The Contemporary Age

Albrecht Classen, Connie Scarborough

The Contemporary Age:

Sufis and Salafis in the Contemporary Age Lloyd Ridgeon, 2015-04-23 *Sufis and Salafis in the Contemporary Age* explores the dynamics at play between what are usually understood as two very different forms of Islam namely Sufism and Salafism Sufism is commonly understood as the peaceful and mystical dimension of Islam whereas Salafism is perceived as strictly pietistic and moralist and for some it conjures up images of violent manifestations of Islam Of course these generalisations require more nuanced investigation and this book provides a number of case studies from around the Islamic world to unpack the intricate relationship between the two The diversity of the case studies that focus on Islamic groups in India Iraq Egypt Morocco Turkey and South East Europe reflect the multiplicity of relationships that exist between the Salafis and Sufis The specific case studies are framed by an introduction that provides essential historical background and definitions of the terms and also by general studies of the Sufi Salafi relationship which enable the reader to focus on the large picture This will be the first book to investigate the relationship between Sufism and Salafism in such a wide fashion and includes chapters on traditional Sufis as well as from those who consider that Sufism and Salafism are not necessarily contradictory

Radicalism In The Contemporary Age, Volume 2 Seweryn Bialer, Sophia Sluzar, 2019-06-18 To understand contemporary society it has become more and more essential to understand the phenomenon of radicalism the aspirations of radical movements the strategies and tactics of radicalism and the impact of radicalism on contemporary society Radicalism in the Contemporary Age grew out of the recognition of this need A study in three volum **Radicalism In The Contemporary Age, Volume 3** Seweryn Bialer, Sophia Sluzar, 2019-06-10 To understand contemporary society it has become more and more essential to understand the phenomenon of radicalism the aspirations of radical movements the strategies and tactics of radicalism and the impact of radicalism on contemporary society Radicalism in the Contemporary Age grew out of the recognition of this need A study in three volum **A Cultural History of Ideas in the Modern Age** Stefanos Geroulanos, 2025-05-15 PRAISE FOR A CULTURAL HISTORY OF IDEAS VOLUMES 1 6 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE 2023 AAP PROSE AWARDS WINNER BEST HUMANITIES REFERENCE WORK Ideas defined the twentieth century they and their reflections shaped practices social life knowledge and governance They played out in policies in street debates in histories of the past and future in school curricula in revolts in art in medical care They offered up reasons to fight work and spend ideals to trust in violence to inflict or oppose algorithms to program This book confronts the challenge of the narrative symbolic institutional and conceptual architecture of the twentieth century mostly in the Euro American West To this day our thought is defined by terms that the twentieth century set in motion from modernity to the age of extremes from nationalism to internationalism to decolonization from dada to poststructuralism from the expanding university to neoliberalism and the end of history This book tracks nine categories Knowledge The Human Self Ethics and Social Relations Politics and Economies Nature Religion and the Divine Language Poetry Rhetoric The Arts and History It

completes the six volume A Cultural History of Ideas by asking in what ways the twentieth century fundamentally addressed and altered each of these categories The 6 volume set A Cultural History of Ideas is part of The Cultural Histories Series Titles are available in print for individuals or for libraries needing just one subject or preferring a tangible reference for their shelves or as part of a fully searchable digital library The digital product is available to institutions by annual subscription or on perpetual access via www.bloomsburyculturalhistory.com Individual volumes for academics and researchers interested in specific historical periods are also available in print or digitally via www.bloomsburycollections.com

A Cultural History of the Modern Age Vol. 1 Egon Friedell, Historian philosopher critic playwright journalist and actor Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars His masterpiece A Cultural History of the Modern Age demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization Following a brilliant opening essay on cultural history and why it should be studied the first volume begins with an analysis of the transformation of the Medieval mind as it evolved from the Black Death to the Thirty Years War The emphasis is on the spiritual and cultural vortex of civilization but Friedell never forgets the European roots in pestilence death and superstition that animate a contrary drive toward reason refinement intellectual curiosity and scientific knowledge While these values reached their apogee during the Renaissance Friedell shows that each cultural victory is precarious and Europe was always in danger of slipping back into barbarism Friedell's historical vision embraces the whole of Western culture and its development It is a consistent probing for the divine in the world's course and is therefore theology it is research into the basic forces of the human soul and is therefore psychology it is the most illuminating presentation of the forms of state and society and therefore is politics the most varied collection of all art creations and is therefore aesthetics Thomas Mann regarded Friedell as one of the great stylists in the German language Like the works of the great novelist A Cultural History of the Modern Age offers a dramatic history of the last six centuries showing the driving forces of each age The new introduction provides a fascinating biographical sketch of Friedell and his cultural milieu and analyzes his place in intellectual history

