

# What is a community garden?

A community garden is a shared garden that brings neighborhoods, communities or those with shared interest together with the goal of growing produce together. Community Gardens can be found in a variety of locations including urban plots, apartment complexes or within schools.

Regardless of where the garden is found, enriching experiences and learning are sure to follow.

# What does it take to start a community garden?

## Start with some goals

Determine if the goal is education, service or even building community.

## Locate a space

Before starting a community garden, check to see if there is an established garden already in your area.

## Determine what kind of gardening is best for your space and goals.

Consider the pros and cons of raised bed gardens, in ground gardens, or smaller container gardens.

## Get organized

Organize an interest meeting and work with involved parties to determine the method of gardening and the plot style.

# What do I need to know before planting?

## How will we move forward?

A community garden requires weeks of hard work and consistency. It is best when a plan of work or timeline is established prior to starting the gardening.

## How do we sustain the garden?

Establish a plan for watering, weeding, and harvesting through the growing season.
