**A Brief History of Chinese Design Thought** Qi Shao, Xiaojing Wen, Paul White, 2022-10-05 This book introduces readers to the history of design thinking in pre modern China The content is structured according to successive dynasties covering the seven major periods of the pre Qin Qin and Han Wei and Jin Sui and Tang Song and Yuan Ming and Qing dynasties Each chapter introduces the most representative individuals of the period and discusses their work and ideas in order to reveal the national and cultural features of the respective periods A distinctive feature of cultural identity running through the long course of China's historical development is the argument that actions are determined by

ideas Such a view can be found in long standing thinking on art design and creativity The book demonstrates that conscious design is the vital link between the ideas that constitute human cultures and the physical objects that make up their resulting material cultures It is the attribute of design that defines what it is to be human and also produces the physical evidence of the evolution of Chinese civilization The book reveals the integrated characteristics of Chinese culture and art and shows how both changing and recurring ideologies have influenced Chinese design practice since the ancient Shang and Zhou dynasties and how these forces have shaped the spirit and materiality of Chinese civilization Design is the cornerstone that has made China one of the major contributors to human civilization throughout the thousands of years of its history Given its focus the book largely appeals to two main audiences an academic readership of students and researchers interested in cultural studies and a more general one consisting of those interested in international comparisons and wishing to learn more about Chinese history society and culture In order to appeal to both the book is written in a clear and accessible language

collection we see a portrait of their soul complex intriguing yet possibly insane What Delbourgo calls the Romantic collecting self has always lurked on the dark side of humanity But this dark side has a silver lining Because obsessive collectors are driven by passion not profit they have been countercultural heroes in the modern imagination defying respectability and taste in the name of truth to self A grand portrait gallery of collectors in all their decadent glory A Noble Madness recounts the saga of the human urge to accumulate from Caligula to Marie Antoinette Balzac to Freud Norman Bates to Andy Warhol Collectors love of objects may be mad even dangerous But we want to believe their love s a noble madness because by expressing that love they are themselves

**The Ashgate Research Companion to Modern Imperial Histories** John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what

constituted the modern empire      **A History of East Asia** Charles Holcombe,2011 This book traces the story of East Asia from the dawn of history to the present      **Global Trade and the Transformation of Consumer Cultures** Beverly Lemire,2018-01-11 Charts the rise of consumerism and the new cosmopolitan material cultures that took shape across the globe from 1500 to 1820      **Antiquarianism and Intellectual Life in Europe and China, 1500-1800** Peter N. Miller,Francois Louis,2012-06-13 This book is a project in comparative history but along two distinct axes one historical and the other historiographical Its purpose is to constructively juxtapose the early modern European and Chinese approaches to historical study that have been called antiquarian As an exercise in historical recovery the essays in this volume amass new information about the range of antiquarian type scholarship on the past on nature and on peoples undertaken at either end of the Eurasian landmass between 1500 and 1800 As a historiographical project the book challenges the received and often very much under conceptualized use of the term antiquarian in both European and Chinese contexts Readers will not only learn more about the range of European and Chinese scholarship on the past and especially the material past but they will also be able to integrate some of the historiographical observations and corrections into new ways of conceiving of the history of historical scholarship in Europe since the Renaissance and to reflect on the impact of these European terms on Chinese approaches to the Chinese past This comparison is a two way street with the European tradition clarified by knowledge of Chinese practices and Chinese approaches better understood when placed alongside the European ones

Thriving in Crisis Dewei Zhang, 2020-05-19 Late imperial Chinese Buddhism was long dismissed as having declined from the glories of Buddhism during the Sui and Tang dynasties 581 907 In recent scholarship a more nuanced picture of late Ming era Buddhist renewal has emerged Yet this alternate conception of the history of Buddhism in China has tended to focus on either doctrinal contributions of individual masters or the roles of local elites in Jiangnan leaving unsolved broader questions regarding the dynamics and mechanism behind the evolution of Buddhism into the renewal Thriving in Crisis is a systematic study of the late Ming Buddhist renewal with a focus on the religious and political factors that enabled it to happen Dewei Zhang explores the history of the boom in enthusiasm for Buddhism in the Jiajing Wanli era 1522 1620 tracing a pattern of advances and retrenchment at different social levels in varied regions He reveals that the Buddhist renewal was a dynamic movement that engaged a wide swath of elites from emperors and empress dowagers to eunuchs and scholar officials Drawing on a range of evidence and approaches Zhang contends that the late Ming renewal was a politically driven exception to a longer term current of disfavor toward Buddhism and that it failed to establish Buddhism on a foundation solid

enough for its future development A groundbreaking interdisciplinary study Thriving in Crisis provides a new theoretical framework for understanding the patterns of Buddhist history in China      **Wanton Women in Late-Imperial Chinese Literature** ,2017-04-18 The contributors to Wanton Women in Late Imperial Chinese Literature Models Genres Subversions and Traditions draw attention to wanton woman themes across time as they were portrayed in court history McMahon fiction Stevenson drama Lam Wu and songs and ballads ki Epstein McLaren Looking back the essays challenge us with views of sexual transgression that are more heterogeneous than modern popular focus on Pan Jinlian would suggest Central among the many insights to be found is that despite gender performance in Chinese history being overwhelmingly determined by the needs of patriarchal authority men and women in the late imperial period discovered diverse ways in which to reflect on how men constantly sought their own bearings in reference to women      The History of China ,
