*The Art of Cloning and Eternal Life* Lorenz F. Kraus, 1997-08-01      The Art of Cloning Pang Laikwan, 2017-01-10

Cultural production under Mao and how artists and thinkers found autonomy in a culture of conformity In the 1950s a French journalist joked that the Chinese were blue ants under the red flag dressing identically and even moving in concert like robots When the Cultural Revolution officially began this uniformity seemed to extend to the mind From the outside China had become a monotonous world a place of endless repetition and imitation but a closer look reveals a range of cultural experiences which also provided individuals with an obscure sense of freedom In *The Art of Cloning* Pang Laikwan examines this period in Chinese history when ordinary citizens read widely traveled extensively through the country and engaged in a range of cultural and artistic activities The freedom they experienced argues Pang differs from the freedom under Western capitalism to express individuality through a range of consumer products But it was far from boring and was possessed of its own kind of diversity

Liberal Eugenics Nicholas Agar, 2008-04-15 In this provocative book philosopher Nicholas Agar defends the idea that parents should be allowed to enhance their children's characteristics Gets away from fears of a Huxleyan Brave New World or a return to the fascist eugenics of the past Written from a philosophically and scientifically informed point of view Considers real contemporary cases of parents choosing what kind of child to have Uses moral images as a way to get readers with no background in philosophy to think about moral dilemmas Provides an authoritative account of the science involved making the book suitable for readers with no knowledge of genetics Creates a moral framework for assessing all new technologies

Fetting, 2009-06 After drifting off into every realm imaginable a curiosity soon came to mind about another world a world where spirits played As the shiny red ball bounced around in my box minded head I wondered can the spirit be released through the use of cryogenic storage and if so would the spirit respect its obligation towards the body when it thawed And then comes the spiritual world s inclusion to the argument What kind of knowledge would it allow to be shared The story begins in a land many times long ago during a period when the planet s ability to sustain life was failing to keep up with the radical changes of its seemingly final days Many years before this a man had won one granting from G O D to be the last man left alive Set aside but not lost a single cell now rested frozen in a womb buried beneath the barrens of an ice laden land Once it had become created the being had the same rights offered to all mankind to give birth to a spirit and so forth forced a new beginning and eventually lead to the creation of the mind s that we now know Utilizing a primitive frame the art of cryogenics becomes normal practice for a man that refused to ever die as if to prevent mankind from having the same end      [Living on Borrowed Time](#) Zygmunt Bauman, 2013-04-24 The global financial crisis has shattered the illusion that all was well with capitalism and forced us to confront the great challenges we face today with a new sense of urgency Few are better placed to do this than Zygmunt Bauman a social thinker whose writings on liquid modernity have pioneered a new way of seeing the world in which we live at the dawn of the 21st Century Our liquid modern world is characterized by the transition from a society of producers to a society of consumers the natural extension of which is the society of perpetual debtors The ruling idea of the society of consumers is to prevent needs from being satisfied and to create demand its natural extension is to enable consumers to consume more by borrowing Debt was transformed into a crucial profit earning asset of capitalism in liquid modern times The present day credit crunch is not the outcome of the banks failure but rather the fruit of their success in transforming the majority of men and women young and old into a race of

debtors They got what they were looking for a society of debtors whose condition of being in debt was made self perpetuating with more debts being offered and more undertaken as the only way of escaping from the debts already incurred Starting from this reflection on the current global financial crisis and prompted by the probing questions of his interlocutor Citlali Roviroso Madrazo Bauman examines in an historical perspective some of the most pressing moral and political issues of our time from international terrorism and the rise of religious and secular fundamentalism to the decline of the nation state and the threats posed by global warming issues whose seriousness and urgency attest to the fact that we are living today not only on borrowed money but also on borrowed time      **Theology in Global Context** Amos Yong, Peter G. Heltzel, 2016-10-06

Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work      Beyond the Consumption Bubble Karin Ekström, Kay Glans, 2010-12-14 This book brings together a diverse set of expert scholars to enliven and sharpen the debate about the ways in which consumption affects society today Research on consumption can shed light on many fundamental questions such as the character of society including social and cultural dimensions the relations between the generations dependency of technology and the risks involved the rise of Asia and its potential consumption preferences the question of whether we must continuously increase our consumption to avoid a recession and whether this is ecologically sustainable      *Cloning Terror* W. J. T. Mitchell, 2011 The phrase War on Terror has quietly been retired from official usage but it persists in the American psyche and our understanding of it is hardly complete Exploring the role of verbal and visual images in the War on Terror the author finds a conflict whose shaky metaphoric and imaginary conception has created its own reality      **The Art of Being Human** Michael Rose, 2022-12-04 Fake news genetic engineering designer babies Big Pharma incipient totalitarian rule the destruction of books transhumanism the desire to play God and the serial misuse of the word science it may sound a lot like America in the 2020s but these politically charged modern concerns have been probed deeply in classic fiction by a host of prescient authors over the past two centuries The Art of Being Human draws some much needed attention to the impact great literature can and does have especially in the realm of the cautionary tale in considering how we might learn from the past in order to inform our present decisions and plan for the future all the while maintaining our humanity amid a dehumanizing world      European Theories in Former Yugoslavia Zarko Cvejić, Andrija Filipović, Miško Šuvaković, 2015-09-18 European Theories in Former Yugoslavia shows that there is no such thing as a direct transfer or influence of theories from the centre to the margins but only complex practices of borrowing translating and reinterpreting conditioned by specific contexts in this case those of former Yugoslavia and its contemporary cultural sphere Here reception is no longer simply about receiving fresh knowledge from the centre but also

about communicating feedback into broader contexts shaped by multicultural and global connections and exchange The book poses broader questions about contemporary theory today what are theories today How do specialised theories of culture gender media and art history relate to current philosophical turns in new materialism neo Marxism and biopolitics These questions posed from the perspective of a European periphery in this case former Yugoslavia gesture toward the dialectically tense relationship between the centre and the margins that is between original theories and their transformed perspectives The range of authors brought together here offers a cross section of post Yugoslav theory comprising both young scholars in the early stages of their academic careers and more senior established thinkers educated both in the region and abroad and coming from a variety of academic backgrounds including art theory gender theory cultural studies and theory sociology anthropology theatre studies musicology political theory and literary theory among others The schools of thought they address elaborate on critique and apply in their texts are similarly varied from French post structuralist theory and philosophy via German critical and postmodern theory to a number of other topics and authors in contemporary European theory and philosophy The book will be of interest to students and scholars of art and media theory philosophy sociology and cultural studies and their reception interpretation application and elaboration in the region of former Yugoslavia **YER BORN, LIFE SUCKS, DEATH HAPPENS plus THE IRAQLE DEBACLE, A WRECK-TROSPECTIVE** appleton

**Art Power** Boris Groys, 2013-02-08 A new book by Boris Groys acknowledges the problem and potential of art's complex relationship to power Art has its own power in the world and is as much a force in the power play of global politics today as it once was in the arena of cold war politics Art argues the distinguished theoretician Boris Groys is hardly a powerless commodity subject to the art market's fiat of inclusion and exclusion In Art Power Groys examines modern and contemporary art according to its ideological function Art Groys writes is produced and brought before the public in two ways as a commodity and as a tool of political propaganda In the contemporary art scene very little attention is paid to the latter function Arguing for the inclusion of politically motivated art in contemporary art discourse Groys considers art produced under totalitarianism Socialism and post Communism He also considers today's mainstream Western art which he finds behaving more and more according to the norms of ideological propaganda produced and exhibited for the masses at international exhibitions biennials and festivals Contemporary art Groys argues demonstrates its power by appropriating the iconoclastic gestures directed against itself by positioning itself simultaneously as an image and as a critique of the image In Art Power Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork

**William S. Burroughs at the Front** Jennie Skerl, Robin Lydenberg, 1991 Jennie Skerl and Robin Lydenberg have selected twenty-five critical essays on Burroughs that reflect the historical reception of his work both positive and negative decade by decade and that represent the best essays written about him The essays cover Burroughs' major novels including the cut-up and new trilogies the censorship issue and his work in film and painting The chronological organization brings into critical focus the shift from moral questions raised by the novels' content through examinations of Burroughs' relationship to humanism and modernism and finally to more focused literary and linguistic issues In their introduction the editors survey the progress of Burroughs' critical reception and examine the reasons for the varied and intense responses to the work and the theoretical assumptions behind those responses The reviewers include prominent

figures such as Mary McCarthy and Marshall McLuhan as well as major academic critics such as Cary Nelson Tony Tanner and Ihab Hassan     *The Price of Immortality* Peter Ward,2022-04-19 In the tradition of Jon Ronson and Tim Wu an absorbing and revelatory journey into the American Way of Defying Death As longevity medicine revolutionizes the lives of many older people the quest to take the next step to live as long as we choose has spurred a scientific arms race in search of the elixir of life funded by Big Tech and Silicon Valley Once the stuff of Mesopotamian mythology and episodes of Star Trek the effort to make humans immortal is becoming increasingly credible as the pace of technological progress quickens It has also empowered a wild eyed fringe of pseudo scientists tech visionaries scam artists and religious fanatics who have given their lives over to the pursuit of immortality Starting off at the Church of Perpetual Life in Florida and exploring the feuding subcultures around the cryonics industry Peter Ward immerses himself into an eccentric world of startups scam artists scientific institutions and tech billionaires to deliver this deeply reported nuanced and sometimes very funny exploration of the race for immortality and the potentially devastating consequences should humanity realize its ultimate dream

**DAO-DE-JING (Tao-Te-King)** M.P. Steiner,2022-12-09 To render the Dao De Jing in a modern Western language means to surmount a cultural barrier a scriptural barrier and a time barrier only to find oneself before a multitude of possible interpretations for one glyph or for a pair or a triplet of them Even today s Chinese scholars are divided over what might be the best understanding The brand new version offered here was mainly made comparing three Chinese originals after studying 30 earlier versions in 6 European languages plus several by Chinese scholars and this strictly and for the first time really without any supposually creative interpolations Many shocking inventions in earlier interpretations have been cleared and explained using historical and cultural evidence Other variants textual symmetries and interrelations between the different verses are discussed And this translation has been approved by a Chinese scholar Esoteric commentaries are very in depth from Nr 34 to 81 but only sketchy from Nr 1 to 33 where they recommend an earlier esoteric commentary but not the textual translation used by it around 1980 by Jan van Rijckenborgh and Catharose de Petri This book and its commentaries include usages traditions and outer circumstances of the 6th to 4th centuries b C especially where metaphors and proverbs adorn the original text They always illustrate three levels of understanding that of every day s life of everybody that of the demands for a normal Wise general king or teacher and that of the intimate inner spiritual path of Initiation Some rare and very enlightening pictures are sustaining various interpretations never heard before
