands The editors provide an introduction to each section and conclude with suggested study activities and further reading It also contains a chronology and bibliography completing the framework for study A Practical Sourcebook on National Identity is a fascinating collection which will not only be essential and accessible reading for students but will also appeal to anyone who has ever asked what it means to become part of a national identity      **A Route to Modernism** R. Sumner, 2000-05-03 The question What is modernism has provoked intense critical discussion A Route to Modernism explores this area it focuses on the strange and dangerous journey taken by Hardy Lawrence and Woolf towards unknown regions of the mind and the universe In a discussion of these novelists both individually and in relation to one another a radical reconsideration of modernism is developed Woolf envisaged her contemporaries flashing past on another railway line A Route to Modernism shows the hypothetical train of Hardy Lawrence and Woolf not following an existing track but tunnelling beneath surfaces following routes which are spasmodic fragmentary sometimes taking off like a rocket into the cosmos Their fragmented modernist works deny us the comfort of a single meaning either in works of art or in the world This book offers new approaches to modernism while insisting on books being left open no conclusion come to

**Polyphony in Fiction** Masayuki Teranishi, 2008 The overall aim of this book is the application of stylistic theories and

frameworks to literary texts for a deeper level of interpretation For this purpose the author conducted an analysis based upon the concepts of polyphony and focalization of three novels from different literary periods commonly labeled Pre modernism Modernism and Postmodernism namely George Eliot's *Middlemarch* 1871 2 Joseph Conrad's *Nostromo* 1904 and Saul Bellow's *Herzog* 1964 Inspired by the work of Russian linguist philosopher Mikhail Bakhtin the author attempts to clarify stylistically how polyphony is textualized in each novel and how each mode of polyphony reflects less parochial literary and cultural trends

*The Turn of the Mind* Adré Marshall, 1998 James's narrative strategies are discussed in the context of the techniques employed by his literary predecessors Illuminating comparisons are made with novelists such as Jane Austen and George Eliot and particular attention is paid to the French novelist Flaubert who was probably the most significant influence on James The author examines James's stylistic devices in a selection of representative works from his early middle and late periods Roderick Hudson *The Portrait of a Lady* and *The Golden Bowl*

*Dorothy Richardson's 'Art of Memory'* Elisabeth Bronfen, 2024-07-30 Addresses the question of how identity is formed as a result of corporeal and cultural positioning by mapping Dorothy Richardson's early modernist text *Pilgrimage* against our postmodern interest in real and imagined geographies

**Russomania** Rebecca Beasley, 2020-03-31 *Russomania* Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia *Russomania* argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future

*The Cambridge History of Literary Criticism: Volume 7, Modernism and the New Criticism* George Alexander Kennedy, 1989 The history of the most

