The Oxford Handbook of Ecclesiology Paul Avis, 2018-06-21 The Oxford Handbook of Ecclesiology is a unique scholarly resource for the study of the Christian Church as we find it in the Bible in history and today As the scholarly study of how we understand the Christian Church's identity and mission ecclesiology is at the centre of today s theological research reflection and debate Ecclesiology is the theological driver of the ecumenical movement The main focus of the intense ecumenical engagement and dialogue of the past half century has been ecclesiological and this is the area where the most intractable differences remain to be tackled Ecclesiology investigates the

Church's manifold self understanding in relation to a number of areas the origins structures authority doctrine ministry sacraments unity diversity and mission of the Church including its relation to the state and to society and culture The sources of ecclesiological reflection are the Bible interpreted in the light of scholarly research Church history and the wealth of the Christian theological tradition together with the information and insights that emerge from other relevant academic disciplines This Handbook considers the biblical resources historical development and contemporary initiatives in ecclesiology It offers invaluable and comprehensive guide to understanding the Church **Ecclesial Futures: Volume 1 Issue 1** Nigel Rooms, Steve Taylor, 2020-06-30 Ecclesial Futures publishes original research and theological reflection on the development and transformation of local Christian communities and the systems that support them as they join in the mission of God in the world We understand local Christian communities broadly to include traditional parish churches and independent local churches religious communities and congregations new church plants so called fresh expressions of church emergent churches and new monastic communities We are an international and ecumenical journal with an interdisciplinary understanding of our approach to theological research and reflection the core disciplines being theology missiology and ecclesiology Other social science and theological disciplines may be helpful in supporting the holistic nature of any research e g anthropology and ethnography sociology statistical research biblical studies leadership studies and adult learning The journal fills an important reflective space between the academy and on the ground practice within the field of mission studies ecclesiology and the so called missional church This opportunity for engagement has emerged in the last twenty or so years from a turn to the local and the local church and in the western world at least from the demise of Christendom and a rapidly changing world which also affects the church globally The audience for the journal is truly global wherever the local church and the systems that support them exists We expect to generate interest from readers in church judicatory bodies theological seminaries university theology departments and in local churches from all God's people and the leaders amongst them

Beating the Bounds Sidney L. Green,2013-03-08 Using the form of the classical symphony as an analytical and critical tool Sidney Green examines the concepts of orthodoxy and heresy and their historical development in the Christian church and applies those to the confessional approach of the Global Anglican Future Conference GAFCON Using examples from history of the early church the Reformation and the contemporary emerging church Green examines how the concept of boundaries and the exercise of ecclesiastical authority have been applied Contemporary attempts to respond to the postmodern paradigm producing a neo dynamic view of orthodoxy including radical ideas in the area of sexuality are examined Recognizing a dynamism in Anglican orthodoxy that is still very much alive alongside present attempts of conservative minorities to impose their view on the Communion sometimes by very devious means the distinctives of Anglican ecclesiology are discussed in the belief that ecclesiology is the outward expression of what theologically undergirds Anglican orthodoxy Current attempts to bring harmony and stability in place of fracture and dissonance culminating in the

suggestion of an Anglican Covenant are examined Possible alternate ways forward are suggested centered on the primacy of The Lambeth Conference Paul Avis, Benjamin M. Guyer, 2017-12-28 Originating in 1867 under the presidency of love the Archbishop of Canterbury the Lambeth Conference has proactively shaped the modern world by influencing areas as diverse as the ecumenical movement post war international relations and the spiritual lives of hundreds of millions A team of distinguished scholars from around the world now detail the historical legacy theological meaning and pastoral purpose of the Anglican Communion's decennial councils The next Lambeth Conference will be crucial for the Anglican Communion which is currently afflicted by destructive tensions over matters long central to Christian identity such as the nature of holy orders the definition of sexual morality and the scope of ecclesial authority Whether in supplication or celebration both nurtured by diverse cultural contexts and furthered by the scope of ecumenical horizons these essays break new ground The Lambeth Conference is a faithful testament to generations past and a spur to the ongoing restoration of Anglican theology and devotion in the present That Was The Church That Was Andrew Brown, Linda Woodhead, 2016-07-28 The unexpectedly entertaining story of how the Church of England lost its place at the centre of English public life now updated with new material by the authors including comments on the book s controversial first publication The Church of England still seemed an essential part of Englishness and even of the British state when Mrs Thatcher was elected in 1979 The decades which followed saw a seismic shift in the foundations of the C of E leading to the loss of more than half its members and much of its influence In England today religion has become a toxic brand and Anglicanism something done by other people How did this happen Is there any way back This relentlessly honest and surprisingly entertaining book tells the dramatic and contentious story of the disappearance of the Church of England from the centre of public life The authors religious correspondent Andrew Brown and academic Linda Woodhead watched this closely one from the inside and one from the outside That Was the Church That Was shows what happened and explains why Leadership and Authority Titre Ande, 2011-06-01 This book proposes that Christian theology in Africa can have a significant impact if a critical understanding of the socio political situation in contemporary Africa is taken seriously The Christian leadership in post colonial Africa has cloned its understanding and use of authority on the Bula Matari model which issued from the brutality of colonialism and political absolutism in post colonial Africa This model has caused many problems in churches including dysfunction conflicts division and lack of prophetic ministry The book proposes that Life Community ecclesiology can liberate authority where leadership is a function not a status and apostolic succession belongs to all the people of God This is a superb book on leadership which has implications for all in church leadership beyond the Congo Ande analyzes how church leadership has often mimicked secular models in an unhelpful way He critiques the use of power and privilege and offers an alternative model of life community ecclesiology This is an informative instructive and compelling read Cathy Ross J V Taylor Fellow in Missiology Oxford University Manager Crowther Centre for Mission Education CMS Dr Ande s book is a very

