The Constitutions Of The Ussr And China:

The Constitutions of USSR & China Vishnoo Bhagwan, Vidya Bhushan, 1985 *Development of the Constitutions in China and the Visegrad States* Lu Da, 2021-08-30 This book deals with the development of constitutional law in China and Visegrad states by employing a comparative perspective It is the first time that the researcher compared the constitutional development in the China and the Visegrad states It offers a few glimpses of development of constitution in the former socialist states to readers who are interested in the constitutional law or China V4 relations With the increased cooperation between China and V4 countries this book gives the undergraduates in the university to think about the BRI and 17 1 network from a Chinese perspective Last compared to the previous works which mainly focus on North America and or Western Europe this book provides a new angle on comparative constitutional law **Chinese Legal Culture and Constitutional Order** Shiping Hua, 2019-03-27 This book examines China s striving for a constitutional order in the 20th century from comparative historical and theoretical perspectives Through a comprehensive study of six major constitutional reforms experienced by China in the last century Shiping Hua explores pragmatism instrumentalism statism and favoritism as the key features of the Chinese legal culture Demonstrating that these characteristics have roots in China s ancient past and coincide with modern communist legal theory it argues that Chinese legal culture has greatly impacted upon the country s move to modernize its legal system By analyzing key constitutional periods in China s history this book also evaluates patterns that can be used to better comprehend not only China s present legal reform but its future legal developments too As the first book to examine how the Chinese legal culture has affected constitutional reform in the 20th century Chinese Legal Culture and Constitutional Order will be useful to students and scholars of Asian and constitutional law as well as Chinese Studies more generally Winner of the 2019 ACPSS Association of Chinese Professors of Social Sciences in the United States Best Scholarly Publication Award for Original Research Constitution-making in the Region of Former Soviet Dominance Rett R. Ludwikowski, 1996 Contains texts of constitutions of various countries which were once part of the U S S R *The Constitutional Identity of Contemporary China* Han Zhai, 2019-12-16 In *The Constitutional Identity of Contemporary China* The Unitary System and Its Internal Logic Han Zhai offers a profound understanding of China s constitutional history with her account of constitutional identity of multi layered states in other parts of the world This book successfully bridges China s constitutional complex and the emerging common theory of constitutional law with methodological innovations In constitutional comparison this work s treatment of the Kingdoms of Spain and the Netherlands provides effective structural and historical analysis This book does not only awaken China s constitutional identity in contemporary scholarship but also presents rich possibilities in the constitutional study and the way we understand a country s fundamental arrangements in its national context *Constitutional Development in the USSR* Aryeh L. Unger, 2024-04-12 *Constitutional Development in the USSR* 1981 looks at the political institutions and practices of the Soviet state through the

prism of its own constitutional texts It contains the texts of all four Soviet constitutions and a chapter of commentary precedes each text An overall assessment of Soviet constitutional development is offered in the concluding chapter

The Constitutional Protection of Private Property in China Chuanhui Wang, 2016-01-25 This timely book reviews the changes in legal reform around the constitutional protection of private property in China since 1949 Using a comparative approach it analyses the development of property theories and the various constitutionalisation models and practices of private property in representative countries including the United States Canada Germany India and China It also explores the interwoven social forces that have been driving the evolution of the constitutional protection of private property in China By comparing China with the United States Germany and India the author reveals the unfairness unjustness and insufficiency in China's application of three constitutional doctrines public use just compensation and due process or procedure The book concludes by predicting future progress and suggests feasible measures for gradual reform that will be compatible with China's existing political system

The Chinese Constitution of Central Asia N. Godehardt, 2014-03-21 China's commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China's rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define Central Asia when they talk and write about policy issues related to China's immediate Western neighbourhood In this context she gives an inside perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies

The Constitutional and Legal Development of the Chinese Presidency Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP's step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president's role and status within the CCP's collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP's major political practices such as Mao Zedong's power of last say his idea of two fronts his controversial abolition of the chairmanship Deng Xiaoping's idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents thus illuminating how law has been made in those unpredictable political environments and how politics has been defined by law The author concludes that the office of president is the key to understanding how power in

China derives first from the CCP second from the military and third from the government loosely prescribed by laws Even more important the millennia old Confucian concept of the charismatic leader is alive and well While all eyes are on the new incumbent his predecessors have loomed large and continue to exert significant influence on him Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China With so many variables at play the office of the president will certainly continue to evolve

Useful Bullshit Neil J. Diamant, 2022-01-15 In *Useful Bullshit* Neil J. Diamant pulls back the curtain on early constitutional conversations between citizens and officials in the PRC Scholars have argued that China like the former USSR promulgated constitutions to enhance its domestic and international legitimacy by opening up the constitution making process to ordinary people and by granting its citizens political and socioeconomic rights But what did ordinary officials and people say about their constitutions and rights Did constitutions contribute to state legitimacy Over the course of four decades the PRC government encouraged millions of citizens to pose questions about and suggest revisions to the draft of a new constitution Seizing this opportunity people asked both straightforward questions like what is a state but also others that through implication harshly criticized the document and the government that sponsored it They pressed officials to clarify the meaning of words phrases and ideas in the constitution proposing numerous revisions Despite many considering the document bullshit successive PRC governments have promulgated it amending the constitution debating it at length and even inaugurating a Constitution Day

Drawing upon a wealth of archival sources from the Maoist and reform eras Diamant deals with all facets of this constitutional discussion as well as its afterlives in the late 50s the Cultural Revolution and the post Mao era Useful Bullshit illuminates how the Chinese government understands and makes use of the constitution as a political document and how a vast array of citizens police workers university students women and members of different ethnic and religious groups have responded