hotly debated areas of literary theory including structuralism and deconstruction *The Body in the Text* Evi Voyiatzaki, 2002-01-01 The Body in the Text highlights the importance of the body in language and narrative and its impact on meaning and signification Evi Voyiatzaki's insightful work reveals the highly metaphoric and symbolic texture of James Joyce's Ulysses which the author contends resembles the organization of a living organism The book examines how the living meaning of the word in Joyce's texts has inspired the work of three avant garde Greek writers Nikos Gavriliadis Pentzikis Stelios Xefloulas and Giorgos Cheimonas A valuable comparison between Joyce's work and modern Greek literature The Body in the Text's comparative exploration of the body's functions within literary discourse offers new insight into language's metaphoricity and the physiology of writing D.H. Lawrence Fiona Becket, Annotation This guide moves beyond the controversy surrounding Lady Chatterley's Lover to examine the prolific output of poetry novels and non fiction that made Lawrence a central figure in the Modernist movement *Modernism* Peter Childs, 2007-11-05 The modernist movement radically transformed the late nineteenth and early twentieth century literary establishment and its effects are still felt today Modernism introduces and analyzes what amounted to nothing less than a literary and cultural revolution In this fully updated and revised second edition charting the movement in its global and local contexts Peter Childs details the origins of the modernist movement and the influence of thinkers such as Darwin Marx Freud Nietzsche Saussure and Einstein explores the radical changes which occurred in the literature drama art and film of the period traces modernism at work in Anglophone literatures especially in writings by a range of key figures including James Joyce Virginia Woolf Samuel Beckett Nella Larsen Gertrude Stein Katherine Mansfield T S Eliot and many others reflects upon the shift from modernism to postmodernism At once accessible and critically informed Modernism guides readers from first steps in the field to an advanced understanding of one of the most important cultural movements of the last centuries *D. H. Lawrence* Simonetta de Filippis, 2016-08-17 In recent decades critical and theoretical debate in the field of culture and literature has called into question many literary categories has re-discussed the literary canon and has totally renovated critical approaches in the wake of major changes in western society such as the irruption of new cultural identities the disruption of the well established Euro-centric conception and the need to establish new world visions D H Lawrence has been a focus for critical debate since his early publications in the first decades of the 20th century The force of his thought his courageous challenge against the most important values of western industrial society his rejection of England and its bourgeois values his choice to live in exile his never ending quest for lost vital meanings his open mindedness in coming into contact with different worlds and cultures and the revolutionary impact of his writing have all provided critics with important issues for discussion Most of Lawrence's works are still being read and analysed through ever new critical lenses and approaches This volume brings together a selection of papers delivered at the 13th International D H Lawrence Conference D H Lawrence New Life New Utterance New Perspectives held in Gargnano in 2014 on Lake Garda the place of Lawrence's first Italian sojourn where he

started a new life with Frieda and a new phase as a writer The essays selected for Part I of this volume offer new readings of Lawrence's work and ideology through various theoretical and philosophical approaches drawing comparisons with philosophers and thinkers such as Bataille Darwin Derrida Heidegger and Benjamin among others Part II focuses on translation a concept which can be extended to cultural mediation as it can be applied not only to the proper translation of texts from one language into another but also to travel writing and to transcodification as is the case of film versions of Lawrence's novels

**The Nature of Modernism** Elizabeth Black, 2017-11-22 This book presents the first extended study of the relationship between British modernist poetry and the environment Challenging reductive associations of modernism as predominantly anthropocentric in character and urban in focus the book's central argument is that within British modernist poetry there is a clear and sustained interest in the natural world which has yet to receive adequate critical attention Whilst modernist studies continues to emphasize the plurality of the movement and the breadth of voices and concerns within it the environmental consciousness of modernist literature and its response to changes to human nature relations following the experience of war and modernity remain largely unexamined Exploring British modernist poetry from an ecocritical perspective offers a fresh approach to the movement and its context and produces original readings of both canonical and more marginalized modernist voices This book opens by discussing the relationship between modernism and ecocriticism and the benefits of creating a dialogue between the two It then presents new readings of Edward Thomas T S Eliot Edith Sitwell and Charlotte Mew that reveal a shared preoccupation with environmental issues and a common desire to find new ways of achieving physical psychological and artistic reconnection with nature Building on the continuing growth of ecocriticism this book demonstrates how green approaches to modernist studies can produce new insights into both individual poets and the modernist movement as a whole making it an essential resource for students of modernism ecocriticism and early twentieth century literature

to Ford's fiction, nonfiction, and poetry, including reception history, life writing, literary histories, gender, and comedy. The Routledge Research Companion to Ford Madox Ford is an invaluable resource for students and scholars in Ford Studies in modernism and in the literary world that Ford helped shape in the early years of the twentieth century. **Sentimentalism, Ethics and the Culture of Feeling** M. Bell, 2000-09-25. Sentimentalism: Ethics and the Culture of Feeling defends feeling against customary distrust or condescension by showing that the affective turn of the eighteenth-century cult of sentiment, despite its sometimes surreal manifestations, has led to a positive culture of feeling. The very reaction against sentimentalism has taught us to identify sentimentality. Fiction moreover remains a principal means not just of discriminating quality of feeling but of appreciating its essentially imaginative nature. *Literary Modernism and Musical Aesthetics* Brad Bucknell, 2001. Bucknell's study investigates how music as a discrete artistic mode of expression and a recurring theme in the work of these four writers reveals the intricate and varied nature of the modernist project.
