T. Dickinson, 1989 **Freedom to be** National Library of Jamaica, 1984 **The ^AMighty Experiment** Seymour Drescher, 2004-10-14 By the mid eighteenth century the transatlantic slave trade was considered to be a necessary and stabilizing factor in the capitalist economies of Europe and the expanding Americas Britain was the most influential power in this system which seemed to have the potential for unbounded growth In 1833 the British empire became the first to liberate its slaves and then to become a driving force toward global emancipation There has been endless debate over the reasons behind this decision This has been portrayed on the one hand as a rational disinvestment in a foundering overseas system and on the other as the most expensive per capita expenditure for colonial reform in modern history In this work Seymour Drescher argues that the plan to end British slavery rather than being a timely escape from a failing system was on the contrary the crucial element in the greatest humanitarian achievement of all time The Mighty Experiment explores how politicians colonial bureaucrats pamphleteers and scholars taking anti slavery positions validated their claims through rational scientific arguments going beyond moral and polemical rhetoric and how the infiltration of the social sciences into this political debate was designed to minimize agitation on both sides and provide common ground Those at the inception of the social sciences such as Adam Smith and Thomas Malthus helped to develop these tools to create an argument that touched on issues of demography racism and political economy By the time British emancipation became legislation it was being treated as a massive social experiment whose designs many thought had the potential to change the world This study outlines the relationship of economic growth to moral issues in regard to slavery and will appeal to scholars of British history nineteenth century imperial history the history of slavery and those interested in the history of human rights The Mighty Experiment was the winner of First Prize Frederick Douglass Book Prize Gilder Lehrman Center for the Study of Slavery Resistance and Abolition **Bibliographic Guide to Black Studies** Schomburg Center for Research in Black Culture, 1984 **At Home with the Empire** Catherine Hall, Sonya O. Rose, 2006-12-21 This pioneering 2006 volume addresses the question of how Britain's empire was lived through everyday practices in church and chapel by readers at home as embodied in sexualities or forms of citizenship as narrated in histories from the eighteenth century to the present Leading historians explore the imperial experience and legacy for those located

physically or imaginatively at home from the impact of empire on constructions of womanhood masculinity and class to its influence in shaping literature sexuality visual culture consumption and history writing They assess how people thought imperially not in the sense of political affiliations for or against empire but simply assuming it was there part of the given world that had made them who they were They also show how empire became a contentious focus of attention at certain moments and in particular ways This will be essential reading for scholars and students of modern Britain and its empire
