A Voyage Round the World, 2 vols. George Forster,2000-01-01 George Forster s A Voyage Round the World presents a wealth of geographic scientific and ethnographic knowledge uncovered by Cook s second journey of exploration in the Pacific 1772 1775 Accompanying his father the ship s naturalist Johann Reinhold Forster on the voyage George proved a knowledgeable and adept observer The lively elegant prose and critical detail of his account based loosely on his father s journal make it one of the finest works of eighteenth century travel literature and an account of prime importance in the history of European contact with Pacific peoples The Forsters publications reveal the sophistication and enthusiasm they brought to their observation of Polynesian peoples as well as a sensitivity to the moral ambiguities of contact The two volumes of George Forster s work include substantially richer descriptions of encounters with island inhabitants than either

his father's classic work *Observations Made during a Voyage round the World* UH Press 1996 or Cook's official narrative and its confident even visionary style incorporates a good deal of polemic particularly in its criticism of the treatment of islanders by Cook's crew. In addition to the range and depth of its anthropological considerations it provides a thrilling account of life aboard one of Cook's vessels. In its author's German translation this work becomes a classic of natural history writing but its original English version has long been neglected by anglophone scholars. This new scholarly edition makes this important book readily available for the first time since its initial publication more than two centuries ago. But it also presents the work in fresh terms making it more accessible and relevant to a contemporary audience. The valuable introduction and annotations draw on the wide range of anthropological and ethnohistorical scholarship published since the 1960s and contextualize the book in relation to both the cultures of Oceania documented by the Forsters and the history of European voyaging in the Pacific. Appendixes include a translation of the introduction to the German edition and the polemical pamphlets by George Forster and the ship's astronomer William Wales in which some of the book's more controversial claims were debated. *A Voyage Round the World* brings the disciplines of history and anthropology to bear on Cook's voyages in an illuminating and readable fashion. This edition will help complete the corpus of basic documents on Cook's voyages a crucial resource for researchers in cultural Pacific and maritime history archaeologists anthropologists and art historians and most recently for scholars engaged in revisionist interpretations of eighteenth century exploration and colonization. *A Collection of Voyages and Travels, Some Now First Printed from Original Manuscripts. Others Translated Out of Foreign Languages and Now First Publish'd in English,... In Four Volumes. With a General Preface,... The Whole Illustrated with a Great Number of Useful Maps, and Cuts All Engraved on Copper,...*, 1704 **Observations Made During a Voyage Round the World** Johann Reinhold Forster, 1996-01-01 Johann Reinhold Forster's *Observations Made During A Voyage Round The World* first published in 1778 is the most significant and substantial analysis of non Western cultures to have emerged from the Cook voyages. It derived from Forster's appointment as naturalist on Cook's second voyage of 1772-1775 which dramatically extended European cartographic and ethnographic knowledge in the Pacific and the Antarctic. *A Voyage Round the World: Including an Embassy to Muscat and Siam in 1835, 1836, and 1837* W. S. W. Ruschenberger, 2025-07-29 Reprint of the original first published in 1838. The Antigonos publishing house specialises in the publication of reprints of historical books. We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage. **A Collection of Voyages and Travels**, 1744 **A Voyage Round the World** Giovanni Francesco Gemelli Careri, 1700
