

# What is constitution?

A constitution is a system for government, codified as a written document, which contains fundamental laws and principles. It usually contains fundamental political principles, and establishes the structure, procedures, powers and duties, of a government.

The Constitution of the Philippines is the supreme law of the Philippines. The Constitution currently in effect was enacted in 1987, during the administration of President Corazon C. Aquino, and is popularly known as the "1987 Constitution". Philippine constitutional law experts recognise three other previous constitutions as having effectively governed the country – the 1935 Commonwealth Constitution, the 1973 Constitution, and the 1986 Freedom Constitution. Constitutions for the Philippines were also drafted and adopted during the short-lived governments of Presidents Emilio Aguinaldo (1898) and José P. Laurel (1943).
