**Tracking Hermes, Pursuing Mercury** John F. Miller, Jenny Strauss Clay, 2019-01-31 Of all the divinities of classical antiquity the Greek Hermes Mercury in his Roman alter ego is the most versatile enigmatic complex and ambiguous The runt of the Olympian litter he is the god of lies and tricks yet is also kindly towards mankind and a bringer of luck His functions embrace both the marking of boundaries and their transgression but also extend to commerce lucre and theft as well as rhetoric and practical jokes In another guise he plays the role of mediator between all realms of human and divine activity embracing heaven earth and the netherworld Pursuing this elusive divinity requires a truly multidisciplinary approach reflecting his prismatic nature and the twenty contributions to this volume draw on a wide range of fields to achieve this from Greek and Roman literature epic lyric and drama epigraphy cult and religion to vase painting and sculpture In offering an overview of the myriad aspects of Hermes Mercury including his origins patronage of the gymnasium and relation to other trickster figures the volume attempts to track the god's footprints across the many domains in which he partakes Moreover in keeping with his deep connection to exchange commerce and dialogue it aims to exemplify and further encourage discourse between Latinists and Hellenists as well as between scholars of literary and material cultures

**Kantian Aesthetics Pursued** Anthony Savile, 2019-08-07 Concerned with topics at the heart of Kant's aesthetics this provoking reading of The Critique of Judgement focuses on often misunderstood or neglected themes Starting from the issues of the truth and justifiability of our critical assertions Anthony Savile develops Kantian theory broadly across the arts and shows it working with subtlety and rigour in cases as diverse as music and architecture New light is thrown on the exemplary necessity of our aesthetic pleasures on the Antimony of Taste on the distinction between free and dependent beauty on the supposed idealism of taste and on the a priori limits of fine art Eminently subjective material is here given a place in Kant's overall idealism in a

sophisticated discussion that will invite the close attention of Kant scholars and aestheticians alike      □□□□ ,1905

Kastley,2022-12-08 A revolutionary approach to rhetoric that asks why audiences need persuading What is persuasion For some it is the ideal alternative to violence For others persuasion is simply a neutral instrumentality a valued source of soft power Both positions rest on a fundamental belief persuasion is a power that resides in a speaker acting on an audience Loving the World Appropriately asks a different more fundamental question why does an audience need persuasion In shifting our focus James Kastely delivers a provocative new history of rhetoric and philosophy one that describes rhetoric as more than a matter of effective communication and recasts persuasion as a philosophical concern central to notions of human subjectivity Ultimately Kastely insists persuasion enables us to love the world appropriately      **Aphrodite's Tortoise** Lloyd Llewellyn-Jones,2003-12-31 Greek women routinely wore the veil That is the unexpected finding of this meticulous study one with interesting implications for the origins of Western civilisation The Greeks popularly and rightly credited with the invention of civic openness are revealed as also part of a more Eastern tradition of seclusion Llewellyn Jones work proceeds from literary and notably from iconographic evidence In sculpture and vase painting it demonstrates the presence of the veil often covering the head but also more unobtrusively folded back onto the shoulders This discreet fashion not only gave a privileged view of the face to the ancient art consumer but also incidentally allowed the veil to escape the notice of traditional modern scholarship From Greek literary sources the author shows that full veiling of the head and face was commonplace He analyses the elaborate Greek vocabulary for veiling and explores what the veil meant to achieve He shows that the veil was a conscious extension of the house and was often referred to as tegidion literally a little roof Veiling was thus an ingenuous compromise it allowed women to

circulate in public while maintaining the ideal of a house bound existence Alert to the different types of veil used the author uses Greek and more modern evidence mostly from the Arab world to show how women could exploit and subvert the veil as a means of eloquent sometimes emotional communication First published in 2003 and reissued as a paperback in 2010

Barringer,2003-04-01 Hunting and its imagery continued to play a significant role in archaic and classical Greece long after hunting had ceased being a necessity for survival in everyday life Drawing on vase paintings sculpture inscriptions and other literary evidence Judith Barringer reexamines the theme of the hunt and shows how the tradition it depicts helped maintain the dominance of the ruling social groups Along with athletics and battle hunting was a defining activity of the masculine aristocracy and was crucial to the efforts of the Athenian elite to control the social agenda even as their political power declined The Hunt in Ancient Greece examines descriptions of hunting in initiation rituals as well as the ideals of masculinity and adulthood such rites of passage promoted Barringer argues that depictions of the hunt in literature and art also served as striking metaphors for the intricacies of courtship shedding light on sexuality and gender roles Through an exploration of various representations of the hunt Barringer provides extraordinary insight into Athenian society **Poetry as Performance** Gregory Nagy,1996-01-26 To understand the emergence of Homeric poetry as an actual written text it is essential to trace the history of Homeric performance from the very beginnings of literacy to the critical era of textual canonisations in the Hellenistic and Roman periods Professor Nagy applies the comparative evidence of oral poetic traditions including those that survived in literate societies such as the Proven al

troubadour tradition It appears that a song cannot be fixed as a final written text so long as the oral poetic tradition in which it was created stays alive So also with Homeric poetry it is argued that no single definitive text could evolve until the oral traditions in which the epic was grounded became obsolete In the time of Aristarchus the gradual movement from relatively fluid to more rigid stages of Homeric transmission reached a near final point of textualisation *The Athenian Adonia in Context* Laurialan Reitzammer,2016-05-11 A fresh examination of a marginalized women s festival that influenced Athenian art drama philosophy and public institutions
