**The Arab Left** Tareq Y. Ismael,1976      **The Arab Left** Tareq Y. Ismael,1976      *Arab Education in Israel* Sami Khalil Mar'i,1978-06-01      **Citizenship and the State in the Middle East** Nils A. Butenschon,Uri Davis,Manuel Hassassian,2000-05-01 As a response to processes of globalization regional integration and ethnic conflicts the study of citizenship has regained new interest among social scientists and legal experts This approach focuses on the relationship between the state and the people as individuals and collectivities citizens and non citizens both those living within or outside its borders Citizenship defines the terms of rights and obligations in a society regulates political participation and access to public goods and properties Together with its companion volume Gender and Citizenship in the Middle East this book represents the first systematic critical attempt to interpret the complex nature of Middle East politics from a citizenship perspective In addition the book provides both theoretical contributions and case studies and includes a significant section on Israel and Palestine      Middle East Review ,1976      *Books in Series* ,1985 Vols for 1980 issued in three parts Series Authors and Titles      Contemporary Arab Thought Elizabeth Suzanne Kassab,2025-04-29 In the last third of the twentieth century the Arab intellectual and political scene polarized between totalizing doctrines nationalist Marxist and religious and radical critique Arab thinkers were reacting to the disenchanting experience of postindependence and a widespread sense of malaise as well as to authoritarianism intolerance injustice failed development and successive defeats by Israel The foundational account of these responses Contemporary Arab Thought illuminates the relationship between cultural and political critique in the work of major Arab thinkers Elizabeth Suzanne Kassab also connects Arab debates to the postcolonial issues of Latin America and Africa revealing the shared struggles of different regions Since its first publication in 2009 this book has stood as the foremost account of contemporary Arab debates on culture philosophy modernity tradition identity and liberation It is widely used in Middle Eastern studies courses and it has become a classic in the field of Arab intellectual history Contemporary Arab Thought now features an extensive new introduction that reconsiders post 1967 Arab intellectual history in light of the 2011 uprisings and the upheavals that have occurred over the intervening years Kassab critically reflects on the book s arguments and the responses it has provoked and she surveys the new preoccupations that have emerged in Arab debates since 2011 As crises again overtake the Middle East this landmark work continues to offer indispensable insight into the richness of contemporary Arab thought      01-04-2024,الكتاب العربي المعاصر      376      *From Occupation to Occupy* Sina Arnold,2022-09-06 The recent rise of antisemitism in the United States has been well documented and linked to groups and ideologies associated with the far right In *From Occupation to Occupy* Sina Arnold argues that antisemitism can also be found as an invisible prejudice on the left Based on participation in left wing events and demonstrations interviews with activists and analysis of left wing social movement literature Arnold argues that a pattern for enabling antisemitism exists Although open antisemitism on the left is very rare there are recurring instances of antisemitic

trivialization in which antisemitism is not perceived as a relevant issue in its own right leading to a lack of empathy for Jewish concerns and grievances Arnold's research also reveals a pervasive defensiveness against accusations of antisemitism in left wing politics with activists fiercely dismissing the possibility of prejudice against Jews within their movements and invariably shifting discussions to critiques of Israel or other forms of racism From Occupation to Occupy offers potential remedies for this situation and suggests that a progressive political movement that takes antisemitism seriously can be a powerful force for change in the United States *Israel* Edgar S. Marshall, 2002 There has probably never been a country in the history of the world like Israel the homeland for Jews from all around the world a visceral enemy of Arab countries called a client state of the United States a developed country in its own right by its own hands Israel has seen many events since its founding in 1948 but peace it has not found The book examines current issues swirling about Israel as well as presents the historical background necessary for grasping its place in the world today *Encyclopedia of journalism. 6. Appendices* Christopher H. Sterling, 2009-09-25 The six volume Encyclopedia of Journalism covers all significant dimensions of journalism including print broadcast and Internet journalism US and international perspectives history technology legal issues and court cases ownership and economics **Britain and the Middle East** Sir Reader Bullard, 2025-04-01 First published in 1951 Britain and the Middle East sets forth briefly the relations which the people and the government of Britain had with the Middle East from the earliest records of such relations until 1950 The term Middle East used in this book includes what used to be called the Near East as well as most of the Middle East proper It covers Turkey and Iran Persia Cyprus Syria and Lebanon Palestine and Trans Jordan Israel and Jordan Iraq Egypt the Sudan and the whole of the Arabian Peninsula

**Married to Another Man** Ghada Karmi, 2007-05-20 Two rabbis visiting Palestine in 1897 observed that the land was like a bride beautiful but married to another man By which they meant that if a place was to be found for Israel in Palestine where would the people of Palestine go This is a dilemma that Israel has never been able to resolve No conflict today is more dangerous than that between Israel and the Palestinians The implications it has for regional and global security cannot be overstated The peace process as we know it is dead and no solution is in sight Nor as this book argues will that change until everyone involved in finding a solution accepts the real causes of conflict and its consequences on the ground Leading writer Ghada Karmi explains in fascinating detail the difficulties Israel's existence created for the Arab world and why the search for a solution has been so elusive Ultimately she argues that the conflict will end only once the needs of both Arabs and Israelis are accommodated equally Her startling conclusions overturn conventional thinking but they are hard to refute *A Creative Approach to the Common Core Standards* Harry Chaucer, 2012-04-12 Challenges educators to design programs that boldly embrace the Common Core State Standards by imaginatively drawing from the genius of great men and women such as Leonardo da Vinci A central figure in the High Renaissance Leonardo made extraordinary contributions as a painter architect sculptor scientist engineer and futurist This book demonstrates that schools can cultivate genius such as Leonardo

s while ensuring that all students realize the core skills crucial to citizens Relevant to public and independent educators who are creating schools within schools and charter schools renewing schools or rethinking their own classrooms this book serves as a model of biographical curricula that embraces the standards that Americans share as citizens in a democracy