A Cultural History of Hair in the Modern Age Geraldine Biddle-Perry, 2020-12-10 Over the last century there has been a revolution in self presentation and social attitudes towards hair Developments in mass manufacturing advances in chemical science and new understandings of bodies and minds have been embraced by new kinds of hairdressers and their clientele and embodied in styles that reflect shifting ideals of what it is to be and to look modern The emergence of the ladies hairdressing salon the rise of the celebrity stylist the impact of Hollywood an expanding mass media and a new synergy between fashions in clothing and hairstyles have rippled out globally Fashions in hair styles and their representation have taken on new meanings as a way of resisting dominant social structures experimenting with social taboos and expressing a modern sense of self From the 1920s bob to the punk cut hair has continued to be deeply involved in society's larger issues Drawing on a wealth of visual textual and object sources and

illustrated with 75 images *A Cultural History of Hair in the Modern Age* presents essays that explore how politics science religion fashion beauty the visual arts and popular culture have reshaped modern hair and its significance as an agent of social change

A Cultural History of Theatre in the Modern Age Kim Solga, 2019-08-08 To call something modern is to assert something fundamental about the social cultural economic and technical sophistication of that thing over and against what has come before *A Cultural History of Theatre in the Modern Age* provides an interdisciplinary overview of theatre and performance in their social and material contexts from the late 19th century through the early 2000s emphasizing key developments and trends that both exemplify and trouble the various meanings of the term modern and the identity of modernist theatre and performance Highly illustrated with 40 images the ten chapters each take a different theme as their focus institutional frameworks social functions sexuality and gender the environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

Multilingualism in the Middle Ages and Early Modern Age Albrecht Classen, 2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms

A Cultural History of the Modern Age Egon Friedell, 2017-09-08 Historian philosopher critic playwright journalist and actor Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars His masterpiece *A Cultural History of the Modern Age* demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization Following a brilliant opening essay on cultural history and why it should be studied the first volume begins with an analysis of the transformation of the Medieval mind as it evolved from the Black Death to the Thirty Years War The emphasis is on the spiritual and cultural vortex of civilization but Friedell never forgets the European roots in pestilence death and superstition that animate a contrary drive toward reason refinement intellectual curiosity and scientific knowledge While these values reached their apogee during the Renaissance Friedell shows that each cultural victory is precarious and Europe was always in danger of slipping back into barbarism Friedell's historical vision embraces the whole of Western culture and its development It is a

consistent probing for the divine in the world's course and is therefore theology it is research into the basic forces of the human soul and is therefore psychology it is the most illuminating presentation of the forms of state and society and therefore is politics the most varied collection of all art creations and is therefore aesthetics Thomas Mann regarded Friedell as one of the great stylists in the German language Like the works of the great novelist A Cultural History of the Modern Age offers a dramatic history of the last six centuries showing the driving forces of each age The new introduction provides a fascinating biographical sketch of Friedell and his cultural milieu and analyzes his place in intellectual history *A Cultural History of Peace in the Modern Age* Ronald Edsforth, 2022-02-24 A Cultural History of Peace presents an authoritative survey from ancient times to the present The set of six volumes covers over 2500 years of history charting the evolving nature and role of peace throughout history This volume A Cultural History of Peace in the Modern Age explores peace in the period from 1920 to the present As with all the volumes in the illustrated Cultural History of Peace set this volume presents essays on the meaning of peace peace movements maintaining peace peace in relation to gender religion and war and representations of peace A Cultural History of Peace in the Modern Age is the most authoritative and comprehensive survey available on peace in the twentieth and twenty-first century **A Cultural History of Sport in the Modern Age** Steven A. Riess, 2022-08-31 A Cultural History of Sport in the Modern Age covers the period 1920 to today Over this time world wide participation in sport has been shaped by economic developments communication and transportation innovations declining racism diplomacy political ideologies feminization democratization as well as increasing professionalization and commercialization Sport has now become both a global cultural force and one of the deepest ways in which individual nations express their myths beliefs values traditions and realities The 6 volume set of the Cultural History of Sport presents the first comprehensive history from classical antiquity to today covering all forms and aspects of sport and its ever changing social cultural political and economic context and impact The themes covered in each volume are the purpose of sport sporting time and sporting space products training and technology rules and order conflict and accommodation inclusion exclusion and segregation minds bodies and identities representation Steven A Riess is Professor Emeritus at Northeastern Illinois University USA Volume 6 in the Cultural History of Sport set General Editors Wray Vamplew Mark Dyreson and John McClelland Gregory Palamas and the Making of Palamism in the Modern Age Norman Russell, 2019-03-21 The fourteenth century Greek hesychast and controversialist Gregory Palamas has been so successfully cast as the other in Western theological discourse that it can be difficult to gain a sympathetic hearing for him In the first part of this book Norman Russell traces the historical reception of Palamite thought in Orthodoxy and in the West and investigates how Palamism was constructed in the early twentieth century by both Western and Eastern theologians principally Martin Jugie and John Meyendorff for polemical or apologetic purposes Russell argues that we need to go behind these ideological constructions in order to gain a true perception of the teaching of Gregory Palamas In his recent survey of Palamite scholarship Robert

