The Queens of the Arabs During the Neo-Assyrian Period Ellie Bennett, 2024-05-03 The title Queen of the Arabs is applied in Neo Assyrian texts to five women from the Arabian Peninsula These women led armies offered tribute and held religious roles in their communities from 738 to approximately 651 BCE This book discusses what the title meant to the women who carried it and to the Assyrians who wrote about them Whereas previous scholarship has considered the Queens of the Arabs in relation to the military and economic history of the Neo Assyrian empire Eleanor Bennett focuses on identity using gender theory to locate points of the women s alterity in Assyrian sources and to analyze how Assyrian cultural norms influenced the treatment of the Queens of the Arabs This kind of analysis shows how Assyrian perceptions of the Queens of the Arabs and of Arabian populations more generally changed over time As the Queens of the Arabs were located on the periphery of the Assyrian Empire Bennett incorporates data from the Arabian Peninsula The shift from an Assyrian lens to an Arabian one highlights inaccuracies in the Assyrian material which brings into focus Assyrian misunderstandings of the region The Arabian Peninsula also offers comparative models for the Queens of the Arabs based on Arabian cultures

The Arabs in Antiquity Jan Retso, 2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam is described in this book It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history It is suggested that the ancient Arabs were more a religious community than an ethnic group which would explain why the designation Arab could be easily adopted by the early Muslim tribes The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed both being united by common bonds of religious ideology and law

The Legal Status Of The Arabs In Israel David Kretzmer, 2019-06-26 This study examines how the Israeli legal system copes with two major issues The first is the tension between the constitutional definition of Israel as both a Jewish state and a democracy committed to equal rights for all of its citizens The second issue is the delicate position of a national minority in a state that since its establishment has been involved in a bitter conflict with the Palestinian nation to which that minority belongs

Byzantium and the Arabs in the Sixth Century Irfan Shahîd, 1995 Byzantium and the Arabs in the Sixth Century is devoted to frontier studies and to the structures of the Arab federates of Byzantium It deals mainly with the Ghassanids of Oriens in the sixth century a time of transition from Late Antiquity to the Middle Ages The focus of this study is on the military religious and civil structures of the Ghassanids The detailed study of these buildings contributes to our understanding of Byzantine provincial art and architecture in Oriens as they were adopted by the federate Arabs and later adapted to their own use As monuments of Christian architecture these federate structures constitute the missing link in the development of Arab architecture in the region the link between the earlier pagan Nabataean and Palmyrene and later Muslim Umayyad