**Transport Lessons from the Fuel Tax Protests of 2000** Kiron Chatterjee, 2017-07-05 The UK fuel tax protests of September 2000 generated considerable debate about fuel prices and taxation and put transport in the media spotlight Away from the immediate events and debates surrounding the protests the experience offered the opportunity for longer term lessons on transport to be gained The editors of this volume Glenn Lyons and Kiron Chatterjee saw the opportunity to get fresh insight into car dependence and conducted a large scale travel behaviour survey to find out how car users coped when restricted in being able to buy petrol This book presents their findings and collects together articles written by other researchers on a range of topics including fuel taxation transport pricing policy acceptability travel behaviour and goods distribution

The Time of Turāth Harald Viersen, 2024-12-02 Recent Arab intellectual debates are often described as revolving around Arab Islamic cultural heritage tur th and the role that it ought to play in modern society This debate is standardly characterized as a confrontation between traditionalists and modernists the former idolizing an authentic heritage the latter blaming traditionalism for Arab society's inability to modernize This study argues that this standard narrative has become overly dominant making it impossible for different perspectives to be either voiced or heard It calls for a critical review of how we think about contemporary Arab thought through an analysis of the progressive linear temporal structure underlying the authenticity modernity dichotomy Looking in detail at three Arab intellectuals of the last fifty years Zak Naj b Ma m d Adonis and Abd al Ra m n h the study shows how this temporal structure underlies their thinking but also how their efforts to break away from it build on a critique of its temporal basis This analysis in turn enables an overhaul of the authenticity modernity paradigm which not only leads to a richer critical engagement with contemporary Arab thought but also brings out its moral dimensions

*The Politics of Art* Hanan Toukan, 2021-06-08 Over the last three decades a new generation of conceptual artists has come to the fore in the Arab Middle East As wars peace treaties sanctions and large scale economic developments have reshaped the region this cohort of cultural producers has also found themselves at the center of intergenerational debates on the role of art in society Central to these cultural debates is a steady stream of support from North American and European funding organizations resources that only increased with the start of the Arab uprisings in the early 2010s The Politics of Art offers an unprecedented look into the entanglement of art and international politics in Beirut Ramallah and Amman to understand the aesthetics of material production within liberal economies Hanan Toukan outlines the political and social functions of transnationally connected and internationally funded arts organizations and initiatives and reveals how the production of art within global frameworks can contribute to hegemonic structures even as it is critiquing them or how it can be counterhegemonic even when it first appears not to be In so doing Toukan proposes

not only a new way of reading contemporary art practices as they situate themselves globally but also a new way of reading the domestic politics of the region from the vantage point of art      *Social Voices* Levi S. Gibbs, 2023-09-05 Singers generating cultural identity from K Pop to Beverly Sills Around the world and across time singers and their songs stand at the crossroads of differing politics and perspectives Levi S Gibbs edits a collection built around the idea of listening as a political act that produces meaning Contributors explore a wide range of issues by examining artists like Romani icon Esma Red epova Indian legend Lata Mangeshkar and pop superstar Teresa Teng Topics include gendered performances and the negotiation of race and class identities the class related contradictions exposed by the divide between highbrow and pop culture links between narratives of overcoming struggle and the distinction between privileged and marginalized identities singers ability to adapt to shifting notions of history borders gender and memory in order to connect with listeners how the meanings we read into a singer s life and art build on one another and technology s ability to challenge our ideas about what constitutes music Cutting edge and original *Social Voices* reveals how singers and their songs equip us to process social change and divergent opinions Contributors Christina D Abreu Michael K Bourdaghs Kwame Dawes Nancy Guy Ruth Hellier John Lie Treva B Lindsey Eric Lott Katherine Meizel Carol A Muller Natalie Sarrazin Anthony Seeger Carol Silverman Andrew Simon Jeff Todd Titon and Elijah Wald      **Middle East Contemporary Survey** Bruce Maddy-Weitzman, 2003-05 Established in 1977 the Middle East Contemporary Survey is designed to be a current reference for scholars researchers and analysts policymakers students and journalists Each volume examines in detail the rapidly changing Middle Eastern scene in all its complexity Subjects include inter Arab relations Islamic affairs economic developments and the relations between major world powers and the Middle East Country by country surveys of seventeen Arab states and the Palestinian Authority Iran Israel and Turkey are also included Regional aspects of foreign policies and internal development which have wider implications on inter Arab relations and Islamic affairs are amply covered with special emphasis on elucidating the inner dynamics of each country s politics and society      **The Rise of the Arab American Left** Pamela E. Pennock, 2017-02-07 In this first history of Arab American activism in the 1960s Pamela Pennock brings to the forefront one of the most overlooked minority groups in the history of American social movements Focusing on the ideas and strategies of key Arab American organizations and examining the emerging alliances between Arab American and other anti imperialist and antiracist movements Pennock sheds new light on the role of Arab Americans in the social change of the era She details how their attempts to mobilize communities in support of Middle Eastern political or humanitarian causes were often met with suspicion by many Americans including heavy surveillance by the Nixon administration Cognizant that they would be unable to influence policy by traditional electoral means Arab Americans through slow coalition building over the course of decades of activism brought their central policy concerns and causes into the mainstream of activist consciousness With the support of new archival and interview evidence Pennock situates the civil rights struggle of Arab Americans within the story of other

political and social change of the 1960s and 1970s By doing so she takes a crucial step forward in the study of American social movements of that era