Sinkewicz noted that it is now time to raise the larger questions The second part of the book attempts to do this following the contours of Palamas thinking in three areas his relationship to tradition his philosophy and his theology Russell shows that Palamite thought when freed of misunderstanding and misrepresentation has the potential to enrich our understanding of divine human communion This study contributes to the changing paradigm of scholarship on Palamas nudging it towards the point at which Palamite thought can be used fruitfully by contemporary Western and Eastern theologians without the need to subscribe to what has been regarded as Palamism Pleasure and Leisure in the Middle Ages and Early Modern Age

Albrecht Classen,2019-08-05 Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre modern civilization Recent research has begun to acknowledge the fundamental importance of these aspects in cultural religious philosophical and literary terms This volume expands on the traditional approach still very much focused on the materiality of game toys cards dice falcons dolls etc and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune Whether considering blessings or horse fighting falconry or card games playing with dice or dolls we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time The contributions examine a wide gamut of approaches to pleasure considering health issues eroticism tournaments playing music reading and listening drinking alcohol gambling and throwing dice This large issue was also relevant of course in non Christian societies and constitutes a critical concern both for the past and the present because we are all homines ludentes **A Cultural History of Comedy in the Modern Age** Louise Peacock,2021-12-30

Drawing together contributions by scholars from a variety of fields including theater film and television sociology and visual culture this volume explores the range and diversity of comedic performance and comic forms in the modern age It covers a range of forms and examples from 1920 to the present day including plays film television comedy live comedy and comedy on social media It argues that the period covered was marked by an explosion of comic forms and a flowering of comic creativity across a range of media From the communal watching of silent films at the start of the period to the use of Twitter and other online platforms to share and comment on comedy technology has brought about significant changes in its form consumption and social effects As comic forms have shifted and developed so too have attitudes to what comedy can and cannot do This study considers its role in entertainment and in provoking consideration of a range of social and political topics Each chapter takes a different theme as its focus form theory praxis identities the body politics and power laughter and ethics These eight different approaches to comedy add up to an extensive synoptic coverage of the subject **A Cultural History of the**

Senses in the Modern Age David Howes,2014-10-23 In the 20th century many aspects of life became a matter of perception in the wake of the multiplication of media stylistic experimentation and the rise of multiculturalism Life sped up as a result of new modes of transportation automobiles and airplanes and communication telephones and personal computers

which emphasized the rapid movement of people and ideas The proliferation of synthetic products and simulated experiences from artificial flavors to video games in turn created heady virtual worlds of sensation This progressive mediation and acceleration of sensation along with the sensory and environmental pollution it often spawned also sparked various countertrends such as the back to nature movement the craft movement slow food and alternative medicine This volume shows how attending to the sensory dynamics of the modern age yields many fresh insights into the intertwined processes which gave the 20th century its particular feel of technological prowess and gaudy artificiality A Cultural History of the Senses in the Modern Age presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media *Tradition Witnessing the Modern Age* Enes Ergene, 2008-11 Addressing the sociological cultural and religious aspects of the Glen movement this insider's look also explores the failure experienced by many other Islamic movements that attempted to combine traditional values with the modern world The influence Fethullah Glen has had on secularist Turkey is also examined Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen, 2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms Rural Space in the Middle Ages and Early Modern Age Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches

indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

Crime and Punishment in the Middle Ages and Early Modern Age Albrecht Classen, Connie Scarborough, 2012-10-30 All societies are constructed based on specific rules norms and laws Hence all ethics and morality are predicated on perceived right or wrong behavior and much of human culture proves to be the result of a larger discourse on vices and virtues transgression and ideals right and wrong The topics covered in this volume addressing fundamental concerns of the premodern world deal with allegedly criminal or simply wrong behavior which demanded punishment Sometimes this affected whole groups of people such as the innocently persecuted Jews sometimes individuals such as violent and evil princes The issue at stake here embraces all of society since it can only survive if a general framework is observed that is based in some way on justice and peace But literature and the visual arts provide many examples of open and public protests against wrongdoings ill conceived ideas and concepts and stark crimes such as theft rape and murder In fact poetic statements or paintings could carry significant potentials against those who deliberately transgressed moral and ethical norms or who even targeted themselves

Globalism in the Middle Ages and the Early Modern Age Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable

Whispering the Techniques of Language: An Emotional Journey through **The Contemporary Age**

In a digitally-driven earth wherever displays reign great and immediate interaction drowns out the subtleties of language, the profound secrets and psychological nuances concealed within phrases frequently move unheard. Yet, situated within the pages of **The Contemporary Age** a charming fictional treasure pulsating with fresh thoughts, lies a fantastic quest waiting to be undertaken. Penned by a talented wordsmith, that marvelous opus encourages viewers on an introspective trip, lightly unraveling the veiled truths and profound affect resonating within the material of each word. Within the emotional depths of this touching evaluation, we will embark upon a honest exploration of the book is key themes, dissect its charming publishing type, and yield to the powerful resonance it evokes deep within the recesses of readers hearts.