important addition to the history of Christianity in the eastern Congo Democratic Republic His careful study of the growth of the Anglican church in Boga and Aru clearly and vividly explores the different dynamics of church growth in these two areas He is sensitive to the differing ways in which Ugandan Anglicanism has provided models for the development of the church in Congo by a study both of the original evangelism from Buganda associated with Apolo Kivebulaya in Boga and the more recent impact of Revivalist Christianity mediated through the West Nile during times of political confusion in both countries The historical material is used with great insight to develop a constructive theology of power and authority in the church and to critique existing structures of clerical and episcopal power Kevin Ward Senior Lecturer Department of Theology and Religious Studies University of Leeds Rt Rev Dr Titre Ande Georges Congolese is currently the Anglican Bishop of the Diocese of Aru Democratic Republic of Congo He is a former principal of the Anglican Theological College ISThA at Bunia and still lectures at the college He has a PhD from the University of Birmingham **William Temple and Church Unity** Edward Loane, 2016-09-29 This book evaluates William Temple's theology and his pursuit of church unity It exposes a number of paradoxes and conflicts that have generally gone under appreciated in assessments of Temple William Temple was one of the most outstanding leaders of the early ecumenical movement In many ways his ecumenical efforts provided a paradigm others have looked to and followed Through detailed analysis of primary sources this study sheds light on several behind the scenes conflicts Temple experienced as he worked toward church unity Edward Loane explores the foundation of Temple s work by analyzing the philosophy and theology that underpinned and fueled it The book also exposes the tensions between Temple's denominational allegiance and his ecumenical convictions a tension that in some ways undermined his work for reunion This book reveals issues that contemporary Christians need to grapple with as they seek to further church Ecumenical and Interreligious Identities in Nigeria Ikenna Paschal Okpaleke, 2021-11-09 Dialogue can bring about unity transformation That conviction grounds Ikenna Paschal Okpaleke s argument concerning dialogue between groups and ecumenical and interreligious dialogue in particular In Ecumenical and Interreligious Identities in Nigeria Transformation through Dialogue he examines the fundamental question What are the additional assets and transformed views which Christian denominations committed to ecumenical dialogue can bring to the table of interreligious dialogue If Christian dialogue partners particularly in Nigeria in this case Anglicans and Roman Catholics can change how they perceive one another moving from antagonism to friendship division to unity then they as ecumenically transformed Christians can better engage in fruitful and transforming dialogue with the religious other particularly Muslims This book addresses a the constituents of communal identity and the impact of dialogue on such identity b how the Anglican Roman Catholic dialogue has or has not transformed the communal identities of the dialogue partners particularly in the local context of Nigeria c the ways in which the perceived advantages of a transformative model of dialogue shaped by ecumenical encounter and dialogue can be applied to interreligious encounter and dialogue and d how theological reflection interacts with praxis in promoting

