The Compass Of Philosophy An Essay In Intellectual Orientation:

The Compass of Philosophy Newton Phelps Stallknecht, Robert Sherrick Brumbaugh, 1974 **Dictionary of Modern American Philosophers** John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading. While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers. In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

Plato, Time, and Education Brian P. Hendley, 1988-01-01 This collection of original essays pays tribute to the man by exploring topics that have interested him through a long and productive career. Plato's mathematical imagery his theory of perception the role of engineering techne in the origin of Greek science time and free will in Kant Whitehead as teacher of teachers mapping friendships Kierkegaard and the necessity of forgery. These and other topics are given fresh treatments meant to stimulate further philosophical thinking in the spirit of Brumbaugh himself.

Ritual and Deference Robert Cummings Neville, 2008-06-13 *Ritual and Deference* develops Robert Cummings Neville's thesis that contemporary philosophy has much to gain by shaping itself through important themes of the Chinese philosophical traditions especially the themes of ritual and deference. Neville here offers a broad and detailed interpretation of the relevance of Confucianism and Daoism to contemporary issues. The discussion includes analyses of classical Confucian and Daoist texts especially those of Xunzi and Laozi and of the current scene of English speaking philosophy advancing Chinese themes. The book also reflects on the nature of comparative philosophy as such and the role that comparative philosophy has in the ongoing contemporary engagement with globalization the clash of cultures and scientific transformations of the worldviews of diverse civilizations. Neville stresses the importance of deferring to the integrity of cultures while still submitting them to normative analysis and criticism.

A Marriage of Philosophy and Music Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music*. It is all about after. After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills. We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality. This book offers a

path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art *The Compass of Philosophy* Newton Phelps Stallknecht,1954 **Routledge Library Editions: Plato** Various,2021-12-02 Plato is perhaps the best known and most widely studied of all the ancient Greek philosophers A pupil of Socrates and teacher of Aristotle his ideas have inspired and influenced scholars of nearly every era His famous series of dialogues have become a standard part of the western philosophical canon from the Euthyphro and Gorgias of his early period the Republic Phaedrus and Symposium of his middle period to the Theaetetus and Laws of his late period The Routledge Library Edition makes available in a single set an outstanding range of scholarship devoted to Plato s philosophical work Routledge Library Editions Plato makes available in a single set an outstanding range of scholarship devoted to Plato s philosophical work The 21 volumes provide detailed analysis of his writings and philosophical ideas From the classic works of Francis Cornford G C Field and A E Taylor to more recent approaches and interpretations this set provides libraries and scholars with a century of outstanding scholarship on this key philosopher **Plato and the English Romantics (RLE: Plato)** E Douka Kabitoglou,2013-05-07 This book tackles the problematic relationship between Platonic philosophy and Romantic poetry between the intellect and the emotions Drawing on contemporary critical theory especially hermeneutics and deconstruction the author shows that a dialogue between thinking and poetizing is possible The volume yields many new insights into both Platonic and Romantic texts and forms an important work for scholars and students of Greek philosophy Romantic literature and critical theory *Catalogue of Copyright Entries* ,1954 *Plato & English Romantics* Douka Kabitoglou,2002-11 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company **Plato and the English Romantics** Aikaterinē Douka-Kampitoglou,1990 First published in 1990 Routledge is an imprint of Taylor Francis an informa company **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System).
