 intellectual and historical and geopolitical thinker who called for the overthrow of the Israeli non democratic state order in  
 favor of an imperial Hebrew national vision based on the domination of the whole Levant Drawing on Horon s private archive  
 Roman Vater studies the intellectual sources of the mid twentieth century Hebrew national ideology known as Canaanism  
 contending this vision can only be properly understood in light of Horon s articulation of its historical foundation myth The  
 intellectual and political rivalry between Jewish ethnic nationalism and Hebrew civic nationalism represented by the  
 Canaanite challenge to Zionism continues to inform current debates about Israel s identity and its relation to world Jewry on  
 the one hand and the Arab world on the other and largely determines Israel s global political alliances to this day The  
 Hebrew Falcon is indispensable reading for scholars and students of nationalism Israel Zionism and the intellectual and  
 political history of the modern Middle East The Menorah Movement for the Study and Advancement of Jewish Culture  
 and Ideals Intercollegiate Menorah Association, 1914 **The Dawn of Political Nihilism** Professor David  
 Ohana, 2008-12-04 In the turbulent period between 1870 and 1930 the contours on modernity were taking shape especially  
 the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist  
 totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the  
 other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts  
 that dominated the history of the first half of the twentieth century Starting with Nietzsche s philosophy this book traces the

development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst J nger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

Nihilist Order Professor David Ohana,2016-04-19 The explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements The Nihilist Order originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history

*Truth Versus Man'S Religious Systems* Terry W. McHenry,2018-01-27 The book in overview is historical and instructional in content with the focus being on the Biblical text in terms of its original form and language and in consideration of its full and proper context linguistically textually historically culturally and literarily It stresses the importance of moving from a knowledge of the Bible to an understanding of its life giving instructions being studied in its entirety as a gift to mankind from a loving creator Elohim The thrust of the book is accordingly threefold An indictment of two of mans religious systems Judaism and Christianity for syncretism corruption of Elohim's written Word of truth and abuses of religious authority plus promulgation of religious traditions not aligned with the whole truth of Elohim's Word A call to return to the one source of truththe written Word of Elohim understood in its originally written form and in its full and proper context Providing the equipping and study tools necessary to move from a mere knowledge of the Word to an understanding of its life giving instructions how to live a redeemed life as Elohim intended for all mankind

*The Oxford History of Modern German Theology, Volume 1: 1781-1848* Grant Kaplan, Kevin M. Vander Schel,2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western

thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come

**Arthur Ruppin and the Production of Pre-Israeli Culture** Etan Bloom, 2011-03-18 Arthur Ruppin's immense contribution to the Zionist movement gave him the title The Father of Jewish Zionist settlement in Palestine Nevertheless the common narrative sets Ruppin's historical persona in an ambivalent position and suppresses his formative role and heritage Part of the reason for this is that in many ways his history causes a crack to appear in the Zionist national cover stories This study utilizes innovative archival research and contains provocative theses which make us view the foundation of Israeli culture differently It addresses the cultural interaction between the German Sonderweg with all its proto Nazi and völkische ideas and Palestinian Zionism The study therefore exposes the sources and presence of internal Jewish racism while also analysing the anti Semitic aspect of Pre Israeli culture A particularly important section details Ruppin's crucial influence on the Labor Movement and the colonization of the Land of Israel Palestine