transformation through dialogue The Routledge Companion to Modern Christian Thought Chad Meister, James Beilby, 2013-10-28 This Companion provides an unrivalled view of the field of modern Christian thought from the Enlightenment to the twentieth century and beyond Written by an outstanding team of theologians and philosophers of religion it covers the following topics within Christian thought Key figures and influencers Central events and movements Major theological issues and key approaches to Christian Theology Recent topics and trends in Christian thought Each entry is clear and accessible making the book the ideal resource for students of Christian thought and history and philosophy of religion and a valuable reference for professional theologians and philosophers A Ministry Shaped by Mission Paul D. L. Avis, 2005-05-06 The book falls into three symmetrical parts each of which is subdivided the subdivisions are listed in the analytical Contents making a Subject Index redundant The first part The Mission of God that Shapes our Ministry draws on the missiological insights of Karl Barth and the Second Vatican Council concerning the missio Dei and directly relates this theme to the tasks entrusted to the Church in The Great Commission of Matthew 28 the ministry of the Word the celebration of the sacraments and the exercise of pastoral responsibility It shows how Christians share in the ministry of Christ himself The second part A Ministry Shaped by the Mission of God carries the argument forward by clarifying the much abused term ministry and offering a more rigorous and somewhat controversial definition of ministry as work for the Church that is mandated by the Church and explicitly related to its core tasks Ministers therefore represent both Christ and his Church The third part Ordained to a Ministry Shaped by Mission applies the insights of the earlier parts to ordained and lay ministry and offers a cogent answer to the question What difference does ordination make The book concludes with an agenda for the reform and development of ministry in the light of the arguments advanced Becoming a Bishop Paul Avis, 2015-08-27 Why Bishops What s so special about Bishops What are Bishops called to and how best can they do it This book is the single resource of answers to all the questions one could conceivably have about what a Bishop is and their function and purpose in the Church Paul Avis offers a fascinating account of the ministerial identity of the bishop and in particular the tasks and roles of episcopal ministry Placing the Bishop within his wider ecclesiological framework Avis illuminates the role of the individual in episcopal ministry The book sets the vital work of a Bishop within an ecclesiological framework the Bishop in the Anglican Communion within the Church of Christ within the purposes of God **The Vocation of Anglicanism** Paul Avis, 2016-08-11 Paul Avis charts a pathway of theological integrity through the serious challenges facing the Anglican Communion in the first quarter of the 21st century He asks whether there is a special calling for Anglicanism as an expression of the Christian Church and expounds the Anglican theological tradition to shed light on current controversies He argues in conclusion that Anglicanism is called like all the churches to reflect the nature of the Church that we confess in the Creed to be one holy catholic and apostolic The book provides a clear view of the way that the Anglican tradition holds together aspects of the church that in other traditions are sometimes allowed to drift apart as the Anglican understanding of the Church reveals

itself to be catholic and reformed episcopal and synodical universal and local biblical and reasonable traditional and open to fresh insight Avis combines accessible scholarly analysis with constructive arguments that will bring fresh hope and vision to Anglicans around the world A Strategy That Changes the Denomination John Richardson, 2011-09-02 Drawing on the 1945 report Towards the Conversion of England and the work of the Bishop of Taita Taveta in Kenya Dr Samson Mwaluda John Richardson argues in this book that nothing less than a radical revision of the Church of England's agenda is sufficient for the task of evangelizing a nation Anglican evangelicals are called upon to set aside their divisions and their focus on their own position within the Church and instead to develop a strategy that changes the whole denomination into an instrument for evangelism Aimed at laypeople as well as clergy his book is a plea for the transformation of the Church for the proclamation of the gospel John Richardson is the Associate Minister in the United Benefice of Henham and Elsenham with Ugley He trained at St John's College Nottingham and has a first class Diploma in Theology from Moore Theological College Sydney He blogs as The Ugley Vicar Anglicans and Pentecostals in Dialogue David Hilborn, Simo Frestadius, 2023-09-22 This is the first comprehensive book on Anglican and Pentecostal ecumenical relations It introduces both movements with a particular focus on their approaches to ecumenism before exploring sacraments ministry ecclesiology pneumatology and mission with respect to both traditions As well as providing more theological and historical discussion the book also offers personal accounts of local national and international ecumenical engagement by both Anglicans and Pentecostals It is written predominantly although not exclusively from a British perspective Even so as the first major published dialogue between these two global Christian traditions the book will be of value to all interested in Anglicanism Pentecostalism and ecumenism

The Encyclopedia of World Religions Robert S. Ellwood,2008 Contains nearly 600 brief entries on the world s religious traditions What Anglicans Believe Sam Wells,2013-01-26 At a time when disagreement is rife this guide introduces the historic beliefs that unites all Anglicans Suitable for new and seasoned believers alike it offers a timely reminder Anglicanism s historic breadth and generosity New Churches Will Foulger,2024-11-30 New Churches A Theology considers the theological issues and questions that surface from the starting of new churches in the UK context Offering both a theology for starting new churches to support guide encourage and challenge practitioners to plant fully Christian churches and a theology from new churches using new churches as an opportunity to explore vital theological ecclesiological and missiological questions we might otherwise miss the book brings together some of those most significant voices in the conversation today speaking from a wide spread of perspectives including theologians and practitioners pioneers and planters evangelical and Anglo Catholic
