N. Kaul,2003 This Volume Will Interest All Students Of English And American Studies Colonialism And Nationalism Culture And Gender Issues The Complex Relation Between Literture And Society And The Even More Complex Relationship Between Western Texts And Indian Leaders *The American Vision* ,2008 *Warfare and Culture in World History* Wayne E. Lee,2011-10 It has long been acknowledged that the study of war and warfare demands careful consideration of technology institutions social organization and more But for some the so called war and society approach increasingly included everything but explained nothing because it all too often seemed to ignore the events on the battlefield itself The military historians in Warfare and Culture in World History return us to the battlefield but they do so through a deep examination of the role of culture in shaping military institutions and military choices Collected here are some of the most provocative recent efforts to analyze warfare through a cultural lens drawing on and aggressively expanding traditional scholarship on war and society through sophisticated cultural analysis With chapters ranging from an organizational analysis of American Civil War field armies to the soldiers culture of late Republican Rome and debates within Ming Chinese officialdom over extermination versus pacification this one volume provides a full range of case studies of how culture whether societal strategic organizational or military could shape not only military institutions but also actual battlefield choices **Comparative Perspectives on School Textbooks** Dobrochna Hildebrandt-Wypych,Alexander W. Wiseman,2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks
