The Art And Life Of Pompeii And Herculaneum:

The Art and Life of Pompeii and Herculaneum Michael Grant, 1979 Bibliography p 83 **The Art and Life of Pompeii and Herculaneum** Michael Grant, 1979 **Pompeii** August Mau, 1899 **A Catalog of Identifiable Figure Painters of Ancient Pompeii, Herculaneum, and Stabiae** Lawrence Richardson, 2000 A herculean effort to identify the hands of individual wall painters who worked in Pompeii and the surrounding area How did figure painting fit into the economic and artistic life of Pompeii Did the best painters work in conjunction with one another Did they paint only the important pictures in the best rooms and if so who painted the rest Were the best houses the showplaces for these painters work If not what was the function of these decorations in Pompeian life L Richardson jr has had a long and distinguished career writing about Roman art and architecture particularly that of the companion town of Pompeii and its environs In this newest work he attributes many of the surviving wall decorations to particular painters It is a catalog in the true sense grouping the pictures by style and then by painter Richardson describes the salient characteristics of a painter s work and then inventories the pictures he attributes to that painter together with cross references to other catalogs and sources of good reproductions The book will serve as a valuable resource for specialists in classics and art history as well as a unique guide for intellectually adventurous tourists visiting the Museo Nazionale at Naples and the sites of Pompeii Herculaneum and Stabiae The Readers' Guide and Students' Review Hampstead Public Libraries (London, England), 1910 *Life in the Roman World of Nero and St. Paul* Thomas Tucker, 2018-01-19 The best means of realising the extent of the Roman Empire in or about the year 64 is to glance at the map It will be found to reach from the Atlantic Ocean to the Euphrates from the middle of England approximately the river Trent to the south of Egypt from the Rhine and the Danube to the Desert of Sahara The Mediterranean Sea is a Roman lake and there is not a spot upon its shores which is not under Roman rule In round numbers the empire is three thousand miles in length and two thousand in breadth Its population which at least in the western parts was much thinner then than it is over the same area at present cannot be calculated with any accuracy but an estimate of one hundred millions would perhaps be not very far from the mark In the Shadow of Vesuvius Tasha Alexander, 2020-01-07 In skillfully intertwined storylines from the dawn of the twentieth century and the heyday of the Roman Empire Tasha Alexander s *In the Shadow of Vesuvius* the latest installment to her bestselling series brings Lady Emily and her husband to Pompeii where they uncover a recent crime in the ancient city Some corpses lie undisturbed longer than others But when Lady Emily discovers a body hidden in plain sight amongst the ruins of Pompeii she sets in motion a deadly chain of events that ties her future to the fate of a woman whose story had been lost for nearly two thousand years Emily and her husband Colin Hargreaves have accompanied her dear friend Ivy Brandon on a trip to Pompeii When they uncover a corpse and the police dismiss the murder as the work of local gangsters Emily launches an investigation of her own She seems to be aided by the archaeologists excavating the ruins including a moody painter the enigmatic site director and a free thinking American

capable of sparring with even the Duke of Bainbridge But each of them has secrets hiding among the ruins The sudden appearance of a beautiful young woman who claims a shocking relationship to the Hargreaves family throws Emily's investigation off course And as she struggles to face an unsettling truth about Colin's past it becomes clear that someone else wants her off the case for good Emily's resolve to unearth the facts is unshakable But how far below the surface can she dig before she risks burying herself along with the truth

Roman Furniture Alexandra Croom, 2007 After an introduction to the sources of evidence and the different materials used in making Roman furniture the individual chapters touch on different categories such as couches beds tables and chairs as well as stools cupboards storage boxes and shelving A special emphasis is placed on furniture used in Italy's northwest provinces The final part of the book discusses the types found in rich and poor houses including farms and military barracks in addition to the kinds usually found in specific rooms This is the first general reference on Roman furniture to be published in English
