Jazz Historiography Daniel Hardie, 2013-12-11 Jazz has been around for over a hundred years but how much do we know about its history and how much of what think we know is true Beginning in the so called Jazz Age of the 1920s jazz history was recounted and interpreted by admiring authors and record collectors both in the United States and elsewhere However since the early 1990s some historians have come to doubt the validity of the conventional narrative of the story of jazz and some of its most hallowed traditions In *Jazz Historiography The Story of Jazz History Writing* Daniel Hardie uncovers the course of jazz history writing from early Jazz Age American and French publications to Academic texts in the 2000s and seeks answers to questions about the accuracy of those accounts and the influence they have had on our understanding of jazz history even the impact they might have had on the course of jazz history itself How much for example did the work of jazz historians influence the course of the New Orleans Revival Was the appearance of bebop in the 1940s a revolutionary response to oppression experienced by Afro American musicians in a commercialized popular music industry or was it an attempt to mirror the development of classical music of the time How has the development of University jazz studies influenced the writing of jazz history

Traditional Music in Coastal Louisiana Joshua Clegg Caffery, 2013-11-05 Alan Lomax s prolific sixty four year career as a folklorist and musicologist began with a trip across the South and into the heart of Louisiana s Cajun country during the height of the Great Depression In 1934 his father John then curator of the Library of Congress s Archive of American Folk Song took an eighteen year old Alan and a 300 pound aluminum disk recorder into the rice fields of Jennings along the waterways of New Iberia and behind the gates of Angola State Penitentiary to collect vestiges of African American and Acadian musical tradition These recordings now serve as the foundational document of indigenous Louisiana music Although widely recognized by scholars as a key artifact in the understanding of American vernacular music most of the recordings by John and Alan Lomax during their expedition across the central southern fringe of Louisiana were never transcribed or translated much less studied in depth This volume presents for the first time a comprehensive examination of

the 1934 corpus and unveils a multifaceted story of traditional song in one of the country's most culturally dynamic regions. Through his textual and comparative study of the songs contained in the Lomax collection, Joshua Clegg Caffery provides a musical history of Louisiana that extends beyond Cajun music and zydeco to the rural blues, Irish and English folk songs, party songs, slave spirituals, and traditional French folk songs that thrived at the time of these recordings. Intimate in its presentation of Louisiana folklife and broad in its historical scope, *Traditional Music in Coastal Louisiana* honors the legacy of John and Alan Lomax by retrieving these musical relics from obscurity and ensuring their understanding and appreciation for generations to come. Includes complete transcriptions of the 1934 Lomax field recordings in southwestern Louisiana, side-by-side translations from French to English, photographs from the 1934 field trip, and biographical details about the performers.

History and Genealogy of the Dreisbach Family. Supplement to Volume I Laura M. Helman, 1924 The Meng (1630) and Shamhart (1147) Family History and Genealogy in Deutschland and America. James L. Meng, 2012-06-18 James L. Meng is a retired labor relations arbitrator who was born in the mid-American steel town of Granite City, Illinois. His parents were born in Freeburg and Newton, Illinois, and were active civic leaders in their community. In his formative years, James met several occasions that comprised a very interesting youth. After graduating from college, he joined the Missouri Air National Guard, where he was awarded the Airman's Medal for Valor. Afterwards, he continued his education for a Master's degree. He married his lovely wife Beverly and had two children and four grandchildren. While cleaning out his basement, he discovered several inherited boxes containing family pictures and documents. Although not a genealogist, which he says with a great deal of pride, he fortunately decided to share his information with others, both the born and unborn. This book is written to reflect the lives and personalities of real people, not just the genealogical statistics of born on date, married on date, had child one, two, three, and died on this date. These were real people who realized and conquered a variety of life challenges in Germany and in their newly adopted home in America. As a nation of immigrants, we should not let their contributions be forgotten.
