Friedman's vast body of writings into an authoritative account of his research, his policy views and his interventions in public debate. With this ambitious new work, Edward Nelson closes the gap. **Milton Friedman and Economic Debate in the United States** is the defining narrative on the famed economist, the first to grapple comprehensively with Friedman's research, output, economic framework and legacy. This two-volume account provides a foundational introduction to Friedman's role in several major economic debates that took place in the United States between 1932 and 1972. This second volume covers the years between 1960 and 1972, years that saw the publication of Friedman and Anna Schwartz's *Monetary History of the United States*. The book also covers Friedman's involvement in a number of debates in the 1960s and 1970s on topics such as unemployment, inflation, consumer protection and the environment. As a fellow monetary economist, Nelson writes from a unique vantage point, drawing on both his own expertise in monetary analysis and his deep familiarity with Friedman's writings. Using extensive documentation, the book weaves together Friedman's research contributions and his engagement in public debate, providing an unparalleled analysis of Friedman's views on the economic developments of his day. No previous biographer has. Nelson's deep and sophisticated understanding of monetary economics. **Economic History** Identity's Architect Lawrence Jacob Friedman, 2000. Drawing on private materials and extensive interviews, historian Lawrence J. Friedman illuminates the relationship between Erik Erikson's personal life and his notion of the life cycle and the identity crisis. From publisher's description. **The Afro-American Woman** Sharon Harley, Rosalyn Terborg-Penn, 1997. Civil rights activists, educators, writers, artists and workers: these are the women of *The Afro American Woman*. *Struggles and Images*, an excellent anthology of essays that provides a more accurate image of the Black woman and her place in history and in the cultural development of our society. Originally published in 1978, *The Afro American Woman* includes essays that highlight historical experiences common to Black women. The anthology also features essays that focus on early activists Anna J. Cooper, Nannie Burroughs and Charlotta A. Bass. This book is a long out of print, valuable reference source. It was the first written by Black academics which analyzed these women's experiences from a historical and Black nationalist perspective. **The Modern School Movement** Paul Avrich, 2014-07-14. In this comprehensive study of the Modern School movement, Paul Avrich narrates its history, analyzes its successes and failures, and assesses its place in American life. In doing so, he shows how the radical experimentation in art and communal living, as well as in education during this period, set the precedent for much of the artistic, social and educational ferment of the 1960s and 1970s. Originally published in 1980, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
