[Geography of Time, Place, Movement and Networks, Volume 2](#) Stanley D. Brunn, 2024-05-23 This book explores journeys in a time context with a focus on places place meanings and landscapes

Whether the journey relates to ancient or modern trails roads or railroads or a historical or contemporary pilgrimage or a tourist venture in social contexts the book addresses the importance of places and environmental settings whereby time itself is described and defined in multiple contexts The chapters discuss among others archaeological and pre history settings tourism settings and heritage events as well as regional and transnational migration routes and those used by historical nomadic cultures and postmodern nomads Some time and place journeys are fluid and dynamic and re interpreted while for others there is much sameness in the visible landscapes Retaining the past and reconstructing the past are both journeys That sameness concept is also applied to cultural and political worlds where there is little progress or reform to address social welfare and empowerment This book opens the door for exploring shallow and deep journeys by those in the humanities and social sciences at local national and regional scales

A Translation and Interpretation of Horace's Sermones, Book I Andy Law, 2021-03-15 Horace s book of Sermones also called Satires was his first published work Rather than a collection of satirical sideswipes as the genre might have dictated the book is a wiry tight muscular interlaced hexameter artwork of enormous originality and as far removed from the legacy of satirical writing he inherited as one can imagine It is the work of a 29 year old grappling with issues of personal and poetic identity during one of the most important and pivotal times in European history Geographically socially and genetically an outsider Horace earned himself a seat at Rome s top creative table close to the heart of the political

engine that was to change Rome forever His book details a transformational journey from nobody to somebody and is a simultaneous invention of poet and reinvention of poetic genre Horace s Sermones have floated in and out of fashion ever since they first appeared regularly eclipsed by his Odes Today rehabilitated they find space in the higher levels of the school curriculum This book provides unique insights and will be of interest to all classicists as well as students studying core influences on European literature **Meeting the Sun: a Journey All Round the World Through Egypt, China, Japan and California** William Simpson,1877 **The Book of Acts** F.
